ADOT: Public Meeting Scheduled for the SR 189 Improvement Project

Source: Arizona Department of Transportation

The Arizona Department of Transportation invites residents, businesses and commuters interested in learning more about the State Route 189: International Border to Grand Avenue Improvement Project to a public meeting Thursday, February 20th, in Nogales, Arizona.

The meeting is scheduled from 5-7 p.m. at the Nogales High School Cafeteria, 1905 N. Apache Boulevard, Nogales, AZ 85621. There will be a short presentation and then project team members will be available to share information about the project and answer questions.

The SR 189 (known locally as Mariposa Road) project will include roadway widening and intersection improvements. There will be construction of a roundabout at SR 189 and Target Range Road and two flyover ramps connecting SR 189 with Interstate 19. The project will also include drainage improvements and new traffic signals and signs.

For more information:
Visit the project website and sign up for project emails and traffic alerts at azdot.gov/stateroute189
Mail written questions or comments to ADOT Communications, 1221 S. Second Avenue, Tucson, Arizona 85713
Visit azdot.gov/contact and select Projects from the drop-down menu to submit a question or comment online.

Enamul Hoque named ASCE Life Member

On February 12, Enamul Hoque, PE, president and owner of Hoque & Associates, was awarded the American Society of Civil Engineers (ASCE) Life Member certificate for his commitment to the Civil Engineering profession for the past 30 years.

ASCE Life Members are the most experience and knowledgeable membership segment of the ASCE and contribute significantly to the organization and growth of young professionals. Life Members are active mentors to the upcoming generation of civil engineers. Through ASCE, Life Members connect with university students to foster professional growth. The ASCE Phoenix Branch, in conjunction with Life Members, awards a scholarship to ASCE student members.

Enamul Hoque currently serves as chair of the ADOT DBE Professional Services Task Force, which addresses barriers to entry for small, minority, and women-owned consulting firms on transportation projects. Hoque & Associates is a certified DBE firm in Arizona.
ADOT to Host Small & Disadvantaged Business Transportation Expo

Source: Arizona Department of Transportation

The Arizona Department of Transportation and partner agencies will hold an event Thursday, March 12th, highlighting project opportunities to owners of small businesses and companies qualifying for the agency’s Disadvantaged Business Enterprise program.

The 2020 DBE & Small Business Transportation Expo, scheduled for 7 a.m. to noon at Glendale Civic Center, will allow attendees to network with industry professionals and business owners and hear from transportation leaders including featured speaker ADOT Director John Halikowski. Also participating are the Phoenix Public Transit and Street Transportation departments, Valley Metro, the Maricopa County Department of Transportation and Phoenix Sky Harbor International Airport.

ADOT’s Disadvantaged Business Enterprise program helps qualifying small businesses compete for federally assisted contracts. The companies must be owned by individuals from socially and economically disadvantaged groups, including women and minorities.

To register for this free event, please visit adotdbeexpo.com.

Although the expo is geared toward Disadvantaged Business Enterprises and small businesses, it’s open to all businesses, public agencies, vendors and community partners with an interest in the transportation industry.

$35M Requested for Riggs Road Improvements

Source: inMaricopa.com

A state lawmaker from Maricopa is taking a direct route to fund an overpass on State Route 347 across Riggs Road.

Rep. Bret Roberts is the primary sponsor of House Bill 2802. The brief text of the bill asks for the allocation of $35M for the construction. If passed, the money would be appropriated from the general fund for fiscal year 2020-21.

Roberts cited the continuing growth of Maricopa, and the projected population of 124,000 in 20 years, as his reasons for taking the matter to the Legislature.

At the same time, Pinal County is studying solutions for the high-volume roadway as Maricopa Association of Governments builds a coalition that includes Arizona Department of Transportation, Gila River Indian Community, City of Maricopa and Pinal County. Funding for any resulting improvements is being collected through the county’s Prop 417 by the Regional Transportation Authority. That recently won a suit in appellate court but awaits the possibility of an appeal to the state Supreme Court.

Did You Know?

Nogales, Arizona, borders the city of Nogales, Sonora, Mexico, south of Tucson and Interstate 10. With Arizona ranked first in the nation in projected job growth and economic growth prospects, and Nogales listed as the #1 Port of Entry in the entire Southwestern United States, it’s no wonder Nogales is a great place to do business. Today’s cover story features just one of the many project planned in the area.

Nogales has a population of just over 20,000, and is part of the larger Tucson-Nogales combined statistical area, which boasts a total population over 1 million. The city of Nogales is the county seat of in Santa Cruz County, Arizona.

The name Nogales means “black walnuts” in Spanish, and the walnut trees which once grew abundantly in the mountain pass between the cities of Nogales, Arizona, and Nogales, Sonora, can still be found around the town.

For more information about projects in Nogales and southern Arizona, visit the Southcentral District Project page.
