Part 7 – Manage Roles	Page 13

### Introduction

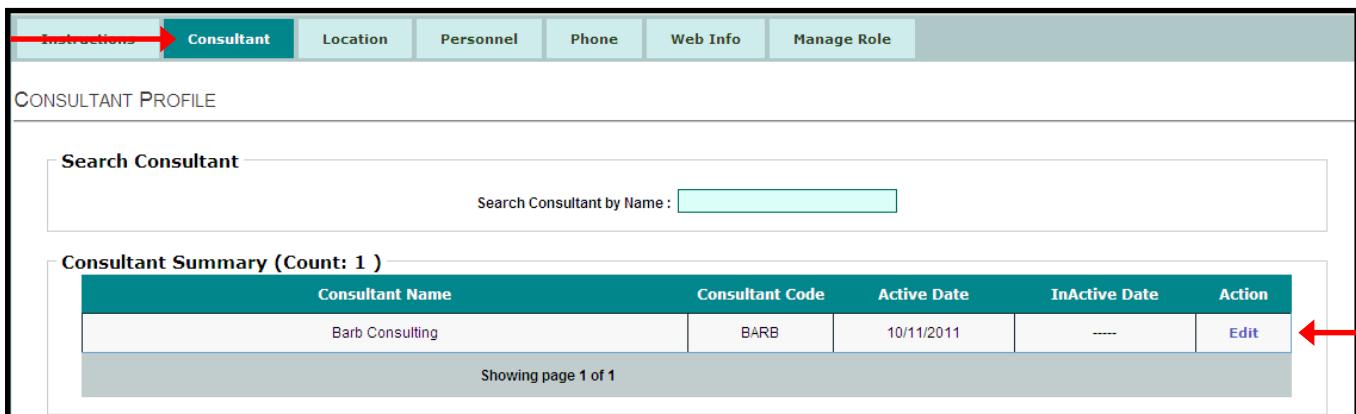

The Consultant Information and Role Management (CIRM) Module is an application that allows ADOT to store and manage your firm's data for the ECS electronic Contract Management System (eCMS). The CIRM module's first purpose is to manage your firm's contact information for employees who have requested access to ADOT's network . It houses general information about your firm and any other firms you are directly affiliated with through mergers, buyouts, or acquisitions. For each firm, the application stores location addresses and phone numbers, as well as your firm's web addresses. The module is designed so you can enter and update data and provides your firm an easy way to keep your company information accurate in ADOT's proprietary applications. The CIRM Module is also intended to maintain phone numbers and e-mail addresses for your employees who currently have access to eCMS modules and applications through ADOT Network. (*Note: It is not intended as a repository for all employee information – only to store information for your personnel with access to our applications.*) The best feature of the CIRM Module is that it allows a designated person from your company, referred to as the CIRM Consultant Administrator to grant and manage permissions for your personnel who have ADOT Network access, enabling your firm to control which eCMS modules each employee has access to and to change this access whenever your needs change.

The easiest way to use this application is to use the top menu tabs as a cue for navigating through the CIRM Module to ensure you have completed all information required. This application provides location data for the Prequalification application, so it is imperative that someone reviews and enters data in this module before you attempt to complete the Prequalification Application Module. This application also provides you a way to give someone access to the Prequalification Application Module, so you must review the roles before you attempt to start your Prequalification Application online.

Step 1:

**Accessing the Consultant Tab - Review your Consultant Profile**

Your consultant profile should list the names of each Firm that you plan to prequalify for and/or anticipate having potential contracts with ECS in the future. If your firm has more than one firm, you will see both displayed here. If a firm that you should be able to access is missing, contact ADOT so we can update your profile.

The screenshot shows the 'CONSULTANT PROFILE' section of the eCMS system. At the top, there is a navigation bar with tabs: Instructions (highlighted with a red arrow), Consultant (selected), Location, Personnel, Phone, Web Info, and Manage Role. Below the navigation bar, the title 'CONSULTANT PROFILE' is displayed. A search bar labeled 'Search Consultant' contains the placeholder 'Search Consultant by Name:'. Underneath the search bar, a table titled 'Consultant Summary (Count: 1)' is shown. The table has columns: Consultant Name, Consultant Code, Active Date, InActive Date, and Action. The data in the table is: Barb Consulting, BARB, 10/11/2011, ----, and an 'Edit' button. A red arrow points to the 'Edit' button. At the bottom of the table, it says 'Showing page 1 of 1'.

Figure 1 – Consultant Profile with a single-parent firm. If you have more than one firm, both will be displayed here.

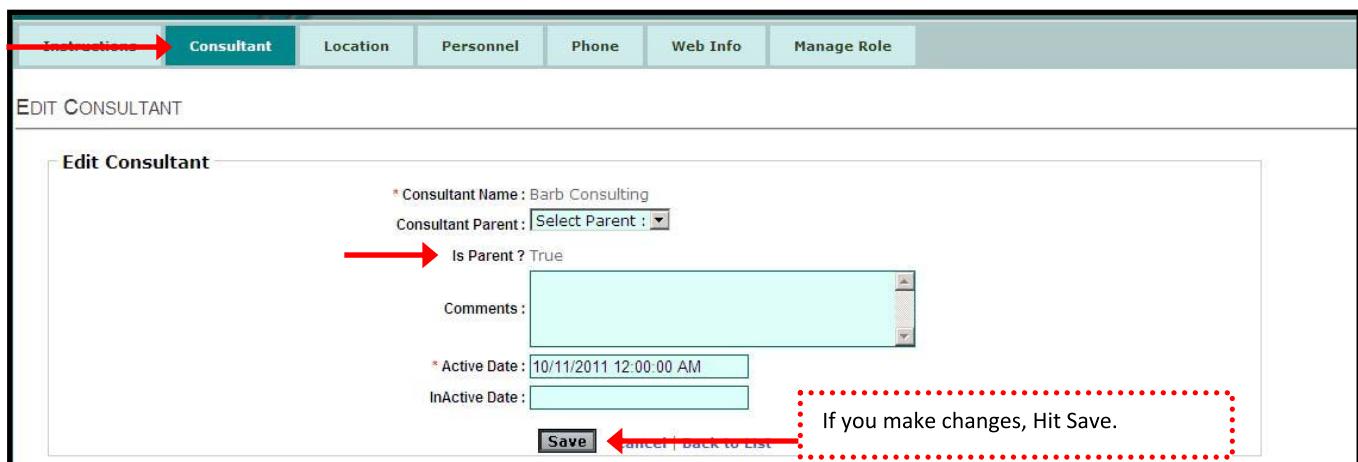

Step 2:

**Click Edit from the Consultant Summary section**

If only one firm is displayed, click the edit button and make sure the "Is Parent" field says "True". You may add comments here if you need to clarify anything about this parent company. You will not be able to change the spelling of the name of your firm.

If a different name should be used, contact ADOT, so we can help you complete the necessary paperwork and make corrections to the company name. Remember: all other eCMS modules will use this firm name, so we want to ensure it is correct. If at any time, this firm is no longer active, an inactive date can be entered.

If you have more than one firm, you can edit either firm; however, the name of a parent firm cannot be edited except by ADOT.

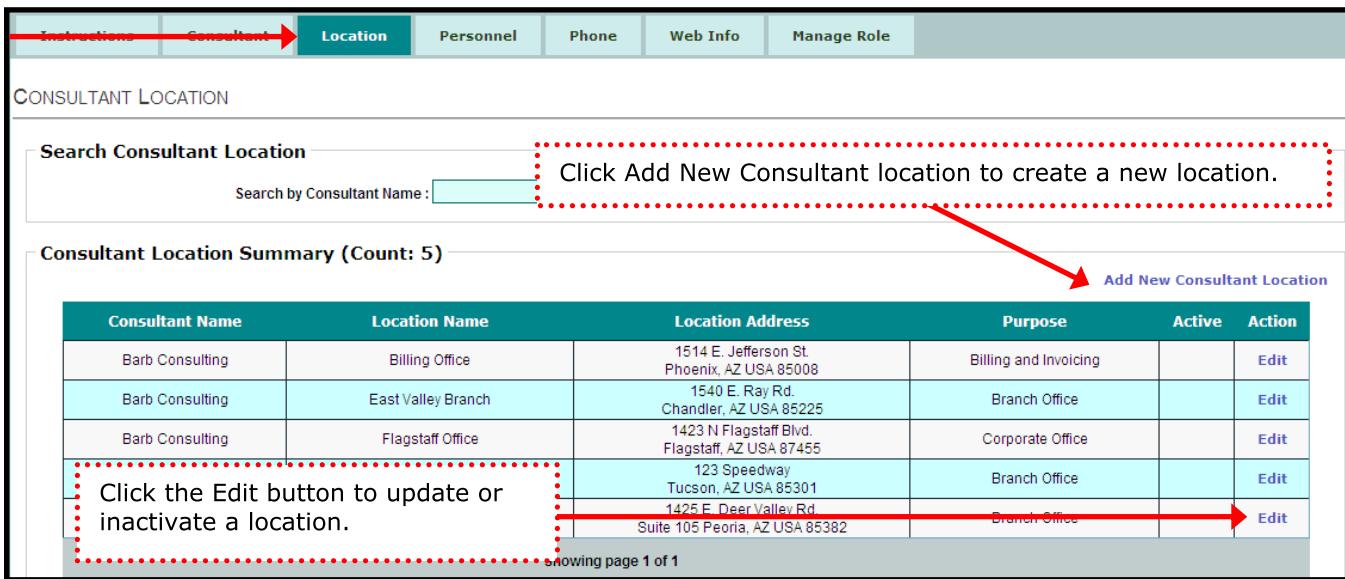

The screenshot shows the 'EDIT CONSULTANT' page. At the top, there is a navigation bar with tabs: Instructions (highlighted with a red arrow), Consultant (selected), Location, Personnel, Phone, Web Info, and Manage Role. Below the navigation bar, the title 'EDIT CONSULTANT' is displayed. A form titled 'Edit Consultant' contains fields: \* Consultant Name: Barb Consulting, Consultant Parent: Select Parent: (dropdown menu), Is Parent? True (with a red arrow pointing to it), Comments: (text area), \* Active Date: 10/11/2011 12:00:00 AM, InActive Date: (text box), Save (button), Cancel (button), and Back to List (link). A red dotted box surrounds the 'Save' button and the 'Cancel' link, with the text 'If you make changes, Hit Save.' written next to it.

Figure 2 – Edit Consultant page with "Is Parent?" set to "True" – demonstrating a Parent Company

**Step 3:**
**Accessing the Location Tab – Review your Firm's locations**

When you first arrive at the Location screen, you will not see any locations. You will need to add locations by clicking the “Add New Consultant Location” link. **Your locations will transfer to your Prequalification Application, so make sure you include all pertinent locations.**

You can name the location whatever name makes sense to your organization, and you can identify the location purpose if you choose. You will also need to provide a current address for each location. Should this address change in the future, you will be able to use the “Edit” button to update the information. You can also deactivate a location, if it closes sometime in the future.

Consultant Name	Location Name	Location Address	Purpose	Active	Action
Barb Consulting	Billing Office	1514 E. Jefferson St. Phoenix, AZ USA 85008	Billing and Invoicing	<input checked="" type="checkbox"/>	<a href="#">Edit</a>
Barb Consulting	East Valley Branch	1540 E. Ray Rd. Chandler, AZ USA 85225	Branch Office	<input checked="" type="checkbox"/>	<a href="#">Edit</a>
Barb Consulting	Flagstaff Office	1423 N Flagstaff Blvd. Flagstaff, AZ USA 87455	Corporate Office	<input checked="" type="checkbox"/>	<a href="#">Edit</a>
Click the Edit button to update or inactivate a location.		123 Speedway Tucson, AZ USA 85301	Branch Office	<input checked="" type="checkbox"/>	<a href="#">Edit</a>
		1425 E. Deer Valley Rd. Suite 105 Peoria, AZ USA 85382	Branch Office	<input checked="" type="checkbox"/>	<a href="#">Edit</a>

Figure 3 – Consultant Location Summary page with 5 Locations

**Step 4:**
**Add Locations**

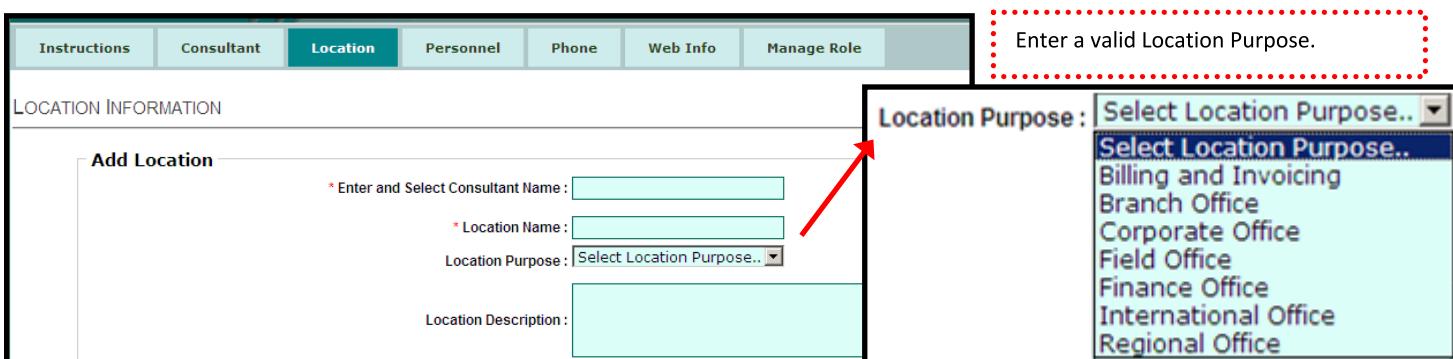

When you click the “Add New Consultant Location”, an “Add Location” screen will open. **Enter the following information:**

Name of the Firm (the name will pop up as you begin typing.)

The Location Name (use whatever name your company uses.)

The Location Purpose

Note: Branch offices are considered permanent locations, while a Field Office is a temporary office or trailer established during a specific project. The Billing and Invoicing Office may be used to direct payments when future applications are developed.

Instructions	Consultant	Location	Personnel	Phone	Web Info	Manage Role
<b>LOCATION INFORMATION</b>						
<b>Add Location</b>						
* Enter and Select Consultant Name : <input type="text"/>						
* Location Name : <input type="text"/>						
Location Purpose : <input type="button" value="Select Location Purpose..."/>						
Location Description : <input type="text"/>						

Enter a valid Location Purpose.

Location Purpose : 

- 
- 
- 
- 
- 
- 
- 
-

Figure 4 – Top portion of the Add Location form

Step 4:

**Add Locations (continued)**

Add the Address: Once you have identified the Location purpose, add the address and an active date, then hit the "Save" button. You will be taken back to the Location Summary page to review your results.

If you have several Branch offices and each will be submitting their own contracts, be sure to include all of them when setting up locations. We will not accept a contract with an address that isn't in this system, so plan accordingly when you enter this information.

If addresses change or a location closes, you will be able to edit the address or even deactivate a location as your firm's situation changes.

Instructions	Consultant	<b>Location</b>	Personnel	Phone	Web Info	Manage Role																														
<b>LOCATION INFORMATION</b>																																				
<b>Add Location</b> <div style="border: 1px dotted red; padding: 5px; margin-bottom: 10px;">                     When you have entered your Firm's name, the Location Name, the Location Purpose and a valid address, Hit Save.                 </div> <table> <tr> <td>* Enter and Select Consultant Name :</td> <td><input type="text"/></td> </tr> <tr> <td>* Location Name :</td> <td><input type="text"/></td> </tr> <tr> <td>Location Purpose :</td> <td><input type="button" value="Select Location Purpose.."/></td> </tr> <tr> <td colspan="2">Location Description :</td> </tr> <tr> <td>* Address Line 1 :</td> <td><input type="text"/></td> </tr> <tr> <td>Address Line 2 :</td> <td><input type="text"/></td> </tr> <tr> <td>* City :</td> <td><input type="text"/></td> </tr> <tr> <td>* Country :</td> <td><input type="button" value="USA"/></td> </tr> <tr> <td>* State/Province :</td> <td><input type="button" value="Arizona"/></td> </tr> <tr> <td>* Zip Code :</td> <td><input type="text"/></td> </tr> <tr> <td>Building Name :</td> <td><input type="text"/></td> </tr> <tr> <td>* Active Date :</td> <td><input type="text" value="10/25/2011"/></td> </tr> <tr> <td>Inactive Date :</td> <td><input type="text"/></td> </tr> <tr> <td colspan="2">Comment :</td> </tr> <tr> <td colspan="2" style="text-align: right;"> <input type="button" value="Save"/>   <a href="#">Cancel</a> <a href="#">Back to Location List</a> </td> </tr> </table>							* Enter and Select Consultant Name :	<input type="text"/>	* Location Name :	<input type="text"/>	Location Purpose :	<input type="button" value="Select Location Purpose.."/>	Location Description :		* Address Line 1 :	<input type="text"/>	Address Line 2 :	<input type="text"/>	* City :	<input type="text"/>	* Country :	<input type="button" value="USA"/>	* State/Province :	<input type="button" value="Arizona"/>	* Zip Code :	<input type="text"/>	Building Name :	<input type="text"/>	* Active Date :	<input type="text" value="10/25/2011"/>	Inactive Date :	<input type="text"/>	Comment :		<input type="button" value="Save"/>   <a href="#">Cancel</a> <a href="#">Back to Location List</a>	
* Enter and Select Consultant Name :	<input type="text"/>																																			
* Location Name :	<input type="text"/>

Comment :																																				
<input type="button" value="Save"/>   <a href="#">Cancel</a> <a href="#">Back to Location List</a>																																				

Figure 5 – Add a Location form. Click “Save” when you have finished adding a location.

Step 5:

#### **Accessing the Personnel Tab – review your Firm’s Personnel**

Your personnel list is not intended to represent all contacts for your firm. This section will list every employee from your firm who have ADOT Mobile Pass .For this reason , you will not be able to add employyes to this section.

For any employee in the future, ADOT will add your employee to this module for you. You will need to select the “Edit” button for each employee in order to properly assign permissions for the employee to provide them access to the various eCMS Modules.

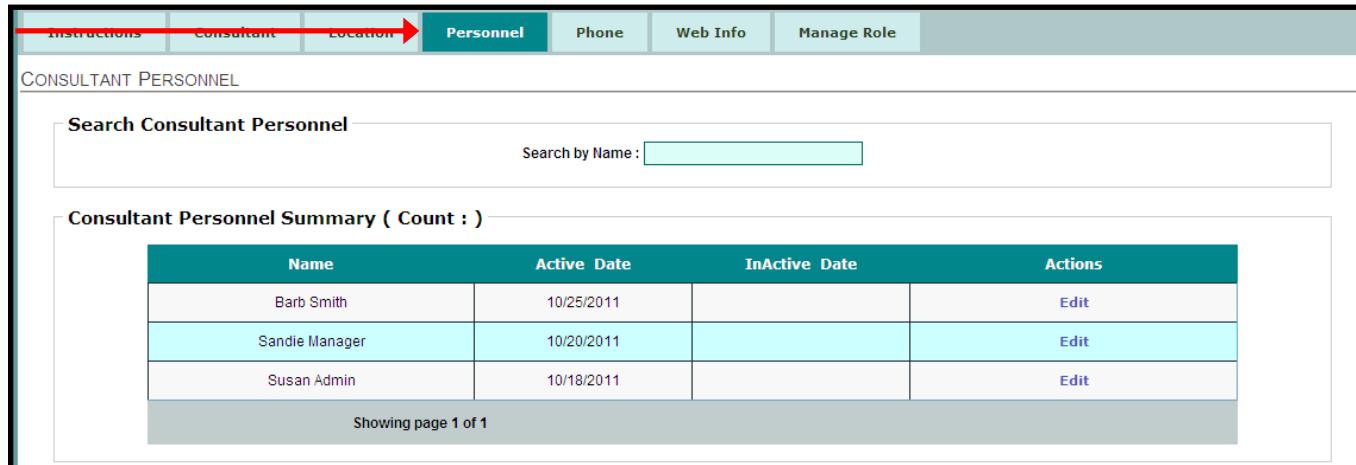

Figure 6 – Personnel Summary Tab which lists all employees with ADOT Network

Step 6:

#### **Edit Consultant Personnel –**

##### **Edit Employee Name or Change Employee Status**

Allows you to edit the name of an employee and provides a way to deactivate an employee if their employment status changes in the future. After making name changes, hit Save.

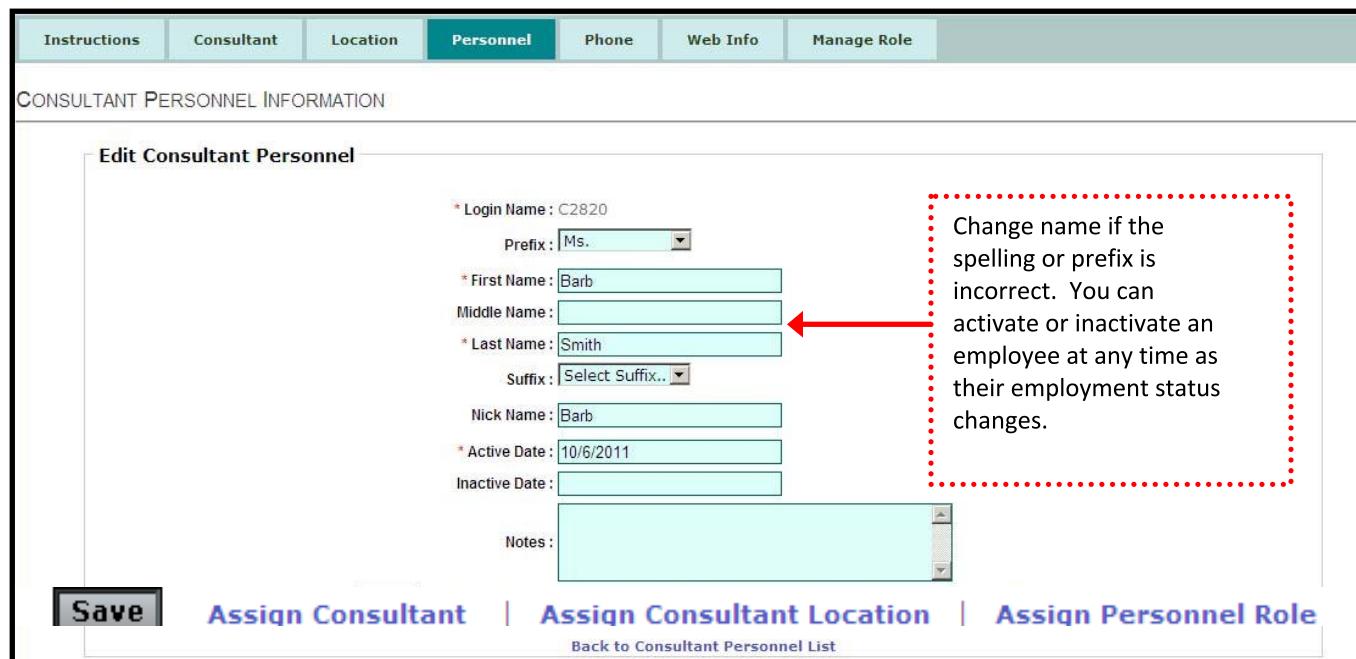

Figure 7 – Edit Personnel page for changing names, activating or deactivating employees and setting permissions: access to assign permissions, firms, and locations.

Step 6:

**Edit Consultant Personnel (continued)**
**Edit Employee Name or Change Employee Status**

The Edit Consultant Personnel page also gives you several options for setting an Employee's access to eCMS applications. The bottom of the page has three links for establishing this access.

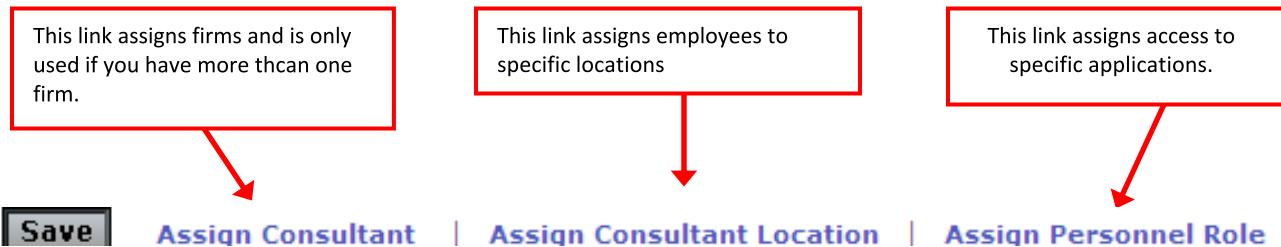

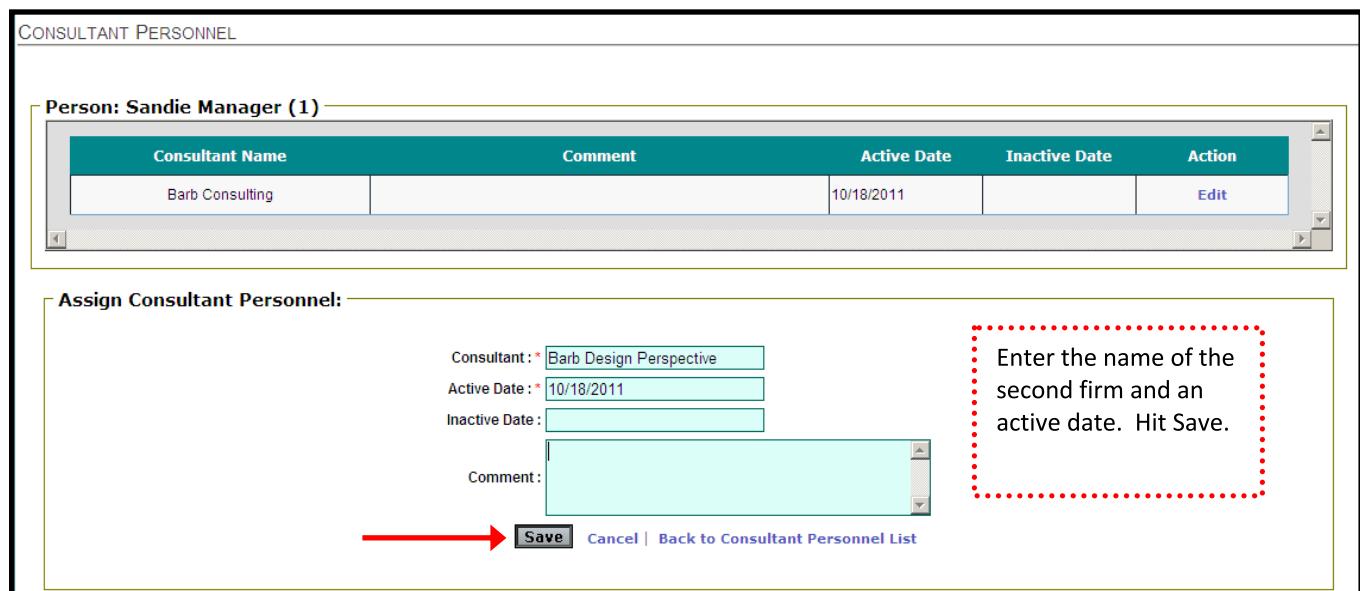

Figure 8 – The bottom of the Edit Personnel page has three links allowing the setting of an employee's permission to Firms, Locations, and access to specific applications.

Step 7: (If you only have one firm, you may skip this step)

**Edit Consultant Personnel –**
**Assign Consultant (used if your company has two firms in same profile)**

If Company A (Barb Consulting) is merging with Company B (Barb Design Perspective), and both companies temporarily have active contracts with ECS, employees can be given access to both firms during the transition.

In the "Assign Consultant Personnel" area, type the name of the Consultant and enter an Active date and hit Save.

**CONSULTANT PERSONNEL**

**Person: Sandie Manager (1)**

Consultant Name	Comment	Active Date	Inactive Date	Action
Barb Consulting		10/18/2011		<b>Edit</b>

**Assign Consultant Personnel:**

Consultant: \*  Enter the name of the second firm and an active date. Hit Save.

Active Date: \*

Inactive Date:

Comment:

**Save** Cancel | Back to Consultant Personnel List

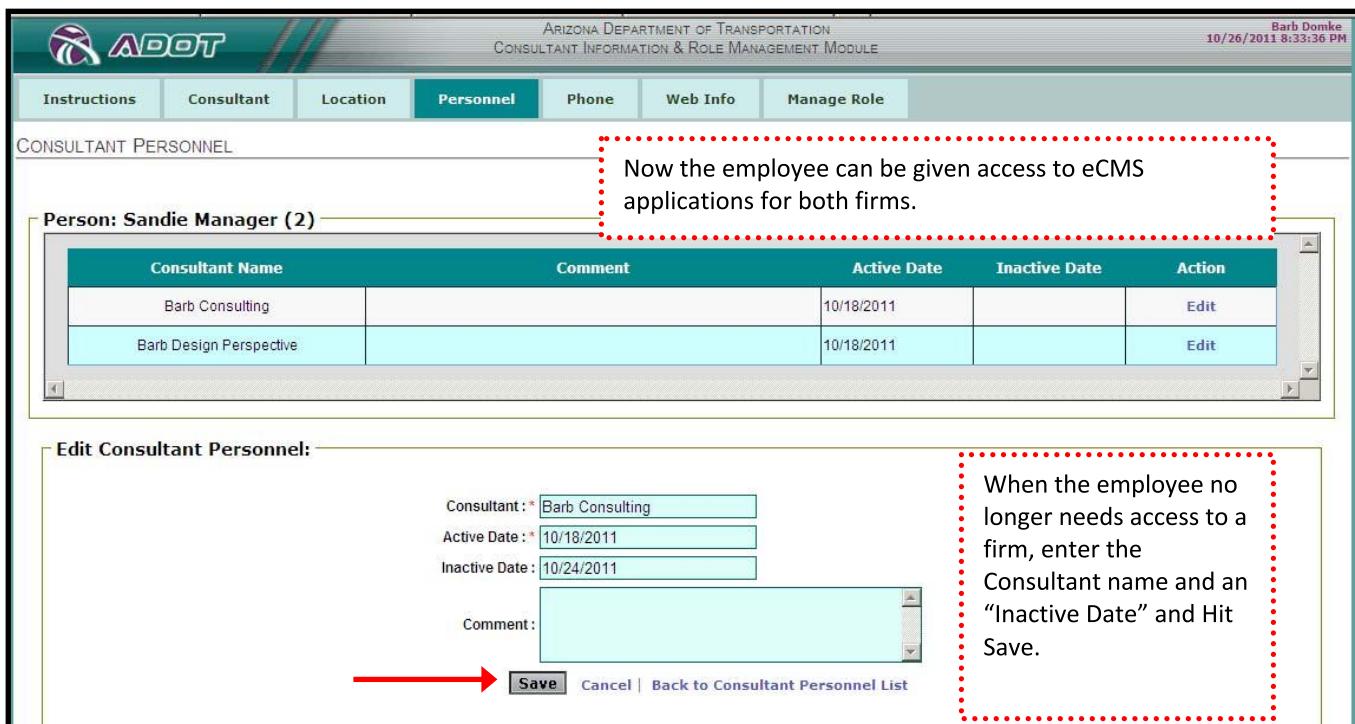

Figure 9 – How to Assign Consultant Personnel to Multiple Firms

Step 7: (If you only have one firm, you may skip this step) **Edit Consultant Personnel (continued)**

## Assign Consultant

Once a second firm is added, both Firms show on the Employee's profile, and the employee can be given access to applications for both firms.

An Inactive date can be entered when the employee no longer needs access.

ARIZONA DEPARTMENT OF TRANSPORTATION  
CONSULTANT INFORMATION & ROLE MANAGEMENT MODULE

Barb Domke  
10/26/2011 8:33:36 PM

Instructions	Consultant	Location	<b>Personnel</b>	Phone	Web Info	Manage Role
<b>CONSULTANT PERSONNEL</b>						
Person: Sandie Manager (2)						
Consultant Name		Comment	Active Date	Inactive Date	Action	
Barb Consulting			10/18/2011		Edit	
Barb Design Perspective			10/18/2011		Edit	

**Edit Consultant Personnel:**

Consultant :\*

Active Date :\*

Inactive Date :

Comment:

**Save** Cancel | Back to Consultant Personnel List

Now the employee can be given access to eCMS applications for both firms.

When the employee no longer needs access to a firm, enter the Consultant name and an "Inactive Date" and Hit Save.

Figure 10 – Assign Consultant Personnel to Multiple Firms

Step 8:

**Edit Consultant Personnel –**

**Assign Consultant Location**

Employees may be given access to only certain locations which will allow them to see content for one location, but not another.

To give an employee access, enter a location (based on the location names previously created) and then enter an Active date.

The access to a certain location may be removed at any time by clicking edit and entering an Inactive date.

Access to a new location may be added by entering the location name, an active date, and hitting Save.

If an employee isn't given access to a location, they will not have access to any information.

Step 8:

**Edit Consultant Personnel (continued) Assign Consultant Location**

Instructions	Consultant	Location	<b>Personnel</b>	Phone	Web Info	Manage Role
--------------	------------	----------	------------------	-------	----------	-------------

**PERSONNEL LOCATION**

**Personnel Location: Sandie Manager (2)**

Consultant Name	Consultant Location Name	Comment	Active Date	Inactive Date	Action
Barb Consulting	Tucson Branch		10/18/2011		<a href="#">Edit</a>
Barb Consulting	East Valley Branch		10/20/2011		<a href="#">Edit</a>

**Assign Consultant Location to Sandie Manager**

Location : \* Billing Office ( Barb Consult )  
Active Date : \* 10/24/2011  
Inactive Date :  
Comment :

Save Cancel Back to Consultant Personnel List

Enter a Location Name and an Active date to give an employee access to a location. Click Edit and enter an inactive date to remove access.

Figure 11 – Personnel Location screen displays location access and allows location information to be added or removed.

Step 9:

**Edit Consultant Personnel –**

**Assign Permissions Roles for eCMS Applications**

Employees may be given access to various eCMS applications on this screen. In the initial launch of the CIRM Module, the only application that will be available to add permissions for will be for the Prequalification Application Module.

Only ADOT can assign the Consultant Administrator role and each firm can only have a maximum of two. The CIRM Consultant Administrator can assign the roles of Consultant Manager, Consultant Staff or set the default role of READ-Only.

**The Role Definitions are as follows:**

Role	Access/Permissions
Consultant Administrator	Read and Edit all data created by anyone in the firm. Can provide access to eCMS modules for other Mobile Pass users.
Consultant Manager	Read and Edit all data created by anyone in the firm.
Consultant Staff	Read and Edit all data they created. READ-Only access for data created by others in the firm.
Consultant READ Only	READ-Only access for all data created by anyone in the firm.

Figure 11 – Chart displaying role definitions

Step 9:

**Edit Consultant Personnel (continued)**
**Assign Permissions Roles for eCMS Applications**

To give permissions, select the check box for each desired application.

During the initial launch the Prequalification Application Module will be the only Module that roles can be assigned for.

In the near future, we will have all four existing eCMS Modules for which permissions can be managed; the Prequalification Module, the SOQ Submittal Module, the Cost Proposal Module and the Consultant Evaluations Module.

As future modules are launched, your firm's CIRM Consultant Administrator will be able to quickly add permissions to these modules for the appropriate employees.

**PERSONNEL ROLES**

Local intranet

Figure 12 –Personnel Roles where Consultant Administrator sets permissions for an employee.

Step 10:

**Consultant Phone –**

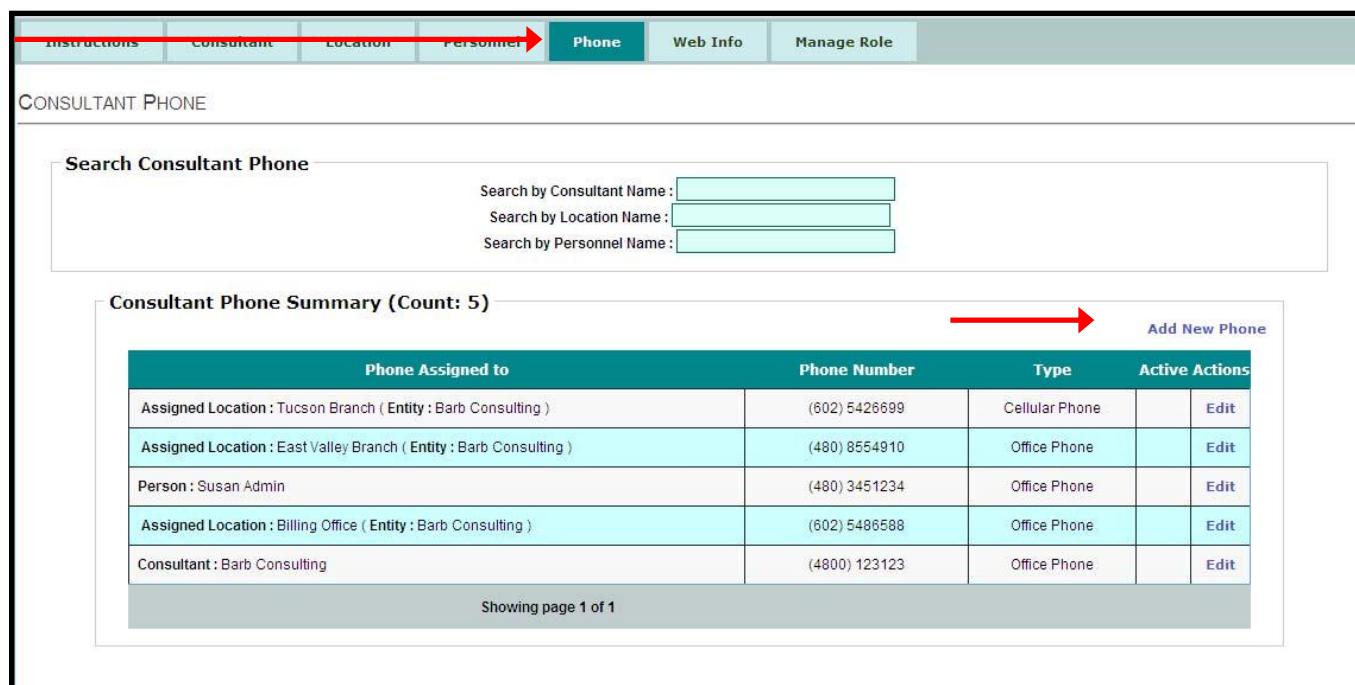

**Review and Add Phone Numbers for the Firm, the Firm's Locations, and the Employees**

The Consultant Phone Summary page will show every number on file for your Firm.

When you first access the Consultant Phone Summary page, you will not have any phone numbers.

You should enter a general phone number for your firm, a general phone number for each location, and a minimum of one phone number for each employee.

It is recommended you have at least one number for each firm, each location, and each person.

The screenshot shows a web-based application interface for managing consultant phone numbers. At the top, there is a navigation bar with tabs: Instructions, Consultant, Location, Personnel, Phone (which is highlighted in red), Web Info, and Manage Role. Below the navigation bar, the title "CONSULTANT PHONE" is displayed. Underneath the title, there is a search section labeled "Search Consultant Phone" containing three input fields: "Search by Consultant Name:", "Search by Location Name:", and "Search by Personnel Name:". To the right of this search section, a red arrow points to a button labeled "Add New Phone". Below the search section, the heading "Consultant Phone Summary (Count: 5)" is shown, followed by a table listing five entries. The table has columns: "Phone Assigned to", "Phone Number", "Type", and "Active Actions". Each entry includes a link to edit the details. At the bottom of the table, a message indicates "Showing page 1 of 1".

Phone Assigned to	Phone Number	Type	Active Actions
Assigned Location : Tucson Branch ( Entity : Barb Consulting )	(602) 5426699	Cellular Phone	<a href="#">Edit</a>
Assigned Location : East Valley Branch ( Entity : Barb Consulting )	(480) 8554910	Office Phone	<a href="#">Edit</a>
Person : Susan Admin	(480) 3451234	Office Phone	<a href="#">Edit</a>
Assigned Location : Billing Office ( Entity : Barb Consulting )	(602) 5486588	Office Phone	<a href="#">Edit</a>
Consultant : Barb Consulting	(4800) 123123	Office Phone	<a href="#">Edit</a>

<div style="border: 1px dashed red; padding: 5px; width: fit-content; margin-left: auto; margin-right: 0;">           Select a radio button for the Assign Phone# and then enter the appropriate name of the Consultant, Location, or Person.         </div>						

Figure 14 – Add Consultant Phone Information with Phone Types

Enter the Phone Type: Cell, Work, Fax, or Other.

Enter the proper phone number and area code.

Select the appropriate Assign Phone# Radio Button (Consultant, Consultant Location or Person). Enter the name of the person, location, or firm.

Hit the Save button.

**Step 11:**
**Consultant Web Info –**
**Review and Add Employee E-mail address and the Firm's website address**

The Consultant Web Info Summary page will show every e-mail or web address on file for your Firm.

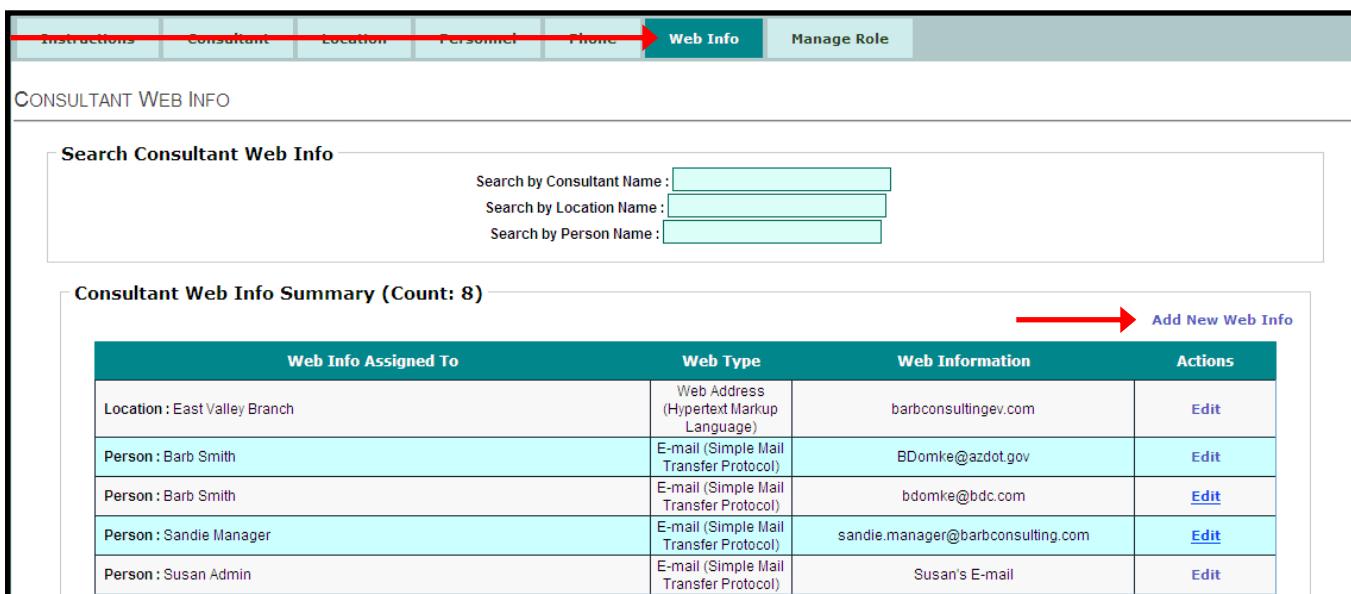

When you first access the Consultant Web Info Summary page, you will not have any e-mails or website addresses.

You should enter a web address for your firm and each location if appropriate and enter an e-mail for each employee.

It is recommended you have at least one e-mail for each location and each person.

You can update this information whenever employees get new e-mails or when the company adds or changes a website.

**Step 11:**

**Consultant Web Info (continued)**
**Review and Add Employee E-mail address and the Firm's website address**

Web Info Assigned To	Web Type	Web Information	Actions
Location : East Valley Branch	Web Address (Hypertext Markup Language)	barbconsultingev.com	<a href="#">Edit</a>
Person : Barb Smith	E-mail (Simple Mail Transfer Protocol)	BDomke@azdot.gov	<a href="#">Edit</a>

Person : Sandie Manager	E-mail (Simple Mail Transfer Protocol)	sandie.manager@barbconsulting.com	<a href="#">Edit</a>
Person : Susan Admin	E-mail (Simple Mail Transfer Protocol)	Susan's E-mail	<a href="#">Edit</a>

Figure 15 – The Web Info summary page

To add a new e-mail or web address, click the Add New Web Info button

Enter the Web Address Type, the e-mail or web address and select the Assign Webinfo to Radio Button and indicate who the information is for. (employee or Consultant Location, or Consultant Firm

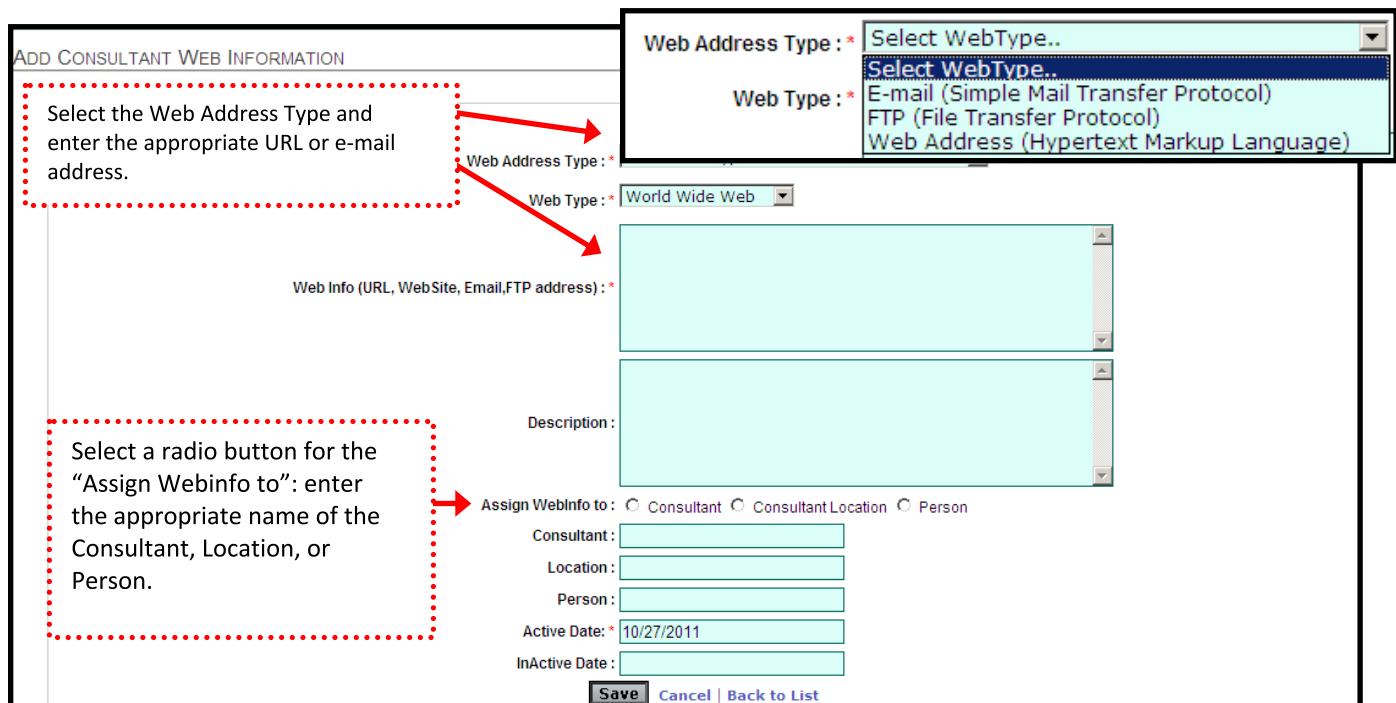

Figure 16 – Add Web Information Form for entering e-mail or web addresses Step 12:

**Manage Role –**

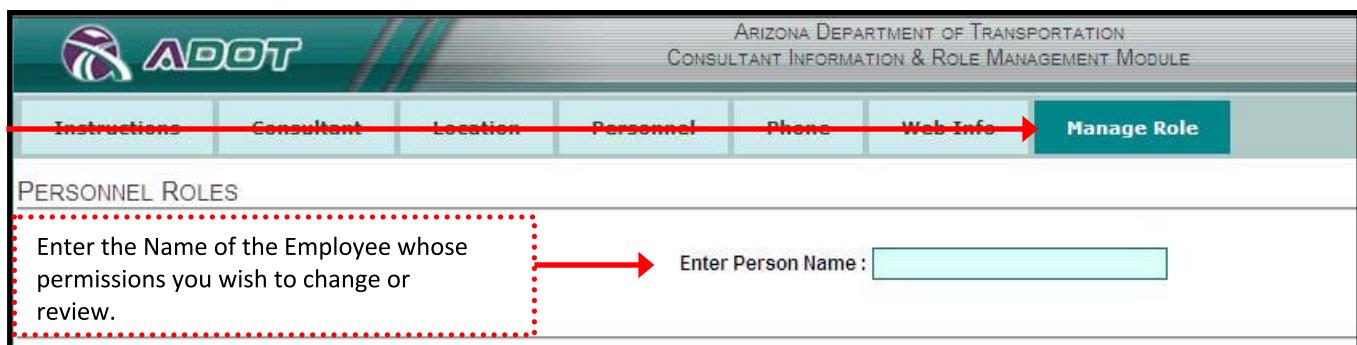

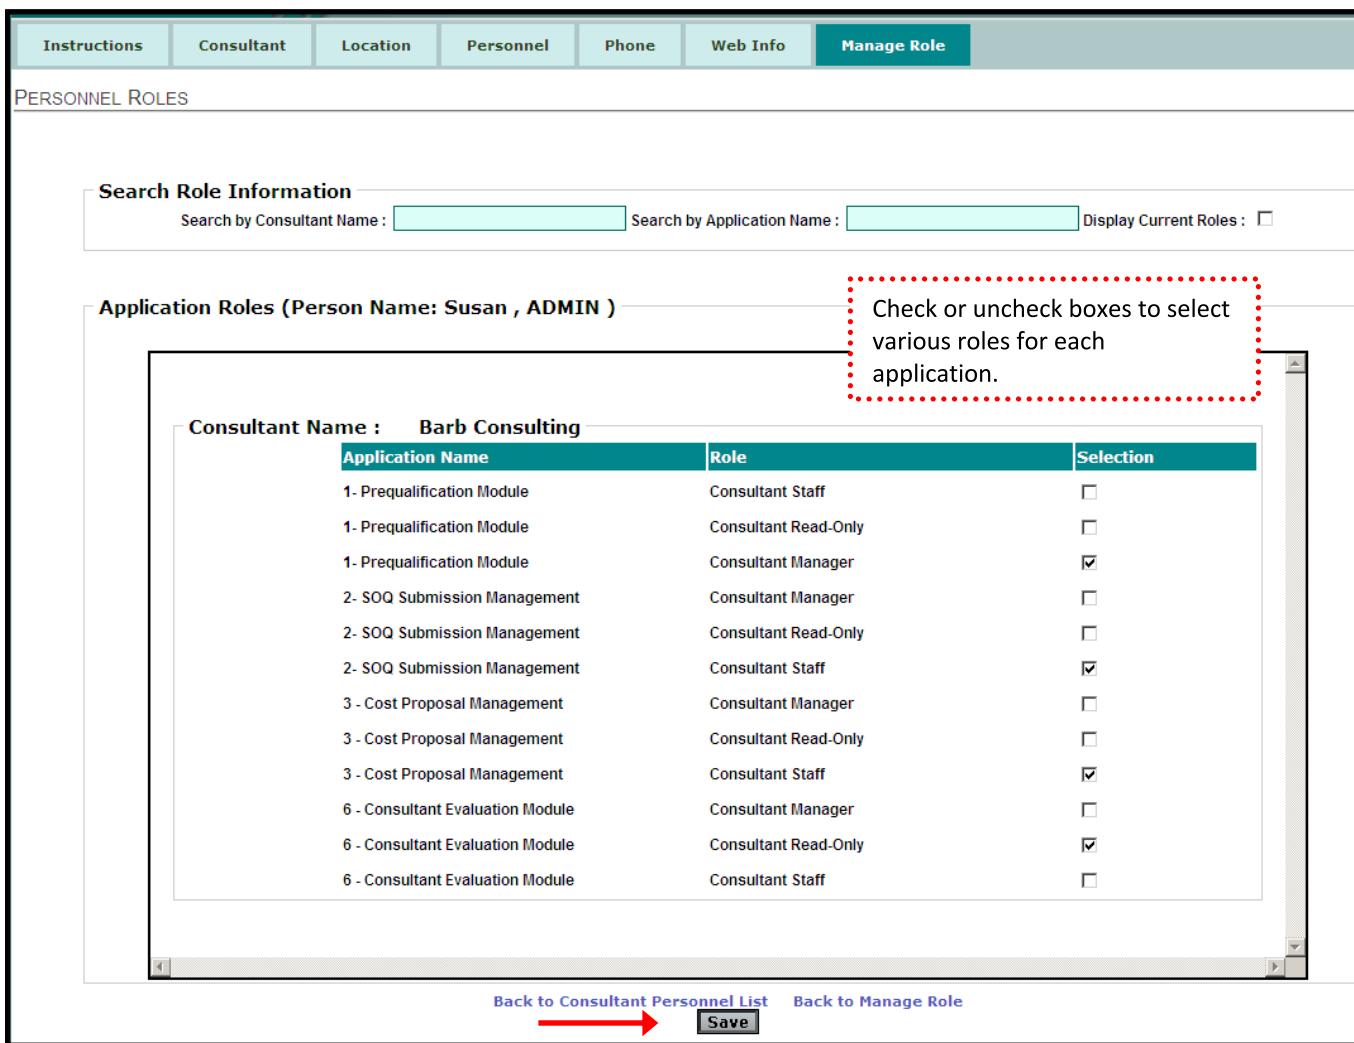

**Search for Employee by name and Manage Permissions**

Figure 17 – Manage Personnel Roles

The Manage Role is an additional way to quickly review or change the roles for an employee's access to the various eCMS applications. Enter the Employee's name in the Search box and the Employee's current permissions will be displayed. Check or uncheck access and Hit Save to make changes.

The screenshot shows the 'Manage Role' page with the 'Personnel' tab selected. It displays 'APPLICATION ROLES (Person Name: Susan , ADMIN )'. A red dotted box highlights the 'Selection' column in a table where checkboxes are used to manage roles for different applications. A red arrow points from the text 'Check or uncheck boxes to select various roles for each application.' to the table. At the bottom, there are 'Back to Consultant Personnel List' and 'Back to Manage Role' links, and a central 'Save' button.

Application Name	Role	Selection
1- Prequalification Module	Consultant Staff	<input type="checkbox"/>
1- Prequalification Module	Consultant Read-Only	<input type="checkbox"/>
