

## PROJECT ADVERTISING AND CONSTRUCTION

5/10/2023

Module 5 attendees will understand the function of the Contracts and Specifications (C&S) Group. A representative from ADOT Public Outreach will discuss engaging with the general public about transportation construction projects within their community. ADOT Partnering staff discusses the relationship ADOT has with our construction contractors and mitigating issues that may arise. A representative from a District Construction Office gives insight on working in construction and managing projects in a timely manner. Lastly, an overview of the Field Office Automation System (FAST) is provided to better understand how ADOT manages a construction project, its cost, and schedule.
