I-10, Country Club Road Traffic Interchange and I-10 and Kino Parkway Traffic Interchange

Improving I-10
Kino to Country Club

- Design Concept Report, completed in 2019, recommended 18 separate projects
- I-10, Country Club Road Traffic Interchange and I-10 and Kino Parkway Traffic Interchange is the first of these recommended projects to receive funding

Overall Project Need & Purpose

Project Need

- Traffic Capacity and Congestion
 - Projected traffic growth will exceed the current capacity of I-10 and result in unacceptable future anticipated traffic demands.
- Safety
 - The I-10 traffic interchanges have poor operational performance and high crash rates due to spacing and design.
- Transportation System Connectivity
 - There is a lack of north–south arterial options to deliver traffic to the downtown business district, resulting in local trips using I-10 for downtown access.

Project Purpose

- Adding capacity to I-10 to meet future year 2040 traffic demands.
- Improving the Kino Parkway traffic interchange and building a new traffic interchange at Country Club Road to improve the operation, efficiency and safety of drivers.

Current Project Description

Reconstruction of I-10 to consist of:

- Three general purpose lanes on I-10 in each direction between Kino Parkway and Alvernon Way
 - Constructing new I-10 bridges over Ajo Way, Tucson Diversion Channel, Country Club Road, Irvington Road, and Palo Verde Road
- Reconstructing Kino Parkway traffic interchange
 - Constructing new bridges at Ajo Way and Kino Parkway
- Removing the existing Palo Verde Traffic Interchange
- Constructing a new Traffic Interchange at Country Club Road
- Constructing a new I-10 westbound entrance ramp from Alvernon Way
- Constructing a new crossing under I-10 in partnership with Pima County at the Pima County Kino Sports Complex
