

I-19, Irvington Road Interchange Improvements

PROJECT FACT SHEET

OVERVIEW

The Arizona Department of Transportation is working to improve the Interstate 19 and Irvington Road traffic interchange. The project will reconstruct the traffic interchange to increase capacity and enhance safety by widening Irvington Road to three lanes in each direction and adding lanes to the I-19 on-ramps. The project is scheduled to begin construction in the summer of 2026.

Planned improvements include:

- ▶ Reconstructing the existing diamond interchange and adding a partial cloverleaf ramp at Irvington Road.
- ▶ Widening the I-19 on-ramps.
- ▶ Installing traffic signals, lighting, signage and pavement markings.
- ▶ Constructing pedestrian and bicycle facilities on both sides of Irvington Road.
- ▶ Improving the Landing Center Drive intersection to accommodate increased traffic volumes with additional turn lanes.

PROJECT SCHEDULE

Construction is anticipated to start the summer of 2026 and is projected to take 20 months to complete, finishing up around the spring of 2028. Schedules are always subject to change because of weather and other unforeseen circumstances.
