Below is the revised policy regarding when and how the nearest major Town or highway intersection to the project will be portrayed on the Cover Sheet.

If the project area is within an incorporated (City or Town) area, just the City name/jurisdiction text will be shown on the Cover Sheet, and there will not be any listing of a nearest town, nor will there be any "distance to" mileages listed.

If the project area is not within an incorporated area, the standard will be essentially the same as it has been, but with a couple of minor changes/clarifications. In this situation the nearest Town name or highway intersection will be shown and the "distance to" miles will be shown; however, the mileage shown will be to the nearest whole mile (no decimal miles) and either "plus or minus" symbology will be added to the mileage, or the word "approx" will be added to the mileage.

The current standards exhibit A1 shows the situation of the project being within an incorporated area.

See attached samples for the situation of the project being in an unincorporated area.

Thank you
