

FROM HUSTLE TO HIGH-PERFORMANCE:

Unlocking Your Business Potential in 2026

Presented By:
Dana Earhart

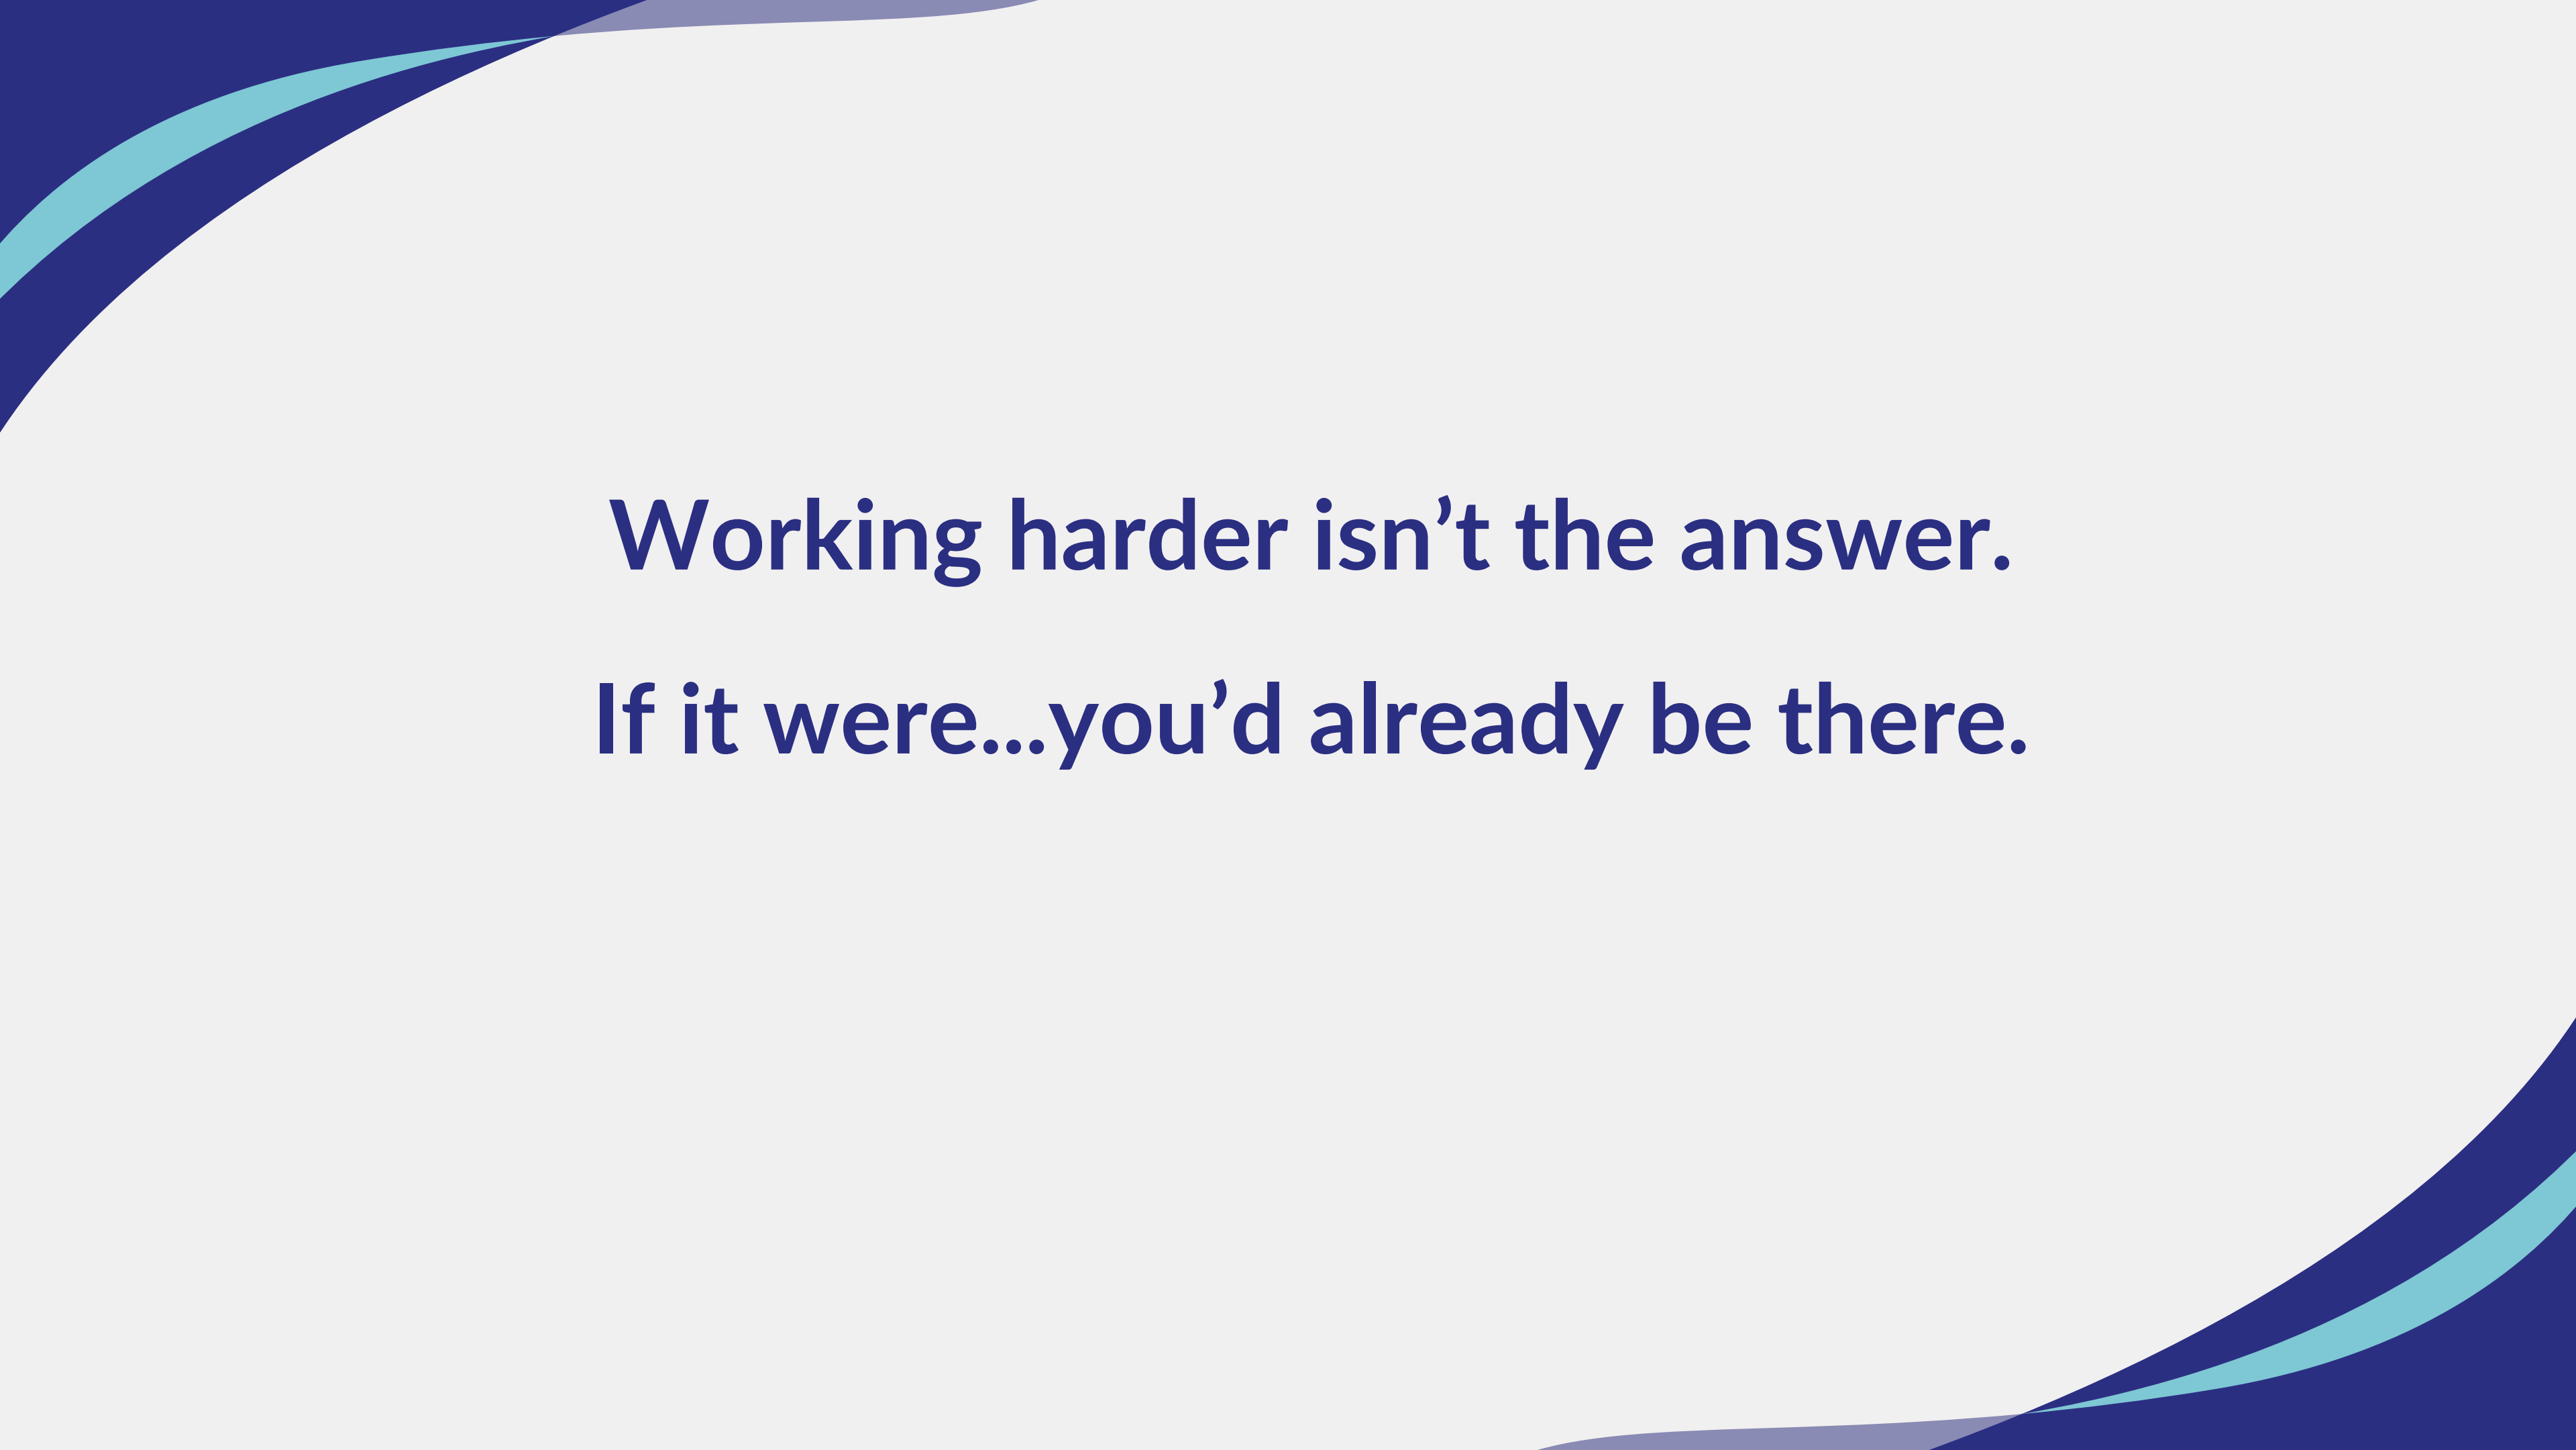

**Your business will only grow to the level
of the leader running it.**

**And leadership capacity isn't about skill
— it's about bandwidth.**

FROM HUSTLE TO HIGH-PERFORMANCE

**Working harder isn't the answer.
If it were...you'd already be there.**

Most owners don't have a strategy problem.

They have a capacity problem.

Do these sound familiar?

- Wearing every hat.
- Constant Interruptions
- Team waiting on you
- Working Nights & Weekends
- Afraid to take more than a couple days off at a time
- The same goals showing up quarter after quarter - maybe even year after year

Now, before we fix your business...

We have to remember why you started it.

Imagine, an average day in your life - 1 year from now....

When do you wake up?

Who do you spend time with?

What are you NOT doing anymore?

How does your day feel

5 Pillars of Sustainable Success

Health * Relationships * Finances *

Business * Leadership

Why do smart leaders still feel stuck?

Smart leaders.

Strong teams.

Still exhausted.

Something isn't adding up.

The bottleneck isn't the market.

It isn't your team.

It's you.

Bottleneck #1: Delegation

- You're still the approval step.
- Everything waits on you.
- You think it's faster to do it yourself

Failed solutions you've already tried:

- Hiring more people
- Working longer hours
- Jumping in to "help"

Bottleneck #2: Prioritization

- Busy doesn't equal productive
- Everything is urgent ➡ nothing is important

Failed solutions you've already tried:

- Bigger to-do lists
- Productivity apps
- Working nights & weekends

Bottleneck #3: Leadership Bandwidth

- No white space.
- No thinking time.
- No leadership.

Failed solutions you've already tried:

- Back-to-back meetings
- Always available
- Being the hero

High-performance businesses don't hustle harder.

They design smarter.

Fewer decisions.

Clearer roles.

Better priorities.

Protected thinking time.

Live Q & A

What questions do you have?

What feels most relevant right now?

Where do you start?

- Don't fix everything.
- Fix the right thing first.

Strategic Leader Toolkit

Clarity ➡ Focus ➡ Action

- ✓ **Diagnostic** (find your #1 bottleneck)
