

Quantlist Frequency Table

Division I - General Provisions

Quantlist Name

Frequency Required

Bulletin Board Job Site	One prior to the contractor starting work and once every six months thereafter
Environmental Mitigation Tracking	Once every six months
Specific Contractor Quality Control	One per month per specified material type

Division II - Grading

Quantlist Name

Frequency Required

Earthwork	One per week
Furnished Water	One per water source
Geotextile Fabric	One per material type

Division III - Subgrade, Subbases and Bases

Quantlist Name

Frequency Required

Aggregate Bases and Subbases	One per week
Cement Treated Base	One per week
Cement Treated Subgrade	One per week
Geocomposite Wall Drain	One per wall reference #
Lean Concrete Base	One per week
Lime Treated Bases	One per week

Division IV - Surface Treatments and Pavements

Quantlist Name

Frequency Required

AC with RAP	One per week
ACFC (407) ACFC-AR (414)	One per week
Asphalt Drum / Batch Plant	One per week
Asphalt Rubber Blending & Hot Mix Plant (413)	One per week
Asphalt Rubber Blending & Hot Mix Plant (414)	One per week

Asphalt Rubber Blending & Hot Mix Plant (415)	One per week
Asphaltic Concrete 409 (Miscellaneous Structural)	One per week
Asphaltic Concrete (Asphalt Rubber) 413	One per week
Asphaltic Concrete 415 (Asphalt-Rubber) - End Product	One per week
Asphaltic Concrete 416 - End Product	One per week
Asphaltic Concrete 417 (End Product) SHRP Volumetric Mix	One per week
Bituminous Tack Coat	One per week
Chip Seal Coat	One per week
PCCP (Crack Repair)	One per week
PCCP (Fixed Form Placement and Curing)	One per week
PCCP (Joints, Dowels and Tie Bars)	One per week
PCCP (Pre-Paving Quality Assurance)	Every 6 months
PCCP (Slip Form Placement and Curing)	One per week
PCCP (Sawing and Sealing)	One per week

Division V - Drainage Facilities

<u>Quantlist Name</u>	<u>Frequency Required</u>
Cast-in-Place Pipe	One per week
Corrugated Metal Pipe	One per week
Plastic Pipe (CHDPEPP)	One per week
Reinforced Concrete Pipe	One per week

Division VI - Structures

<u>Quantlist Name</u>	<u>Frequency Required</u>
Approach / Anchor Slab with Joint	One per joint
Bridge Deck (Superstructure)	One per pour
Bridge Deck Joint	One per span
Cast-in-Place Box Girder Bridge	One per span
Concrete Box Culverts	One per structure
Drilled Shaft Placement (Dry Excavation)	One per week
Drilled Shaft Placement (Wet Excavation)	One per week

Falsework	When the falsework is being set, and again when taken down.
Milepost Markers	One per project
Overhead Sign Panels	One per type
Overhead Sign Structures	One per unit
Post Tensioning	The first girder, plus once per anchorage to anchorage of structure.
Post Tensioning - Grouting	The first girder, plus once per anchorage to anchorage of structure.
Precast Concrete I-Beams and Box Beams	One per span
Reinforcing Steel Placement	Once prior to pour
Roadside Sign Supports: Breakaway Posts	One per pour / days production
Roadside Sign Supports: Perforated Square Tube Substructure	One per week
Soil Nail	One per span
Tapered Tube Structures	One per structure
Warning Marker and Regulatory Sign Panels	One per unit
	One per type

Division VII - Traffic Control Facilities

Quantlist Name

Frequency Required

Arrow Panels and Changeable Message Boards	One per week
Cabinets FMS	One per week
Dual Component Pavement Markings	One on the first application and color; then once per week, per color.
Electrical Conductors	One per week
Electrical Conduit	One per week
Electrical Grounding	One per week
Initial Pavement Markings (708)	One per week
No. 5 and 7 Pull Box with Extension	One per week
No. 9 Pull Box	One per week
Saw Cut-Vehicle Loop Detectors	One for each location
Stripe Obliteration	One per week
Striping Administrative	One per project
Temporary Barriers, Attenuators or Sand Barrels	One per week

Thermoplastic Pavement Markings	Once per week, per color.
Traffic Control Flagging Stations	One per week
Traffic Signal and Hwy Light (Foundations)	One per week
Traffic Signal and Hwy Lighting (Poles)	One per week
Truck-Mounted Attenuators	One per week and type
Work Zone Traffic Control	One per set up / one per week

Division VIII - Roadside Development

Quantlist Name

Class II Seeding - Administrative

Class II Seeding - Construction

Class II Seeding - Shoulder Build-up

Irrigation System Construction

Landscape Construction

Landscape Establishment

Pump House Electrical Construction

Pump House Electrical Equipment

Storm Water - Administrative

Storm Water: BMP Inspection

Storm Water: Good Housekeeping

Temporary Irrigation System

Frequency Required

One per project or contractor requests change in seeding materials

One per mobilization

One per mobilization

One per each controller

One per month

Once every three months, or as approved by the PLA

One per pump house

One per pump house

One at the time of SWPPP certification and once every six months thereafter.

Once every week or minimum every two weeks or following rain event = ½ inch or greater or as noted in the Special Provisions/Plan.

One per month

Once each three months, or as approved by the PLA

Division IX - Incidentals

Quantlist Name

Brifen Wire Rope Safety Fence

Cattle Guards

Chain Link Fence and Gates

Concrete Barrier

Frequency Required

One per run

One per location

One per week

One per run

Concrete Curb, Gutters and Sidewalks	One per week
End Anchor System (MASH)	One per installation
Guardrail Transition to Concrete Barrier	One per installation
Masonry Walls	One per reference number or once a week
Max Tension Tangent Terminal MASH TL-3	One per installation
Mechanically Stabilized Earth Walls	One per week
Median Cable Barrier and Anchor System	One per run
MFLEAT Terminal TL-3	One per installation
MSKT Tangent Terminal MASH TL-3	One per installation
QuadGuard Crash Cushion System	One per installation
SGET MASH TL-3 Single Guardrail Terminal	One per installation
Next Generation Terminal (NGT)	One per installation
SKT-350 End Treatment (AC)	One per installation
SKT-350 End Treatment (Concrete)	One per installation
Soft Stop Tangent Terminal MASH TL-3	One per installation
SRT-350 End Treatment HBA Posts (AC) SS-355	One per installation
Thrie Beam Guardrail (Non-MASH)	One per installation
W-Beam Guardrail (MASH)	One per installation
W-Beam Guardrail (Non-MASH)	One per installation
Wire Fence and Gates	One per week

Division X - Materials

Quantlist Name

Concrete Class S or B

Concrete Curing

Frequency Required

Once per week

Once per week
