

# US 60/Loop 303 and US 60/163rd Avenue Improvements

## PROJECT FACT SHEET

### OVERVIEW

The Arizona Department of Transportation will be continuing improvements at the US 60 and Loop 303 interchange and the US 60 and 163rd Avenue intersection to improve traffic flow.

### LONG-TERM IMPROVEMENTS

ADOT conducted a feasibility study to identify potential future improvements that could be made to improve traffic flow on US 60/Grand Avenue between Loop 303 and 163rd Avenue. Recommendations include evaluating a possible US 60/Grand Avenue overpass at 163rd Avenue, grade separating eastbound US 60 between RH Johnson and 163rd Avenue and reconfiguring the design of the current 163rd Avenue intersection. There is currently no funding programmed to design or construct these improvements.
