

Material Sources Which Have Previously Completed the ADOT Environmental Analysis Process

Contact: Ed Green - Phone: - E-mail:

Current as of: 03/19/2024

The following material sources have previously completed the ADOT Environmental Analysis process including cultural consultation. This list indicates only completion of an initial environmental analysis. An updated Environmental Analysis must be submitted to the Resident Engineer of each project for approval. The ADOT Engineer will determine whether these and other provisions in the ADOT Specifications have been met for final approval of use of the site.

For inquiries, to find out the specifics of special condition(s), or to report errors in this information, please contact the person shown above. This is not a complete list; please contact the person indicated above for additional information.

Information provided to requestor was developed by the Arizona Department of Transportation. The information was developed for internal use. The Department accepts no responsibility for any conditions encountered which may be at variance from information herein.
