

Interstate 10: Broadway Curve Environmental Study

INTERSTATE 17 (SPLIT) TO LOOP 202 (SANTAN FREEWAY)

STUDY OVERVIEW

The Arizona Department of Transportation, in partnership with the Federal Highway Administration and the Maricopa Association of Governments, is studying and designing preliminary concepts for improvements to the I-10 Broadway Curve area between I-17 (Split) and Loop 202 (Santan Freeway). The study team is conducting an Environmental Assessment in advance of making proposed improvements.

Potential improvements could include: an additional general purpose lane, and/or high-occupancy vehicle (HOV) lane; a collector-distributor road system; substantial modifications of the I-10/

State Route 143/Broadway Road connections and the I-10/US 60 (Superstition Freeway) connection; as well as other related work.

To obtain environmental clearance, ADOT will complete an Environmental Assessment guided by the National Environmental Policy Act of 1969 (NEPA) and federal and state environmental process requirements. Following the assessment of proposed alternatives and after public comments are received and considered, a determination of the significance of the impacts will be made. If no significant impacts associated with the proposed improvements are identified, the project will receive a Finding of No Significant Impact.

ADOT will provide information and ongoing opportunities for public input during the environmental study phase.

PUBLIC MEETINGS/HEARINGS

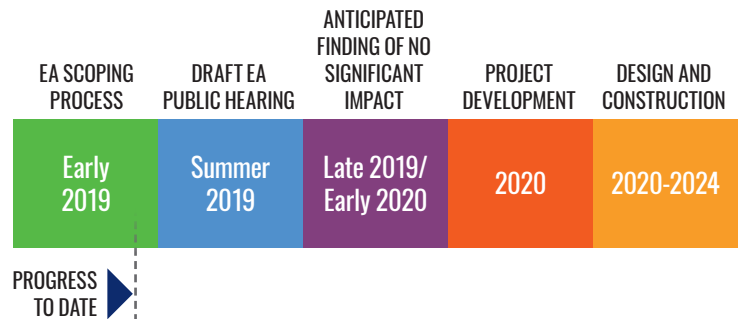

The first public information and scoping meeting is scheduled to occur from 5:30 to 7:30 p.m. Tuesday, Feb. 26, 2019, with a presentation at 6 p.m. at the Rio Salado Conference Center, 2323 W. 14th Street, Tempe, AZ 85281. A public hearing is anticipated to take place in summer 2019.
