
310 REGULATORY SIGNS

Regulatory signs inform highway users of traffic laws or regulations and are erected where needed to fulfill this purpose. Signs are not ordinarily needed to confirm rules of the road.

Regulatory signs are normally erected at or near the locations where the regulations apply. **The sign message shall indicate the requirements imposed by the regulation and be visible and legible to the highway user.**

All regulatory signs shall be retroreflectorized or illuminated to show the same shape and color both by day and by night.

Regulatory sign sizes and legends for various types of facilities are found in the Arizona Manual of Approved Signs.
