Subject: Adding Resolution Number to Cover Sheet for Change Orders/New Project on Old R/W Plans

From time to time, a Change Order is performed on an older set of R/W plans, to show R/W requirements that are for a new and different R/W project than what the plans were originally created for.

For this particular situation, it is the decision of the R/W Plans Manager that in addition to adding the new resolution information to the Cover Sheet, we will also list the Change Order number in front of the resolution number. This will help distinguish it from the resolution number(s) that are already listed, that would have been done for the original project that the plans were created for.

Below is a sample of what it would look like on a current R/W plans cover sheet (lower right hand corner).

APPROVED IN ACCORDANCE WITH

ARIZONA DEPARTMENT OF TRANSPORTATION BOARD

RESOLUTION 2000-03-A-017 DATED 3-17-00

RESOLUTION 2000-11-A-073 DATED 11-18-00

(CO 9645) RESOLUTION2005-05-A-039 DATED 5-19-05
