

Project Programming & eSTIP Highlights

April 16, 2026

**Veronica Ruiz-Ronquillo
Multimodal Planning Division**

ADOT's STIP and 5-year Construction Program

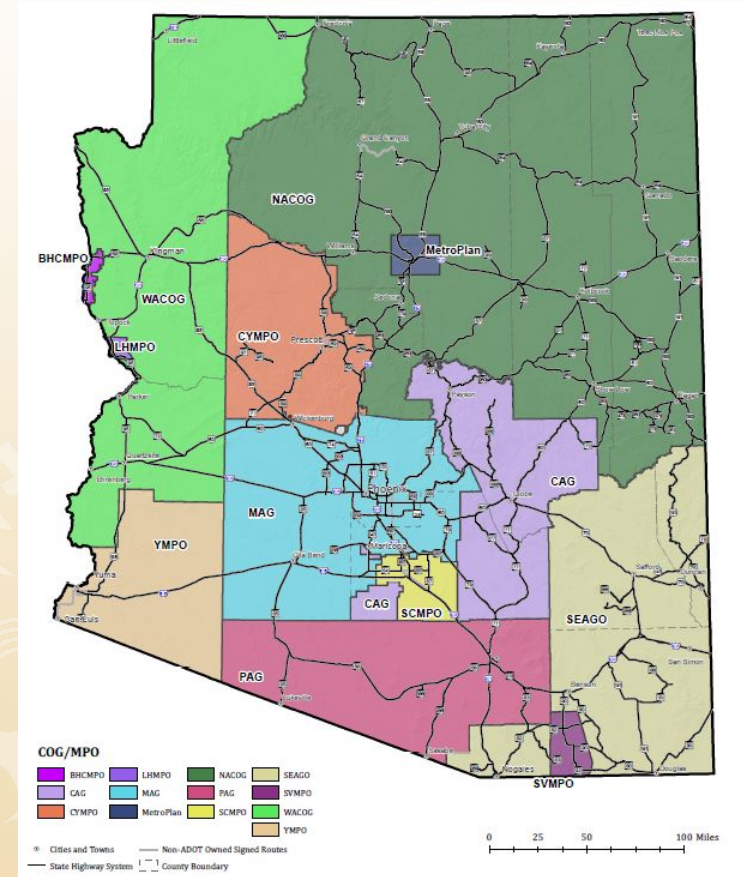

- Discuss the differences between the STIP and ADOT's 5-year Construction Program
- Understand the process for developing projects
- Know the process to amend the 5-year Construction Program and Regional TIPs
- Review the ADOT STIP system: eSTIP

State Transportation Improvement Program (STIP)

- Includes 14 TIPs (ADOT and 13 COGs/MPOs)
- 4 year term
- Requirement for use of federal funds
- Consultation and Cooperation
- All projects regardless of ROW ownership or funding source
- Development governed by 23 CFR 450.218
- Fiscally constrained
- State Fiscal Year basis (7/1 - 6/30)
- Approved by FHWA and/or FTA

Arizona COGs and MPOs

- Council of Governments (COG):
 - A *voluntary*, regional organization composed of several counties.
 - Represents an urbanized population of under 50,000.
 - Primary functions: act as the regional transportation planner, facilitate inter-agency collaboration, and provide guidance for regional decision-making.
- Metropolitan Planning Organization (MPO):
 - A government entity *required* in urban areas with population greater than 50,000
 - Responsible for a comprehensive regional transportation planning process

Why am I talking about this?

- All transportation projects are to be included in the STIP
- Federal regulations governing its contents

STIP Contents and Amendments

- Project listings:
 - Project name, location & type of work
 - All project phases
 - Funding for each phase
 - Year of each phase
 - Project map
- Amendments Required for changes in:
 - Scope
 - Schedule
 - Budget
