Topics to be covered

- ADA Information
- Title VI Requirements and Guidelines
- Access to services

Nondiscrimination Requirements Post Cycle

After your agency has received funding from ADOT you must remember to implement:

- Grantees comply with all nondiscrimination requirements
 - Ensure nondiscriminatory transportation in accordance with Title VI & ADA.
- Service denials can happen if a rider becomes violent, disruptive, illegal, or becomes a direct threat to others.

Equipment Requirements

Equipment for accessible service include but not limited to:

- Lifts and ramps
 - Securement devices where required
- Signage and systems to facilitate communications

Wheelchairs & Other Mobility Devices

Must accommodate rider using wheelchairs:

- If the device meets the definition
- Fits on the lift or ramp and securement area
- If the wheelchair and occupant combined weight do not exceed the lift specs
 - Standees are permitted on lifts

Service Animals

Are individually **trained to work and perform tasks** for an individual with a disability, including, but not limited to:

- Guiding individuals with impaired vision
- Alerting individuals with impaired hearing
 - Pulling a wheelchair
 - Fetching dropped items

Accessible Information

- Providing written information in accessible formats
- Ensuring published materials/websites are accessible
- Ensuring alternatives to audio communications are available

Personnel Training

Ensure that personnel are trained to operate vehicles and equipment safely and properly assist and treat individuals with disabilities who use the service in a respectful and courteous manner. Ensure that the accessibility related equipment and that ADA accommodations actually result in the delivery of good transportation services to individuals with disabilities.

Reasonable Modifications

Making reasonable modifications in policies, practices, or procedure to avoid disability discrimination when:

- Modifications are necessary
- Accessibility to the service is necessary

Make information about the process for requesting reasonable modifications available to the public.

Title VI of the Civil Rights Act of 1964

What is Title VI?

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal Financial assistance.”

Language Access Plan

Under National Origin we want to continue to provide the following services:

- Translated materials
 - I-Speak cards
- Vendors for interpretation/translation services
 - Online translating resources

Nondiscrimination Notice to the Public Posters:

- Describe ADA/Title VI Nondiscrimination Policy
- Notify the public of your agency's compliance with ADA/Title VI
- The Nondiscrimination and Auxiliary Aid posters should be posted in areas visual to the public

ADA/Title VI Complaints

FTA Subrecipient Responsibilities include:

- Designated employee, as the point of contact
- Provide complaint procedures accessible to for individuals with disabilities or Language Access Plan (LAP)
 - Advertise how to file a complaint
- Promptly communicate your responses to the complainant

ADA/Title VI Discrimination Complaint Process

- Follow your agencies complaint process
- Filed within 180 days and signed
- Contain full contact information
- Include basis of the complaint
- Describe alleged act
- Other relevant information

Drug and Alcohol Compliance Review

Drug and Alcohol Common Issues

1. Drug and alcohol policy is not current
2. Not utilizing the FTA drug and alcohol policy builder:
<https://transit-safety.fta.dot.gov/drugandalcohol/tools/PolicyBuilder/CreatePolicy.aspx>
3. Link to FTA drug and alcohol site not readily available:
<https://www.transit.dot.gov/drug-alcohol-program>
4. Link to ODAPC not readily available:
https://www.transportation.gov/odapc/ListServe_Notices
5. Not understanding when a FTA test is required or when the test is required by your agency (based on your policy)

Drug and Alcohol Important Information (con't)

6. Random tests are not spread throughout all hours of service and days
7. Testing form was not completed correctly
8. Selected FHWA instead of FTA for test
9. Keeping current copies of certificates for collection site testers and the Substance Abuse Provider (SAP)
10. Testing site doesn't correctly follow procedures

Introduction

General Transit Feed Specification, more commonly known as GTFS, is the world standard format for uploading schedule and geographic data (route alignment and bus stops) to trip planners, such as Google Transit, Apple Maps, Bing and TransitApp, etc. GTFS Builder is a free Microsoft Excel-based web application which assists rural and tribal transit agencies to develop and generate fully valid GTFS for their bus routes. National RTAP partnered with Transnnoation Inc. to develop GTFS Builder.

GTFS Static Overview

The General Transit Feed Specification (GTFS), also known as *GTFS static* or *static transit* to differentiate it from the [GTFS realtime extension](#), defines a common format for public transportation schedules and associated geographic information. GTFS "feeds" let public transit agencies publish their transit data and developers write applications that consume that data in an interoperable way.

How do I start?

1. Take a look at the [GTFS examples](#).
2. Create your own feeds using the [reference](#) as a guide.
3. Test your feed using [validation tools](#).
4. Publish your feed, as [described in the Help Center](#).

Overview of a GTFS feed

A GTFS feed is composed of a series of text files collected in a ZIP file. Each file models a particular aspect of transit information: stops, routes, trips, and other schedule data. The details of each file are defined in the [GTFS reference](#).

An example feed can be found in the [GTFS examples](#). A transit agency can produce a GTFS feed to share their public transit information with developers, who write tools that consume GTFS feeds to incorporate public transit information into their applications. GTFS can be used to power trip planners, time table publishers, and a variety of applications, too diverse to list here, that use public transit information in some way.

Making a Transit feed publicly available

Many applications are compatible with data in the GTFS format. The simplest way to make a feed public is to host it on a web server and publish an announcement that makes it available for use.

A list of transit agencies who provide public feeds is available on the [GoogleTransitDataFeed project site](#).

National Environmental Policy Act (NEPA)

National Environmental Policy Act (NEPA) of 1969

- NEPA is the primary law governing the environmental review process for all federal agencies. NEPA establishes a decision-making process that agencies must follow to study the environmental impacts of proposed projects, both large and small.

National Environmental Policy Act (NEPA) for FTA Projects

- Pertains to Funding for FTA Capital Projects: Transit Facilities, Bus Shelters, Bus Pullouts, & Sidewalks and Multi-Use Pathways.
- ADOT **cannot apply** to FTA for funding unless we can determine a project is in compliance with NEPA.
- Basic steps to follow: Site Selection, NEPA - Environmental Classification Land, Acquisition, Design, and Construction
- Categorical Exclusion (CE), Environmental Assessment (EA) or Environmental Impact Statement (EIS)
- 95% of FTA Projects fall under CEs

General Information

- ADOT awards 5311 formula intercity funds to eligible agencies
- ADOT is required to award 15% of its apportionment to intercity
- Routes begin and/or end in Urban areas, but must demonstrate significant ridership and benefits for rural residents to be eligible for 5311 funding
- Partner with Greyhound (Flixbus) for in-kind match
- ADOT funds Intercity feeder routes that connect to intercity providers

Intercity - National Intercity Map

- Developed by the Bureau of Transportation Studies
- National intercity map;
- Agencies must publish data compliant to the General Transit Feed Specification (GTFS)
 - includes operational information about stops, routes, trips, schedules, fares, and transfers
- Help interline systems and services
- Aids in planning improvements

Intercity - Misc

- Greyhound sends letter to subrecipients who receive in-kind match for intercity
 - ADOT has minor role of coordinating communication

5311 Transit Reminders

End of Year 1 – 2024 Contract Administration

Reminders:

- September 2025 Reimbursement Requests must be submitted no later than **November 15, 2025**
- No extensions have been granted
- Unused formula funds **will** roll over to year 2
- 2026 5311 Grant Application will open end of this year / beginning of next

5339 Grants

Administration

5339 Grant

- 2025 Applications
 - In panel review process, will reach out with clarification questions in the future
- 2024 Applications
 - Capital projects are to be added to 5311 grant app in eGrants so you may reimburse against these projects in year 2 of the 5311 grant cycle
