## **610 TRAFFIC SIGNAL REQUESTS**

---

A request for a traffic signal can be initiated from within ADOT, a local government, a public official, or a citizen. The request can be for a new traffic signal or for modifications to an existing signal, such as the addition of left-turn phasing.

TGP 611 establishes a uniform procedure for evaluating the need for a new traffic signal as well as establishing uniform guidance on coordination and funding with local agencies.

TGP 612 establishes guidelines for evaluating the need for left-turn phasing.

TGP 613 establishes a uniform procedure for evaluating the need for special access traffic signals and to establish uniform guidance on the funding of special access traffic signals and related geometric modifications.

TGP 614 establishes a priority for scheduling the funding and installation of traffic signals.
