Traffic Engineering Group Cadd Directory Naming Structure
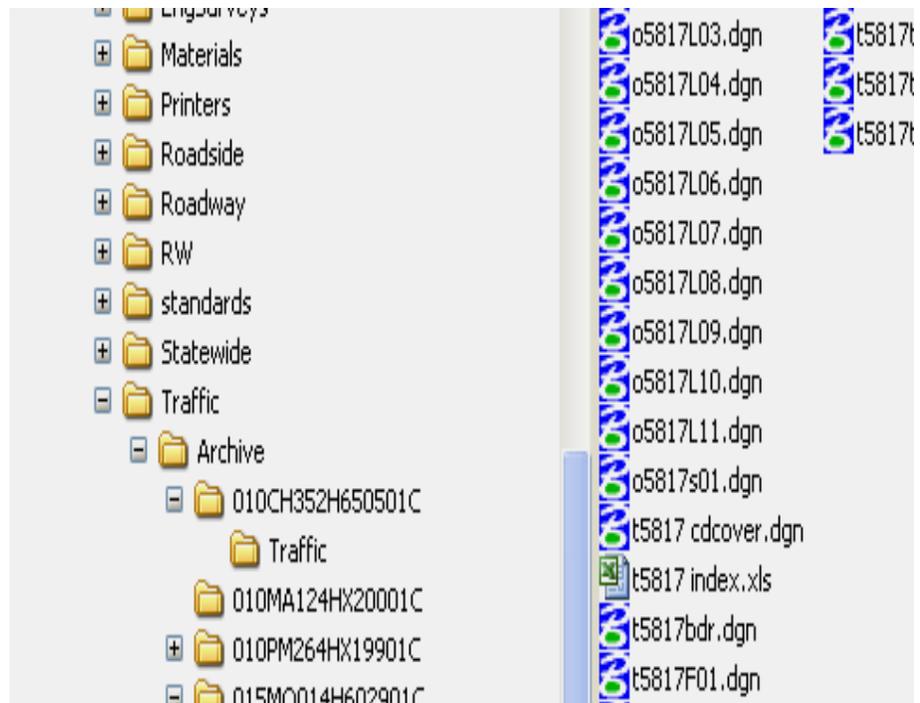

The following directory naming convention shall be used in preparing and submitting traffic engineering Cadd files to the Traffic Engineering Group.

The "root" directory shall consist of the *Route, County, Milepost, and TRACS number*. The root directory shall not contain any spaces. There shall be only one subdirectory named *Traffic*. No additional subdirectories are allowed. All Microstation Cadd and Cadd related files must be included (SignCAD, Excel, etc). All Microstation files must follow the File Naming Convention for Traffic Engineering.

EXAMPLE:

010CH352H650501C
         --------Traffic (Sub directory)
