Acronyms/Abbreviations

ADA	Americans with Disabilities Act
ADOT	Arizona Department of Transportation
E-Grants	Electronic Grants Management System
FTA	Federal Transit Administration
MPD	Multimodal Planning Division
SGR	State of Good Repair
SUV	Sport Utility Vehicle
TAM	Transit Asset Management
TERM	Transit Economic Requirements Model
ULB	Useful Life Benchmark
UZA	Urbanized Area

Chapter 1 – Introduction

The Arizona Department of Transportation (ADOT) acts as the primary recipient and oversees the administration of the Federal Transit Administration's (FTA) grant programs under Sections 5305, 5307, 5310, 5311, and 5339. ADOT consolidates the 5307 Urban Funds for regions that cannot fully utilize their allocations, providing funding through a competitive process to all small urban areas in Arizona. Funds from Section 5339, both Urban and Statewide, are also pooled and allocated through a competitive application process, which is available to applicants under Sections 5307 and 5311. Regarding 5310 funds, ADOT manages all allocations directed to the state, except those assigned to the Phoenix-Mesa-Scottsdale and Phoenix West-Goodyear-Avondale Urbanized Areas (UZAs), which are received directly by the City of Phoenix. ADOT retains ownership of assets in this area and will continue inventorying them until their useful life expires and federal interests cease.

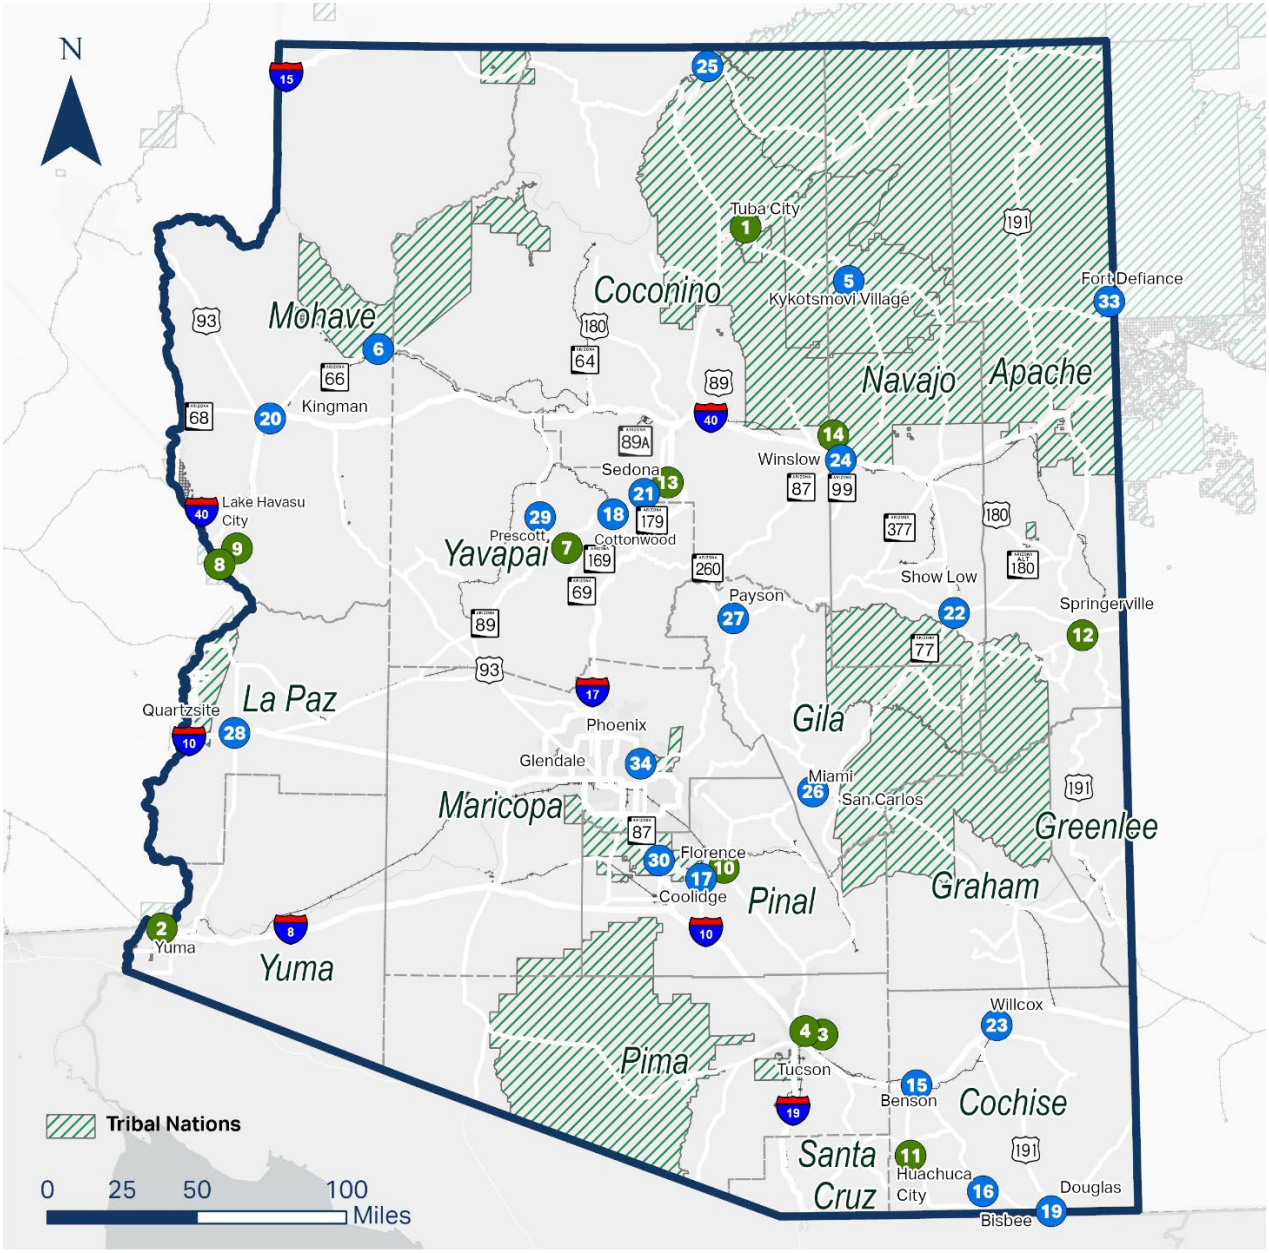

The ADOT Multimodal Planning Division (MPD) - Transit Group oversees the equitable distribution of FTA funds by advertising available funds, managing grant applications, administering and monitoring FTA funds, providing grant management guidance and technical support to applicants and grantees, and ensuring that all subrecipients adhere to federal requirements. This Group Transit Asset Management (TAM) Plan involves 14 Section 5310 and 20 Section 5311 subrecipients (**Figure 1**). The Section 5310 subrecipients included in this plan are agencies whose services are open to the public.

Performance Targets and Measures

ADOT has established performance targets and measures based on the transit assets currently owned by our subrecipients. The first column in **Table 1** through **Table 3** describes the metric used to measure asset performance. For example, the performance for vehicles and equipment is determined by the percentage of assets surpassing a set useful life benchmark (ULB) based on their age. As shown, a lower performance value signifies improved performance. To note, ADOT prioritizes the replacement of revenue vehicles as a matter of policy over non-revenue vehicles (defined as equipment). The performance targets have also been determined with respect to Chapter 5 – Investment Prioritization and current spending profiles.

As for facilities, performance is measured as the percentage of facilities with a condition rating below 3.0. The condition rating threshold has been dictated by the FTA in 49 CFR Part 625 and is based on the FTA Transit Economic Requirements Model (TERM) scale, which ranges from 1 to 5 and is described in detail in **Table 10** of **Chapter 3 – Condition Assessment**.

Note: Asset Category Performance Measure - **Condition** - % of facilities with a condition rating below 3.0 on the FTA TERM Scale

Transit Asset Management Vision

The ADOT MPD – Transit Group has developed the Group TAM Plan to guide the state and our subrecipients in achieving and maintaining a State of Good Repair (SGR) for all public transportation assets in the State of Arizona. Transit asset management is the strategic and systematic practice of procuring, operating, inspecting, maintaining, rehabilitating, and replacing transit capital assets to manage their performance, risks, and costs throughout their life cycle, providing safe, cost-effective, and reliable public transportation.

Transit Asset Management and State of Good Repair Policy

The ADOT MPD – Transit Group developed a Group TAM Plan for all 5311 subrecipients that do not receive 5307 funds and for 5310 subrecipients that received operating assistance and whose services are open to the public. Each subrecipient was given the option to participate or opt out of the ADOT Group TAM Plan.

As of March 2026, twenty (20) 5311 subrecipients and fourteen (14) 5310 subrecipients are participating in the ADOT TAM Plan (**see Figure 1**). The participating agencies are identified in **Table 5**. Two (2) subrecipients have opted out of the Group TAM Plan. San Carlos Nnee Bich'o Nii Apache Transit Services, a 5311 tribal recipient, has decided to develop its own plan. The Regional Transportation Authority of Pima County is participating in the City of Tucson's Group TAM Plan. Agency opt-out letters can be found in **Appendix B: Agency Opt-Out Letters**.

Greyhound, a subrecipient providing intercity bus service, receives funding solely through Section 5311(f) funds and is not eligible to participate in the ADOT Group TAM Plan. This eligibility determination is consistent with the final TAM Rule (81 Fed. Reg. 48900, July 2016) and the definition of intercity bus service in 49 U.S.C. § 5302(15).

The ADOT Group TAM Plan will be updated in its entirety every 4 years as required by federal law. Annually, the ADOT MPD – Transit Group will report asset information to the National Transit Database.

Transit Asset Management Goals and Objectives

ADOT has developed goals and objectives for the Group TAM Plan as listed in **Table 4**.

Table 4: TAM Goals and/or Objectives

Goals	Objectives
Increase the statewide average vehicle condition rating to 3.5* by the end of Federal Fiscal Year 2030.	Dispose of vehicles that are rated as 1 - Poor.

Goals	Objectives
Increase the statewide average vehicle condition rating to 3.5* by the end of Federal Fiscal Year 2030.	Prioritize replacing vehicles with a Marginal or Poor condition rating and/or that are cost prohibitive to repair.
Reduce the number of revenue vehicles exceeding their useful life in each 2-year application cycle.	Prioritize replacing service vehicles that have exceeded their ULB or reached their mileage goal.
Reduce the number of revenue vehicles exceeding their useful life in each 2-year application cycle.	Continue preventative maintenance strategies to extend vehicle service life and meet its mileage goal.

** Please refer to **Table 10** for further details on the rating scale*

About the Transit Asset Management Plan

The ADOT Group TAM Plan contains the required four major components: Capital Asset Inventory, Condition Assessment, Decision Support Tool, and Investment Prioritization. ADOT has opted to add value to the TAM Plan by including the Performance Targets and Measures, TAM Vision, TAM and SGR Policy, and ADOT's Goals and/or Objectives. The Capital Asset Inventory provides a list of all capital assets utilized by the Group TAM Plan participants which support the delivery of public transportation services in Arizona. The Condition Assessment includes the current condition of the capital assets as of March 2026 and whether each asset has reached the end of its useful life. The Decision Support Tool identifies the information that supports the decision-making process, and the Investment Prioritization section identifies how funding will be allocated.

Roles and Responsibilities

The following table (**Table 5**) lists the participating Section 5310 and Section 5311 agencies and the name of the Accountable Executive.

Table 5: Roles and Responsibilities

Role	Name	Title	Agency
TAM Plan Sponsor	Tina Munoz	Transit Manager	ADOT
5310 Program			
Asset Management	Aubree Perry	Assistant Transit Group Manager	ADOT
Accountable Executive	Eileen Tohonnie	Executive Director	Assist to Independence
Accountable Executive	Myra Garlit	CEO	Crossroads Mission
Accountable Executive	Mandy Hendricks	Chief IDD Services Officer	Easterseals Blake Foundation

Role	Name	Title	Agency
Accountable Executive	Becca King	CEO	Helping Ourselves Pursue Enrichment Incorporated
Accountable Executive	Jamie Kootswatewa	Chief Administrative Officer	Hopi Tribe
Accountable Executive	David Dawley	Director, Hualapai Health Education and Wellness	Hualapai Tribe
Accountable Executive	Edwardo Castro	CEO	Saguaro Foundation Community Living Programs
Accountable Executive	Kristy DeFrance	CEO	New Horizons Center for People with Special Needs
Accountable Executive	Darlene Golson	Assistant Executive Director	New Horizons Disability Empowerment Center
Accountable Executive	Lisa Garcia	Town Manager	Town of Florence
Accountable Executive	Suzanne Harvey	Town Manager	Town of Huachuca City
Accountable Executive	Ted Soltis	Interim Town Manager	Town of Springerville
Accountable Executive	Kent Ellsworth	Executive Director	Verde Valley Caregivers Coalition
Accountable Executive	Virgil Davis	CEO	Winslow Indian Health Care Center, Inc.
5311 Program			
Asset Management	Luke Taylor	5311 Transit Group Manager	ADOT
Asset Management	Jesse Zaragoza	5311 Transit Group Manager	ADOT
Asset Management	Shatawn Reed	5311 Transit Group Manager	ADOT
Asset Management	Mary Villarreal-Perry	5311 Transit Group Manager	ADOT
Accountable Executive	Greg Volker	City Manager, Chief of Police	City of Benson
Accountable Executive	Ashlee Coronado	Interim City Manager	City of Bisbee
Accountable Executive	Gilbert Lopez	City Manager	City of Coolidge
Accountable Executive	Mario Cifuentez	Deputy City Manager	City of Cottonwood

Role	Name	Title	Agency
Accountable Executive	Ana Urquijo	City Manager	City of Douglas
Accountable Executive	Timothy Walsh Jr.	City Manager	City of Kingman
Accountable Executive	Anette Spickard	City Manager	City of Sedona
Accountable Executive	Morgan Brown	City Manager	City of Show Low
Accountable Executive	Caleb Blaschke	City Manager	City of Willcox
Accountable Executive	David Coolidge	City Manager	City of Winslow
Accountable Executive	Armando Bernasconi	CEO	Quality Connections
Accountable Executive	Alexis Rivera	Town Manager	Town of Miami
Accountable Executive	Darren Coldwell	Town Manager	Town of Payson
Accountable Executive	Jim Ferguson	Town Manager	Town of Quartzsite
Accountable Executive	Thomas Stultz	Transit Manager	Yavapai Regional Transit, Inc.
Accountable Executive	Mary Martinez	Acting Supervisor	Gila River Indian Community
Accountable Executive	Jamie Kootswatewa	Chief Administrative Officer	Hopi Senom Transit
Accountable Executive	Darlene Wakayuta	Transportation Director	Hualapai Indian Tribe
Accountable Executive	Calvin Castillo	Transit Manager	Navajo Transit System
Accountable Executive	Salvatore La Puma	Transportation Director	Salt River Pima-Maricopa Indian Community

Chapter 2 – Capital Asset Inventory

The summary of capital assets in **Table 6** below is current as of March 2026. Assets for those agencies that opted out of this Group TAM Plan are not included.

Table 6: Summary of Capital Assets

Asset Category/Class	Total Number	Average Age	Average Mileage	Average Cost
Revenue Vehicles	**477**	**7.98**	**118,433**	**$112,071**
AO – Automobile	25	5.56	44,743	$28,040
BU – Bus	23	7.65	152,118	$217,173
CU – Cutaway Bus	205	8.80	151,838	$148,561
MV – Minivan	132	7.89	103,561	$78,977
VN – Van	71	6.87	68,438	$82,183
SV – Sport Utility Vehicle	14	5.36	109,591	$44,357
Trucks and other Rubber Tire Vehicles	7	11.86	97,816	$60,857
Equipment	**12**	**10.08**	**129,693**	**$55,083**
MV – Minivan	1	11	263,404	$48,000
VN – Van	3	7.33	162,961	$75,000
SV – Sport Utility Vehicle	4	7.0	95,668	$51,250
Trucks and other Rubber Tire Vehicles	4	15	105,340	$45,750
Facilities	**7**	**14**	**N/A**	**$880,186**
City of Coolidge – Transit Administration Building	1	17	N/A	$588,758
City of Coolidge – Transit Maintenance Building	1	16	N/A	$2,065,894
City of Cottonwood – Transit Facility	1	16	N/A	$509,306
City of Kingman – Administration Building	1	15	N/A	$126,162
City of Show Low – Bus Barn	1	20	N/A	$810,234
City of Willcox – Transit Bus Barn	1	1	N/A	$291,032
Navajo Transit System – Administration/Maintenance Building	1	13	N/A	$1,769,914

Asset Inventory Details

Revenue Vehicles

Table 7: Revenue Vehicles Inventory

Asset Category/Class	Total Number	Average Age	Average Mileage	ADOT ULB	ADOT ULB
Revenue Vehicles	**477**	**7.98**	**118,433**	**Years**	**Mileage**
AO – Automobile	25	5.56	44,744	8	100,000
BU – Bus	23	7.65	152,119	14	500,000
CU – Cutaway Bus	205	8.80	151,838	10	400,000
MV – Minivan	132	7.89	103,561	8	100,000
VN – Van	71	6.87	68,438	8	100,000
SV – Sport Utility Vehicle	14	5.36	109,591	8	100,000
Trucks and other Rubber Tire Vehicles	7	11.86	97,816	8	100,000

ADOT mainly relies on mileage to decide when to replace vehicles and assess their useful life. This is because some service vehicles gather only small amounts of miles each year, resulting in many having significantly less distance traveled than typical for their age. As a result, mileage is the primary criterion used in replacement planning.

Automobiles

Approximately 5.24 percent of ADOT's revenue vehicles are classified as AO - Automobiles. The average age of an automobile is 5.56 years, up from 3.22 years in the 2022 TAM Plan. The average mileage for automobiles has also increased from 35,113 miles to 44,744 miles. On average, the current automobile inventory remains well below ADOT's ULB for mileage, but in terms of age, automobiles have reached 20 percent of their ULB.

Buses

ADOT's BU - Bus inventory now accounts for approximately 4.82 percent of its revenue vehicles. The average bus age is 7.65 years, with an average mileage of 152,119 miles. Given ADOT's ULBs of 14 years and 500,000 miles, this inventory remains well under those thresholds.

Cutaway Buses

Approximately 42.98 percent of ADOT's vehicles are classified as CU - Cutaway Buses. The average age of these cutaway buses is 8.80 years, with an average mileage of 151,838 miles. The ADOT ULB for this vehicle type is 10 years or 400,000 miles. Currently, ADOT's inventory of cutaway buses is approaching the age limit set by the benchmark but remains significantly below the mileage threshold.

Minivans

Approximately 27.67 percent of ADOT's revenue vehicles are classified as MV - Minivans. The average age for minivans is 7.89 years, and the average mileage is 103,561 miles. Based on ADOT's ULB of 8 years or 100,000 miles, it appears that, on average, minivans have either surpassed or are about to surpass their expected lifespan.

Vans

ADOT's VN - Van inventory comprises 74 vehicles, accounting for approximately 14.88 percent of ADOT's revenue vehicles. The average age of vans is 6.87 years, while the average mileage is 68,438 miles. ADOT's ULBs are 8 years for age and 100,000 miles for mileage, which means vans are nearing both thresholds.

Sport Utility Vehicles

ADOT's SV – Sport Utility Vehicle inventory represents approximately 2.94 percent of its revenue vehicles. The average Sport Utility Vehicle (SUV) age is 5.36 years, with an average mileage of 109,591 miles. Given ADOT's ULBs of 8 years and 100,000 miles, this inventory remains below its ULB by age but slightly exceeds the mileage threshold.

Trucks and Other Rubber Tire Vehicles

ADOT's Trucks and other Rubber Tire Vehicles inventory makes up approximately 1.47 percent of the revenue vehicles fleet. The average truck age is 11.86 years, with an average mileage of 97,816 miles. Compared to ADOT's ULBs of 8 years and 100,000 miles, this inventory significantly exceeds the age threshold but remains slightly below the mileage benchmark.

Equipment

Table 8: Equipment Inventory

Asset Category/Class	Total Number	Average Age	Average Mileage	ADOT ULB	ADOT ULB
Equipment	**12**	**10.08**	**129,693**	**Age**	**Mileage**
MV – Minivan	1	11	263,404	8	100,000
VN – Van	3	7.33	162,961	8	100,000
SV – Sport Utility Vehicle	4	7	95,668	8	100,000
Trucks and other Rubber Tire Vehicles	4	15	105,340	8	100,000

Similar to revenue vehicles, ADOT uses mileage to determine the useful life of non-revenue vehicles (equipment). About 28.57 percent of ADOT's equipment are SUVs, 28.57 percent are Trucks and other Rubber Tire Vehicles, 21.43% are Vans, and 7.14% are Minivans. The average age of SUVs is 7 years, and their average mileage is 95,668 miles, indicating they are nearing ADOT's mileage usefulness threshold but are within the age limit by about 1 year. Conversely, Trucks and other Rubber Tire Vehicles have an average age of 15 years, well beyond the 8-year ULB, and their average mileage of 105,340 miles also exceeds the mileage threshold. The one Minivan in non-revenue service is 11 years old and has a

mileage of 263,404 miles, which far exceeds the ULB. Finally, Vans' average age is 7.33 years, and their average mileage is 162,961. The mileage threshold has been surpassed for this category, and the age threshold is almost met as well.

Facilities

Visual facility condition assessments were conducted by subrecipients and assigned ratings according to the FTA's TERM Scale.

Table 9: Facilities Inventory

Asset Category/Class	Total Number	Average Age	Average TERM Condition
Facilities	**7**	**14**	**3.98**
City of Coolidge – Transit Administration Building	1	17	4
City of Coolidge – Transit Maintenance Building	1	16	4
City of Cottonwood – Transit Facility	1	16	3
City of Kingman – Administration Building	1	15	4
City of Show Low – Bus Barn	1	20	4
City of Willcox – Transit Bus Barn	1	1	5
Navajo Transit System – Administration/ Maintenance Building	1	13	3.89

ADOT's current subrecipients include the City of Coolidge, City of Cottonwood, City of Kingman, City of Show Low, City of Willcox, and the Navajo Transit System. Across all subrecipients, there are seven (7) facilities for which the agency carries a capital responsibility. The average facility age is 14 years, and the average TERM condition rating is 3.98. The facilities include administration buildings, maintenance buildings, and bus barns.

Chapter 3 – Condition Assessment

ADOT uses the TERM condition rating system for vehicles, equipment, and facilities, as illustrated in **Table 10** below.

Table 10: Asset Condition Rating Scale

Rating	Condition	Description
4.8 to 5.0	Excellent	No visible defects, near new condition
4.0 to 4.7	Good	Some (slightly) defective or deteriorated components
3.0 to 3.9	Adequate	Moderately defective or deteriorated components
2.0 to 2.9	Marginal	Defective or deteriorated components in need of replacement
1.0 to 1.9	Poor	Critically damaged components in need of immediate repair

Asset information is reported as of March 2026. Assets for subrecipients exercising the option to develop a local TAM Plan have been excluded.

Table 11: Asset Condition Summary

Asset Category/Class	Count	Average Age	Average Mileage	Average TERM Condition	Average Cost	% at or Exceeding ULB
Revenue Vehicles	**477**	**7.98**	**118,433**	**3.40**	**$112,071**	**29.86%**
AO – Automobile	25	5.56	44,744	4.08	$28,040	20.00%
BU – Bus	23	7.65	152,119	3.65	$217,174	0.00%
CU – Cutaway Bus	205	8.80	151,838	3.08	$148,561	32.37%
MV – Minivan	132	7.89	103,561	3.39	$78,977	36.36%
VN – Van	71	6.87	68,438	3.85	$82,183	25.35%
SV – Sport Utility Vehicle	14	5.36	109,591	4.07	$44,357	7.69%
Trucks and other Rubber Tire Vehicles	7	11.86	97,816	3.71	$60,857	57.14%
Equipment	**12**	**10.08**	**129,693**	**3.67**	**$55,083**	**61.11%**
MV – Minivan	1	11	263,404	2.00	$48,000	100.00%
VN – Van	3	7.33	162,961	3.67	$75,000	66.67%
SV – Sport Utility Vehicle	4	7	95,668	4.25	$51,250	33.33%
Trucks and other Rubber Tire Vehicles	4	15	105,340	3.50	$45,750	75.00%
Facilities	**7**	**14**	**N/A**	**3.98**	**$880,186**	**0%**
City of Coolidge – Transit Administration Building	1	17	N/A	4	$588,758	0%

Revenue Vehicles

As of March 2026, ADOT's subrecipients operate 477 revenue vehicles. Their average condition, based on the TERM rating system, is 3.40, indicating an "Adequate" status. Approximately 29.86 percent of these vehicles have exceeded their useful lifespan. ADOT's 2026 goal was to keep the percentage of outdated vehicles below 25 percent, and this target was achieved for some revenue vehicle categories, while other categories fell short (**Table 1** summarizes the performance targets for 2026). Revenue vehicles fall into the following seven categories, which will be discussed in detail below: Automobile, Bus, Cutaway Bus, Minivan, Van, Sport Utility Vehicles, and Trucks and other Rubber Tire Vehicles. Generally, vehicles with a "Poor" condition rating will be prioritized for replacement. Detailed information on revenue vehicle condition data and proposed investments can be found in **Chapter 5 – Investment Prioritization**.

Automobiles

Among the subrecipients, 25 automobiles are currently in service. The average condition rating is 4.08, with 24 vehicles rated as Good or Excellent (scores of 4 or 5), and only one in marginal condition with a score of 2. Nonetheless, 24 percent of these vehicles have exceeded their useful life according to ADOT's ULB, as some are over 8 years old or have accumulated more than 100,000 miles.

Table 12: Asset Condition - Automobiles

Rating	Condition	Number of Vehicles	Replacement Cost
4.8 to 5.0	Excellent	4	$107,000
4.0 to 4.7	Good	20	$566,000
3.0 to 3.9	Adequate	-	-
2.0 to 2.9	Marginal	1	$28,000
1.0 to 1.9	Poor	-	-
Total		**25**	**$701,000**

Buses

ADOT oversees four subrecipients operating 23 buses. Among these, 5 are in excellent shape, 7 are in good condition, and the majority—10 buses—are rated as Adequate with a 3.0 score. Only 1 bus is classified as Poor condition. Despite this, none of the buses have surpassed their ULBs.

Table 13: Asset Condition - Buses

Rating	Condition	Number of Vehicles	Replacement Cost
4.8 to 5.0	Excellent	5	$1,200,000
4.0 to 4.7	Good	7	$1,485,000
3.0 to 3.9	Adequate	10	$2,135,000
2.0 to 2.9	Marginal	-	-
1.0 to 1.9	Poor	1	$175,000
Total		**23**	**$4,995,000**

Cutaway Buses

The majority of the revenue vehicle inventory consists of cutaway buses (205 out of 477). The average condition of cutaway buses is 3.08, and 32.37 percent of the inventory exceeds its useful life. In total, 51 cutaway buses are in good or excellent condition, while 104 are in adequate condition. The remaining vehicles are in marginal or poor condition.

Table 14: Asset Condition - Cutaway Buses

Rating	Condition	Number of Vehicles	Replacement Cost
4.8 to 5.0	Excellent	17	$2,765,000
4.0 to 4.7	Good	43	$5,920,000
3.0 to 3.9	Adequate	104	$15,770,000
2.0 to 2.9	Marginal	21	$3,035,000
1.0 to 1.9	Poor	20	$2,965,000
Total		**205**	**$30,455,000**

Minivans

ADOT has 18 recipients with 132 minivans in revenue service. The average condition score of minivans is 3.39, with 36.36 exceeding their ULB. Of these, 19 minivans are in excellent condition, 51 are in good condition, 35 are in adequate condition, and 27 are in marginal or poor condition. ADOT currently has a mixture of both Americans with Disabilities Act (ADA) minivans and standard minivans (non-ADA compliant). By policy, ADOT intends to replace all minivans with an ADA-compliant vehicle as they become eligible.

Table 15: Asset Condition - Minivans

Rating	Condition	Number of Vehicles	Replacement Cost*
4.8 to 5.0	Excellent	19	$1,664,000
4.0 to 4.7	Good	51	$4,046,000
3.0 to 3.9	Adequate	35	$2,620,000
2.0 to 2.9	Marginal	16	$1,191,000
1.0 to 1.9	Poor	11	$904,000
Total		**132**	**$10,425,000**

**Replacement values used in the analysis are based on a like for like replacement meeting current Buy America requirements for vehicles.*

Vans

ADOT's subrecipients have a total of 71 vans in their inventory. The average condition for this asset class is 3.84, and 41.89 percent of the vehicles are above their ULBs. In total, 19 vehicles are in excellent condition, 31 are in good condition, 17 are in adequate condition, and 7 are in marginal condition. No vehicles are in poor condition. ADOT will encourage all subrecipients to replace still in-service vehicles with "Poor" condition ratings as soon as possible. ADOT currently has a mixture of both ADA vans and standard passenger vans (non-ADA compliant). By policy, ADOT intends to replace all vans as they become eligible with an ADA-compliant vehicle.

Table 16: Asset Condition - Vans

Rating	Condition	Number of Vehicles	Replacement Cost*
4.8 to 5.0	Excellent	18	$1,435,000
4.0 to 4.7	Good	31	$2,730,000
3.0 to 3.9	Adequate	15	$1,145,000
2.0 to 2.9	Marginal	7	$525,000
1.0 to 1.9	Poor	-	-
Total		**71**	**$5,835,000**

**Replacement values used in the analysis are based on a like for like replacement meeting current Buy America requirements for vehicles.*

Vehicle replacements in the Vans and Minivans category are not occurring as quickly as in the past because Buy America-compliant, non-accessible vehicles are not currently available through ADOT's contracted vehicle vendors. ADOT would purchase compliant vehicles if they were available; however, in their absence, agencies must rely on modified vehicles, which are more expensive and can have slow replacement schedules.

Sport Utility Vehicles

There are 14 SUVs in ADOT's inventory. The average condition of SUVs is 4.07, and 7.69 percent of the inventory exceeds its useful life. In total, 11 SUVs are in good or excellent condition, while 3 are in adequate condition.

Table 17: Asset Condition – Sport Utility Vehicles

Rating	Condition	Number of Vehicles	Replacement Cost
4.8 to 5.0	Excellent	4	$144,000
4.0 to 4.7	Good	7	$379,000
3.0 to 3.9	Adequate	3	$98,000
2.0 to 2.9	Marginal	-	-
1.0 to 1.9	Poor	-	-
Total		**14**	**$621,000**

Trucks and Other Rubber Tire Vehicles

There are 7 trucks and other rubber tire vehicles in ADOT's inventory. The average condition of trucks is 3.71, and 57.14 percent of the inventory exceeds its useful life. In total, 3 trucks are in excellent condition, while 3 are in adequate condition, and just 1 is in marginal condition.

Table 18: Asset Condition - Trucks and Other Rubber Tire Vehicles

Rating	Condition	Number of Vehicles	Replacement Cost
4.8 to 5.0	Excellent	3	$240,000.00
4.0 to 4.7	Good	-	-
3.0 to 3.9	Adequate	3	$138,000.00
2.0 to 2.9	Marginal	1	$48,000.00
1.0 to 1.9	Poor	-	-
Total		**7**	**$426,000**

Chapter 4 – Decision Support

Decision Support

The FTA funds that are apportioned to the State of Arizona are critical to the continued operation of public transit service in Arizona. ADOT conducts a competitive application process for these funds to ensure they are allocated fairly and equitably. The FTA apportionments managed by ADOT in the Section 5311 program focus on the rural areas of the state. ADOT also manages FTA Section 5310 funding for the Tucson UZA and the state's Small Urban and Rural areas. Section 5310 subrecipients that operate 5310 services open to the public are included in the TAM Plan. **Table 19** identifies the funding programs available.

Table 19: Funding Programs

Process/Tool	Brief Description
5307/5339 E-Grants Competitive Application Process	Applicants apply annually for funding for bus and bus-related facilities. Section 5311 agencies are eligible to apply for the statewide apportionment of 5339 funding.
5310 E-Grants Competitive Application Process	Applicants apply every 2 years for funding to support the service. Program funds are used for capital assistance, the purchase of vehicles, related equipment, and preventative maintenance and operating funds statewide. In addition, mobility management awards are available to assist agencies and communities with their coordination efforts.
5311 E-Grants Competitive Application Process	Applicants apply every 2 years for funding to support the service. Funds are provided for administration, operations, and capital purchases. Capital funds are available to replace, rehabilitate, and purchase buses, provide preventative maintenance, and purchase bus-related equipment and construct bus-related facilities.

Evaluation Process

The ADOT MPD – Transit Group applies consistent evaluation criteria across all projects. Nevertheless, it is understood that new systems might not initially meet the same service standards as existing ones, which have been refined over many years. The agency anticipates that new systems will start with a solid base and gradually enhance their performance during the initial years of operation. Funding for new systems is contingent upon the development of a comprehensive transit implementation plan.

The evaluation criteria cover six key areas: Appropriateness and Effectiveness of Service, Benefit to the Rural Community, Financial and Managerial Capability, Local Commitment to Transit and Accessibility, Safety and Training, and Coordination. Existing Section 5311 applicants are assessed based on their

current system performance, financial management, and contract deliverables. New applicants are judged on their projected performance and proven financial management capabilities.

A review panel evaluates applicants against these criteria and submits recommendations to ADOT staff, who then contact applicants to address any issues. The review panel is required by Arizona state statute (41-2702). The panel must be composed of three evaluators who review and score all applications.

Based on this application review process, ADOT determines a fair and equitable distribution of available FTA funding according to the following priorities:

- **Program Maintenance** – Maintain investment in administration and operations at least at the previous year's level, recognizing economic factors such as decreased state and local revenues, inflation, and conservation.

- **Program Growth** – Capacity for individual program growth to meet local community needs as well as state program growth to ensure new program entry based upon the application review process.

- **Capital Investment** – Provide long-term program capacity to meet annual variations in capital purchases without impacting administration and operations budgets. Replacement vehicles are prioritized based on whether they have met or exceeded their useful life and on their condition.

ADOT performs a Title VI assessment to guarantee equitable fund distribution. The final project funding amounts are approved by the ADOT Program Managers. Following approval, ADOT informs each agency of its expected funding. Nonetheless, the grants are only awarded once the FTA approves the state's comprehensive grant application.

Transit Economic Requirements Model Lite

The FTA's TERM Lite Decision Support Tool has been used to analyze ADOT's current needs and backlog, as well as guide investment priorities in the next chapter. The model was developed and run using default settings, starting in 2026 and covering a 20-year period. Default prioritization criteria weights were applied, with asset condition assigned the highest weight at 50 percent. TERM Lite relies solely on age to model useful life and replacement needs; however, ADOT uses a hybrid approach that considers age as well as mileage when making final replacement decisions. **Chapter 5 – Investment Prioritization** details the results of this analysis.

Risk Management

Table 20 identifies the risks to the assets held by ADOT's subrecipients and the associated mitigation strategy.

Table 20: Risk Mitigation Strategy

Risk	Mitigation Strategy
Scheduled maintenance not being conducted	Each subrecipient is required to follow its locally developed maintenance plan, and ADOT site visits confirm compliance.
Annual vehicle inspections not being conducted	Each subrecipient must document an annual inspection for each vehicle. ADOT site visits confirm that inspections occur annually.
Vehicle condition, age, and mileage	Reviewed as part of the application process and during ADOT site visits.

Maintenance Strategy

Each subrecipient must develop and follow its own written vehicle maintenance plan. Vehicles must be maintained at a minimum in accordance with the manufacturer's recommendations.

Overhaul Strategy

Subrecipients are advised to evaluate their vehicles around 2 years prior to reaching their expected useful life. This evaluation helps decide whether repairing the vehicle is more economical than replacing it.

Disposal Strategy

Grantees should utilize equipment until it reaches the end of its useful life. When vehicles are disposed of after this point, the grantee must submit a lien release request to ADOT. Without receiving formal lien release approval, grantees are not permitted to sell, discard, transfer, or dispose of the equipment. The lien release must be obtained prior to disposal, or else the equipment will stay under lien.

Three options are available for the disposition of vehicles: sale, transfer to another subrecipient, or retention as spare:

- **Sales** – Upon ADOT approval, vehicles may be sold at the end of their useful life. If a vehicle is sold for $10,000 or less, the recipient may retain the full proceeds from the disposition. If the proceeds are greater than $10,000, then per 49 U.S.C. 5334(h)(4)(B), the recipient may retain $5,000 and the percentage of the local share of the original award. The remaining funds must be returned to ADOT, and ADOT must return the funding to the FTA. Subrecipients may not deduct selling and handling expenses from the reimbursement for the Federal Share of sales proceeds. The lien release and disposal of the equipment must be approved in advance of the sale.

- **Transfer** – ADOT must approve the transfer of the vehicles before communicating with current subrecipients.

- **Spare** – ADOT may allow the vehicles to be maintained as a spare depending upon the age and useful life of the vehicles.

Acquisition and Renewal Strategy

ADOT has developed the following strategies.

- Remove vehicles from revenue service that pose a safety risk
- Dispose of vehicles if unable to repair
- Dispose of all vehicles with a “1 Poor” condition rating
- Prioritize the replacement of vehicles with a “2 Marginal” condition rating
- Prioritize the replacement of vehicles that have exceeded their useful life in age or mileage

Chapter 5 – Investment Prioritization

Funding Scenarios

To gain a holistic understanding of needs and priorities across the participating agencies, multiple modeling scenarios were developed with the TERM Lite modeling tool using historical and expected future funding. A summary of the examined scenarios is described in **Table 21** below, with a detailed discussion of each scenario to follow.

Table 21: TERM Lite Modeling Scenarios

Scenario	Scenario Description
1	An unconstrained funding scenario to understand total needs and backlog
2	Section 5310 funding of $3 million per year consistent with historical funding
3	Section 5311 funding of $3 million per year for vehicles consistent with historical funding
4	Section 5311 funding of $2 million per year for facilities consistent with historical funding

Unconstrained Funding Scenario

The first scenario analyzed is an unconstrained funding scenario to understand total renewal and replacement needs across all participating agencies. **Figure 2** shows the current total backlog in the year of analysis (i.e., 2026). The current total backlog is just under $18 million, with the majority attributable to vehicles at $16.72 million and the remaining $0.82 million attributable to facilities.

Meanwhile, **Figure 3** illustrates the unconstrained needs by category over the entire 20-year study period. The total 20-year needs amount to $100.86 million, mostly occurring in 2027. This amount indicates a potential rise in backlog if current issues are not resolved. The remaining annual spending addresses needs as assets approach their useful life at year-end.

Figure 2: Current Total Backlog (in 2026 $ Millions)

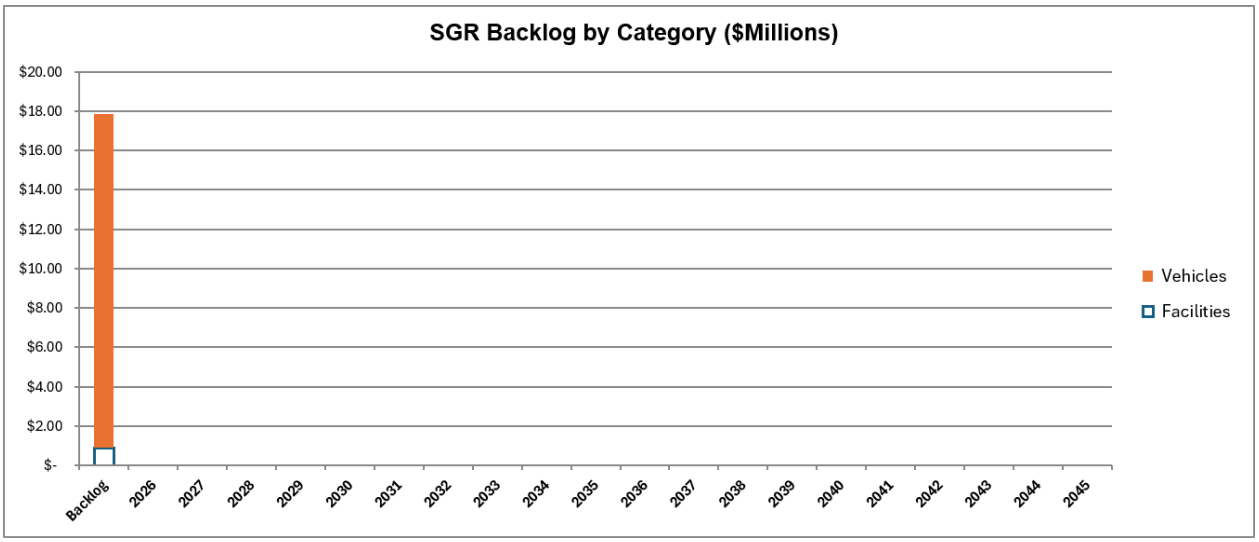

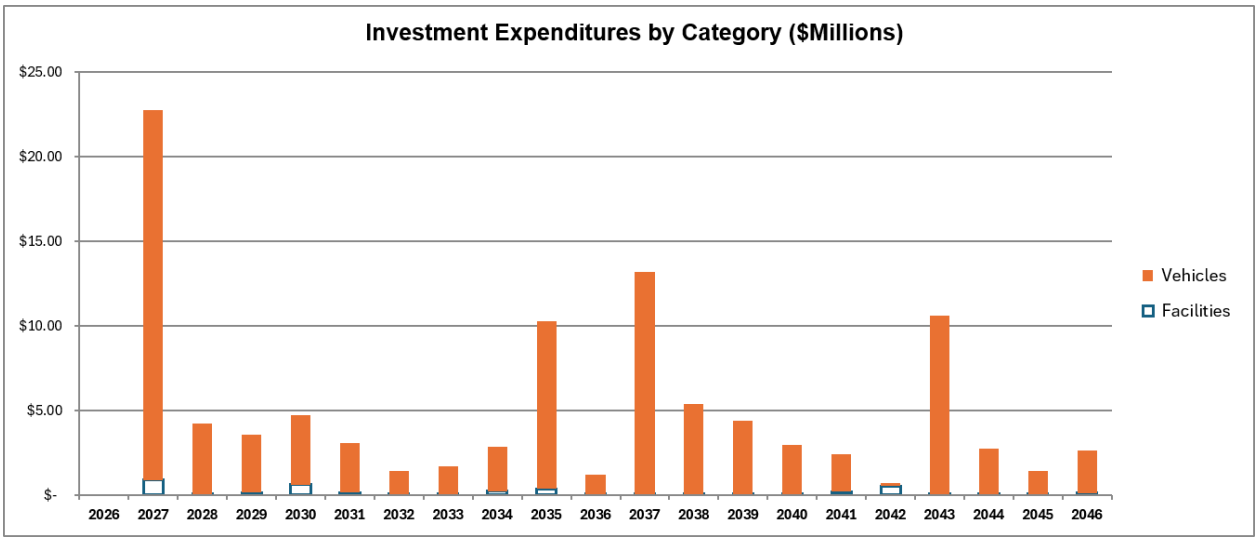

Figure 3: Unconstrained Needs by Category (in 2026 $ Millions)

Section 5310 Funding Scenario

Based on recent historical data, ADOT anticipates awarding $3 million annually in Section 5310 funding for assets acquired via this program. Consequently, a TERM Lite scenario was developed that focuses solely on assets purchased through Section 5310 funding, mainly vehicles. With an assumed $3 million annual budget over 20 years, the following results were generated.

As shown in **Figure 4**, at a funding level of $3 million per year, the SGR backlog reaches zero by 2031. Any disruption to funding for the 5310 program would directly impact this backlog and likely increase it over the study period. After 2031, **Figure 5** shows that $3 million per year is more than sufficient. The expenditure pattern results from vehicles reaching the end of their ULB, reflecting prior purchasing patterns.

Figure 4: Section 5310 Scenario - SGR Backlog (in 2026 $ Millions)

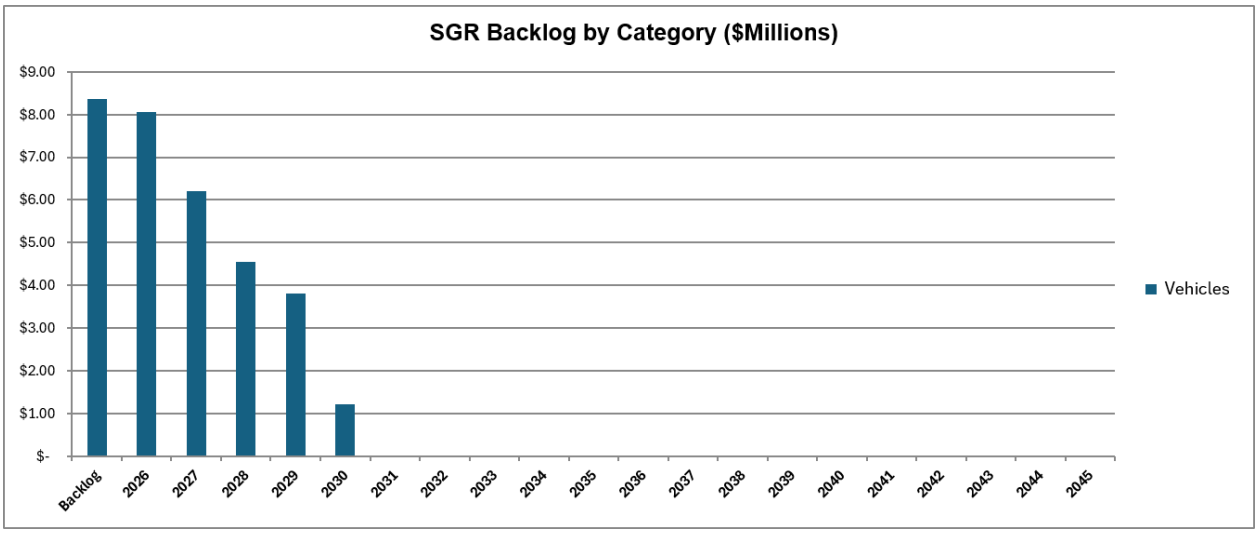

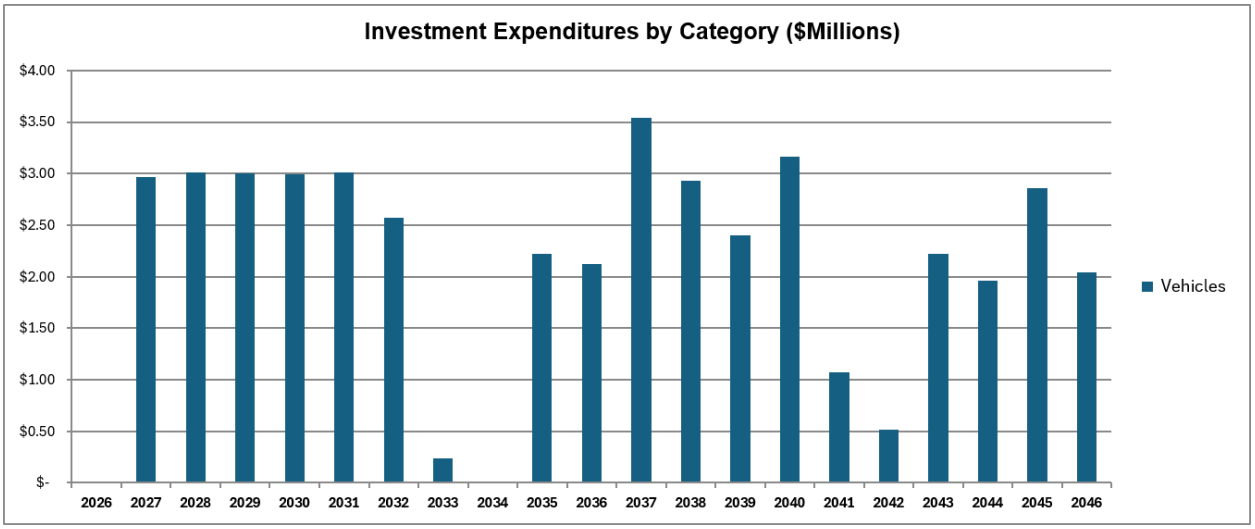

Figure 5: Section 5310 Scenario - Expenditures (in 2026 $ Millions)

Section 5311 Vehicles Funding Scenario

Similarly, through the 5311 program, ADOT and subrecipients have received awards of approximately $3 million for vehicles and $2 million for facilities, for a combined total of $5 million in funding. This subsection discusses a modeling scenario focused on vehicles, while the next subsection focuses on facilities. According to **Figure 6** and **Figure 7**, a similar trend is observed for vehicles purchased through this program compared with those purchased through the 5310 program. With $3 million consistently in funding, the SGR backlog drops to nearly zero in 2033, and expenditures oscillate over the 20-year study period, averaging about $3 million per year.

Figure 6: Section 5311 Scenario - Vehicles SGR Backlog (in 2026 $ Millions)

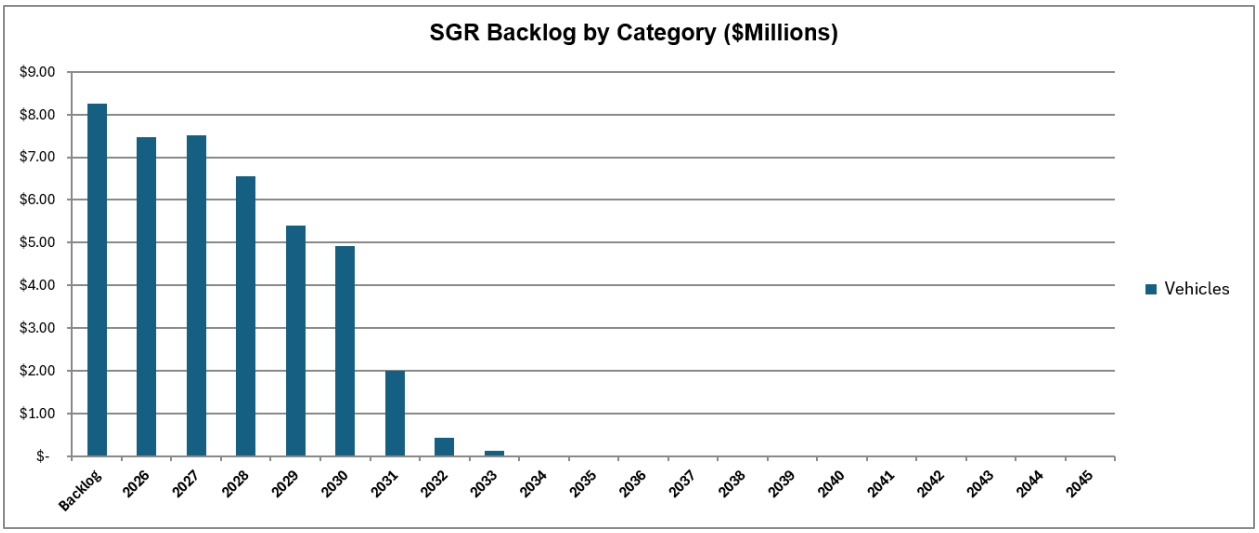

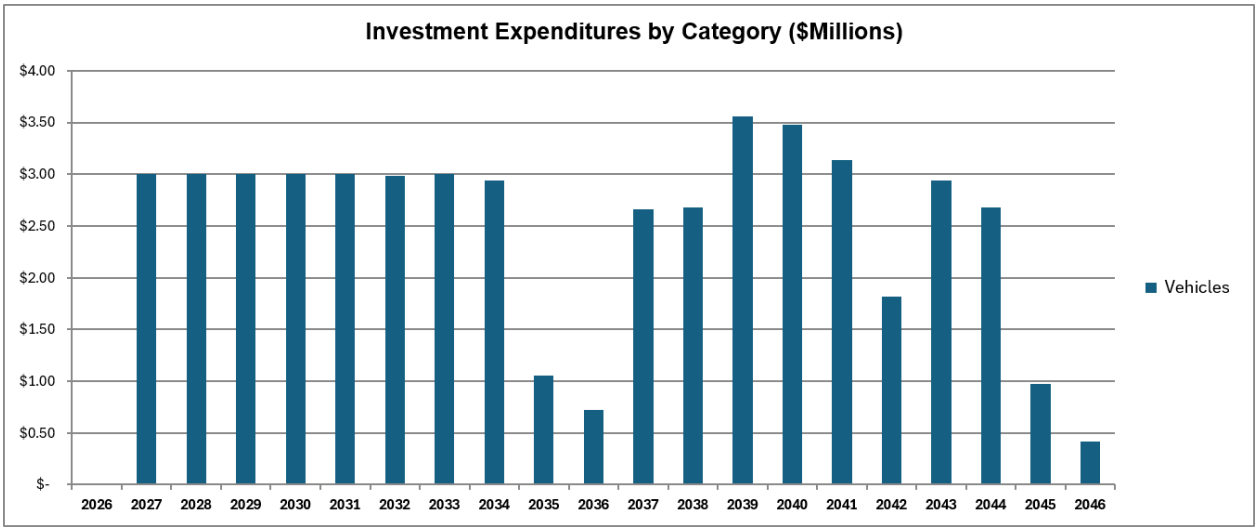

Figure 7: Section 5311 Scenario - Vehicles Expenditures (in 2026 $ Millions)

Section 5311 Facilities Funding Scenario

Finally, as previously mentioned, $2 million in funding is anticipated to be allocated specifically for facilities via the 5311 program. This scenario focuses exclusively on facilities and evaluates the impact of providing $2 million in funding solely for this purpose. **Figure 8** shows that the total facilities backlog is just under $1 million and the backlog is reduced to zero in the first year. In addition, **Figure 9** shows that annual needs across facilities are generally low, with one year needing over $1 million. In contrast, the other years mostly require little to no expenditure, with a maximum of $0.6 million during the study period.

Figure 8: Section 5311 Scenario – Facilities SGR Backlog (in 2026 $ Millions)

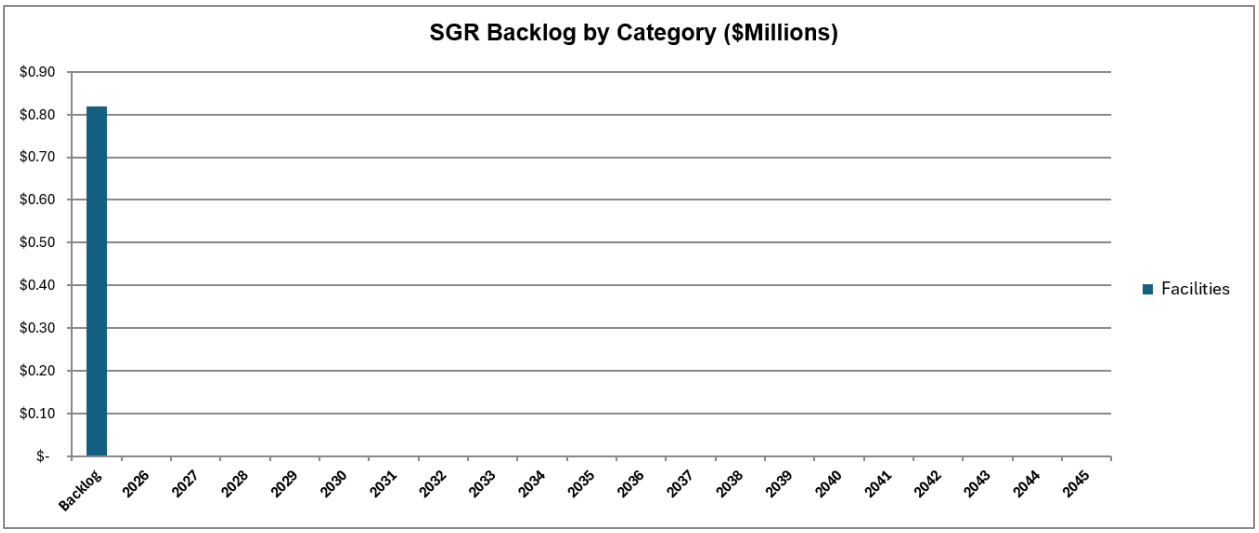

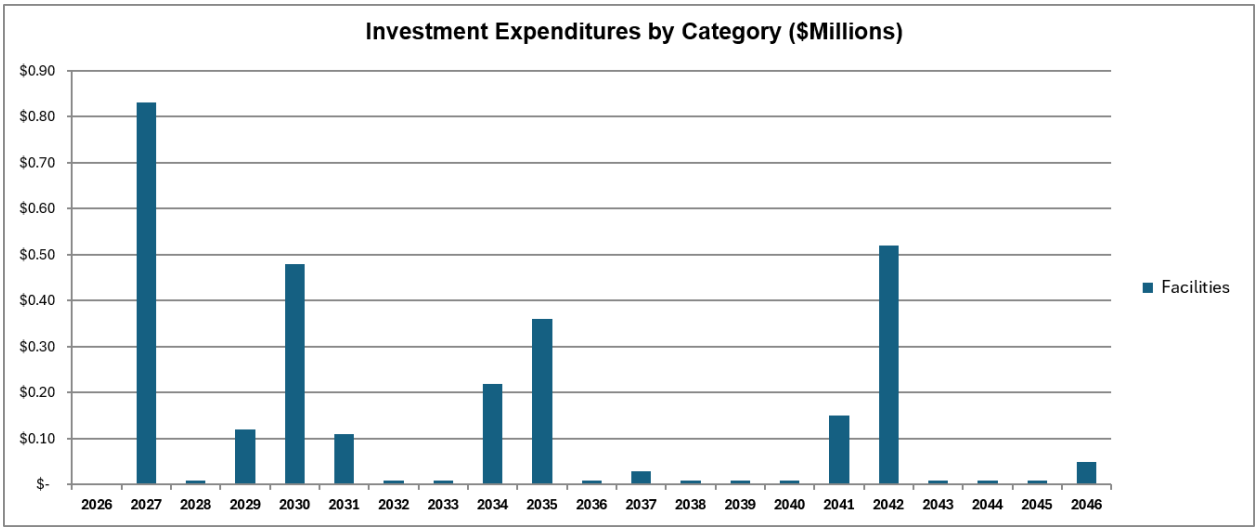

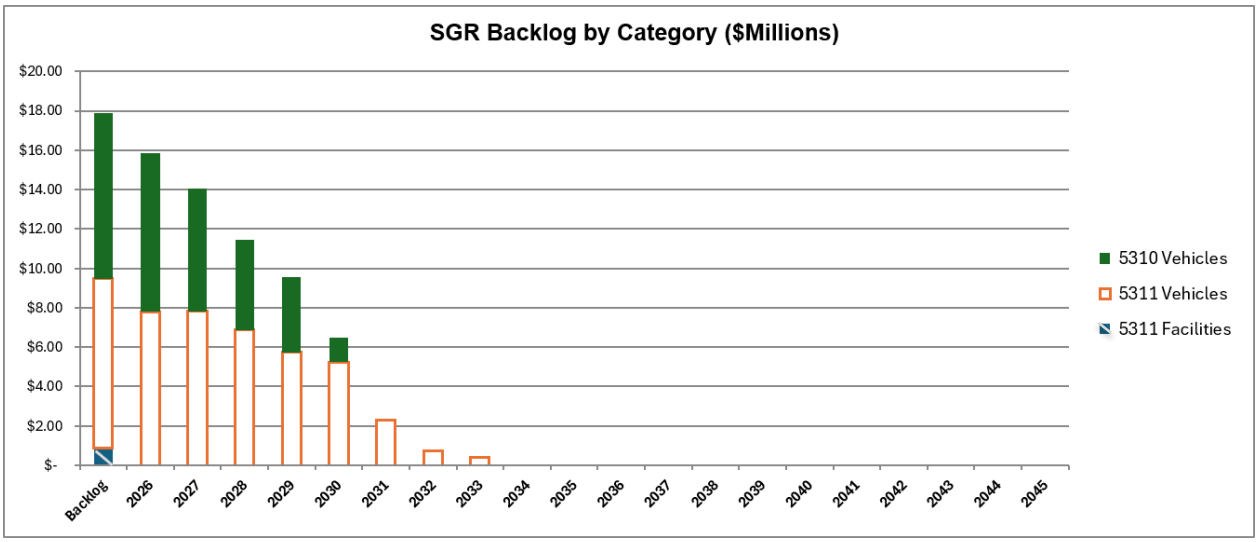

Figure 9: Section 5311 Scenario - Facilities Expenditures (in 2026 $ Millions)

Finally, for a holistic view of SGR backlog across the three funding programs (i.e., 5310, 5311 vehicles, and 5311 facilities), **Figure 10** displays the stacked SGR backlog categorized by funding program throughout the study period. Vehicles constitute the bulk of the backlog, whereas the facilities backlog decreases to zero in the first year. Overall, the total backlog decreases from over $18 million to zero by 2034.

Figure 10: Stacked SGR Backlog by Funding Program (in 2026 $ Millions)

10-Year Spending Details

Building on the previous information, TERM Lite offers a detailed spending plan for the initial 10 years of the analysis period. This subsection details the spending forecast by asset element and sub-element for each of the three funding scenarios outlined in **Table 21**.

Please note that **Table 22** and **Table 23** show spending in millions of dollars, while **Table 24** shows spending in dollars. This presentation is because some figures in the 5311 facilities scenario are too small to be shown in millions of dollars. Moreover, the quantities shown in the 10-Year Spending tables do not necessarily match the total quantities in the full ADOT inventory. This is due to the fact that the 10-Year Spending tables only account for assets that have been prioritized for replacement in the first 10 years.

Section 5310 Funding Scenario

Table 22: 5310 $3 Million Funding Scenario – 10-Year Spending Summary (in 2026 $ Millions)

Category	Sub-Category	Element	Sub-Element	Quantity	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10

Group TAM Plan Authorization

The Arizona Department of Transportation (ADOT) has completed the update of the Group Transit Asset Management Plan (Group TAM Plan) for Tier 2 subrecipients to comply with the Federal Transit Administration's (FTA's) deadline of September 30, 2026.

This Group TAM Plan includes updates to State of Good Repair (SGR) performance goals related to the FTA's SGR measures for revenue vehicles, non-revenue vehicles, and facility asset classes.

The Group TAM Plan will be shared with the appropriate Metropolitan Planning Organizations within Arizona for inclusion in their amended Metropolitan Regional Transportation Plans.

ADOT is dedicated to overseeing the development, implementation, operation, and continual improvement of the asset management practices that encourage our subrecipients to operate their transit systems in SGR.

The ADOT Group TAM Plan details how ADOT will work with our subrecipients to achieve asset management goals and objectives, prioritize direct investments, and allocate resources to achieve the plan's objectives.

Approval

Jennifer Toth, ADOT Director
(Accountable Executive, Arizona Department of Transportation)

Appendix A: Asset Register

Asset Owner	Asset Description	Category	Sub-Category	Element	Sub-Element	Quantity	Units	Acquisition Date	ID/Serial No.	Mileage	Unit Replacement Cost	Condition Rating	Agency Useful Life	Model	Make	Funding Program
Assist to Independence	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2006	1FDWE35L26HB10022	141544	$75,000.00	3: Fair	10	E-350 Super Duty	Ford	5310
Assist to Independence	Minivan	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Minivan	1	Each	2018	2C7WDGBG8JR231515	237586	$95,000.00	3: Fair	8	Braun Caravan	Dodge	5310
Assist to Independence	Minivan	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Minivan	1	Each	2022	2C4RC1CG4NR171831	139579	$95,000.00	4: Good	8	Voyager	Chrysler	5310
Assist to Independence	SUV	Vehicles	Revenue Vehicles	Car	-	1	Each	2025	KL77LHEP7SC225878	77616	$26,000.00	5: Excellent	8	Trax	Chevrolet	5310
Assist to Independence	SUV	Vehicles	Revenue Vehicles	Car	-	1	Each	2019	1C4PJMLX2KD480582	273501	$38,000.00	3: Fair	8	Cherokee	Jeep	5310
Assist to Independence	SUV	Vehicles	Revenue Vehicles	Car	-	1	Each	2022	3GNAXSEV3NS197852	196371	$40,000.00	5: Excellent	8	Equinox	Chevrolet	5310
City of Benson	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2016	1FDFE4FS6GDC40695	101119	$140,000.00	3: Fair	10	Champ	Ford	5311
City of Benson	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2016	1FDFE4FS7GDC40687	115378	$140,000.00	3: Fair	10	Champ	Ford	5311
City of Benson	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2018	1FDEE3FSXHDC68376	117201	$140,000.00	3: Fair	10	Starcraft	Ford	5311
City of Benson	Van	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Medium-Duty Van	1	Each	2020	1FBAX2C84LKA89016	137586	$75,000.00	3: Fair	8	Transit	Ford	5311
City of Bisbee	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2023	1FDFE4FN8PDD38198	69135	$130,000.00	4: Good	10	E-450	Ford	5311
City of Bisbee	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2021	1FDFE4FN4MDC07278	146991	$130,000.00	3: Fair	10	Starcraft	Ford	5311
City of Bisbee	Cutaway bus	Vehicles	Revenue Vehicles	Vans, Cutaways and Autos	Cutaway	1	Each	2018	1HA6GUBG7HN011403	149395	$130,000.00	3: Fair	10	Starcraft	Chevrolet	5311
City of Coolidge	Bus	Vehicles	Revenue Vehicles	Bus	Bus (<30 ft)	1	Each	2014	5WEASAAN2EH787070	405066	$175,000.00	1: Failure	14	PC505	IC Bus	5311
City of Coolidge	City of Coolidge (Transit Administration) | 10 - Substructure | Foundation	Facilities	Buildings	Building Components	Exterior	4046	SF	2009	City of Coolidge (Transit Administration)		$11.37	4: Good	75			5311
