

CMAQ Project Scoring Form Non-MPO Areas

Name: _____

Date: _____

Score Sheet

Project Title	1. Air Quality Benefit	2. Cost Effectiveness	3. Project is included as (TCM/RACM) in Air Quality Plan	6. Project implements MAP-21 National Goals

<u>Title</u>	<u>Score</u>	<u>Scoring Descriptions</u>
Air Quality Benefit	5 10 15 20	<ul style="list-style-type: none"> Unknown or no emissions reductions available Low emissions reductions calculated on project Medium emissions reductions calculated on project High emissions reductions calculated on project
Cost Effectiveness	1 5 10 15	<ul style="list-style-type: none"> Unknown or no cost effectiveness evaluation provided Not Cost Effective \$5,000+ per Kg emissions reduced Marginally Cost Effective \$1,000-\$4,999 per Kg emissions reduced Cost effective <\$1,000 per Kg emissions reduced
Projects included as a TCM/RACM in Air Quality Plan	No – 0 Yes – 5	Preference towards committed control measures in nonattainment area plans or funding future mitigation measures for transportation conformity.
Projects that Implement FHWA National Goals	No – 0 Yes – 10	Preference towards projects that implement the National Goals defined in 23 U.S.Code 150. The project will improve the following (check all that apply): Infrastructure Condition <input type="checkbox"/> System Reliability <input type="checkbox"/> Congestion Reduction <input type="checkbox"/> Freight Movement and Economic Vitality <input type="checkbox"/> Environmental Sustainability <input type="checkbox"/> Reduced Project Delivery Delays <input type="checkbox"/> Safety <input type="checkbox"/>
