Yuma Territorial Prison State Historic Park	4252#	Tourism / 4	928.783.4771

Arizona's Traveler Information System, 511, can be reached by dialing 511 within Arizona. The system can also be reached by dialing direct, 602.523.0244, or toll-free within the United States, 888.411.7623

From within 511, while in speech recognition mode (not in touch-tone), you can enter a special code known as Speed Code, that brings you to the corresponding area of our system without waiting for and responding to the usual prompts.

For example, if you enter "4215#" (must conclude with the pound key), you will instantly be brought to the Grand Canyon National Park area of our system.

Of course, use of 511 should be limited to those who are not presently driving.

Callers who wish, can even code their phones to include the Speed Codes for their favorite, often-used option(s)-using the proper codes to include pauses between dialing 511 and entering the Speed Code.
