Spring 2017

CUSTOMER CORNER

Our first aircraft is a 1939 Stinson HW-75, which is being restored by Fred, a retired airline mechanic.

Fred enjoys working on his project in his spare time and hopes to have it finished in the next couple of years.

NEW TEAM MEMBER

Allow me to introduce our newest member of the aircraft registration team. Charles Wetlaufer comes to the Aircraft Registration Unit from the Records Unit where he started with ADOT in December 2013. He has a background in record keeping, inventory and administration duties, as well as many years in customer service. He has been married for 28 years and has seven dogs. His

hobbies are his dogs, restoring classic cars, camping in his RV and traveling to northern Arizona. He volunteers with the March of Dimes, helping with setup and take down of the annual March for Babies walk. On weekends, he likes to find treasures at yard sales, swap meets and thrift stores. Please welcome Charles to the unit.

UNIT INFORMATION

During the 2017 aircraft renewal season, Dec. 1, 2016 to Feb. 28, 2017, 5,754 aircraft registration renewals were completed.

Over 4,000 renewals were completed online at <https://apps.azdot.gov/mvd/AircraftRegRenewal/default.aspx>.

The goal is to have all renewals completed online to improve efficiency in the renewal process and to help maintain a high level of customer satisfaction.

AIRCRAFT INFORMATION

The Aircraft Registration Unit would like to start a customer corner within the newsletter where we can share pictures of customer aircraft or project pictures. If you are in the process of doing a restoration, please send pictures and a short description to ACreg@azdot.gov.
