

## HOW TO GET INVOLVED

Two public meetings are planned for the study:

### **Spring 2025 In Person Open House Meeting**

An in-person meeting will be held in **April 2025** to review study information presentation by the study team. The meeting will allow the public to learn about the effort and provide input. Spanish interpretation will be provided at the meeting, if needed.

### **Summer 2025 Virtual Public Meeting**

During the recommendations phase of the study, a virtual meeting will be held. The meeting will include a meeting presentation on study recommendations and an opportunity for questions and comments.

# TOWN OF MIAMI TRAIL SYSTEM STUDY

The Town of Miami Trail System Study is being prepared to evaluate and recommend path improvements along a defined alignment for approximately 5 miles in the Town of Miami area. The alignment starts at the Miami Unified School District area and continues west to Bullion Plaza Cultural Museum, ultimately connecting into the Upper Hummingbird Trail along US 60 just west of town.

The planning level recommendations and cost estimates, identifying improvements for bicycles and pedestrians, can be used for design and construction projects in the future.

ADOT welcomes your questions and comments:
