Subject: Arizona Department of Transportation (ADOT) Availability Survey

Greetings,

The Arizona Department of Transportation (ADOT) has engaged Keen Independent Research to study the availability of firms to work on public sector projects in Arizona. They are collecting company information through a telephone and online survey of businesses engaged in construction, engineering, equipment supply and other industries.

Over the next several weeks, Customer Research International (CRI) will be calling businesses as part of this survey.

We would greatly appreciate your participation in this survey.

You may contact Keen Independent through the study hotline at (602) 730-0466, or the study email at [adotdisparitystudy2019@keenindependent.com](mailto:adotdisparitystudy2019@keenindependent.com)

More information on the study can be found at: <https://www.azdot.gov/ADOTDisparityStudy>

Sincerely,

Tina Samartinean
