

# Got a problem?

Research can get you the answers. Need to improve a process or product? Want to know how other states do it? Or maybe you want to pilot the results of a completed research study? When ADOT needs to tackle challenges, the

**ADOT Research Center** delivers practical recommendations the department can put in play.

## **If ADOT does it, we study it.**

Research Center studies address all topics of interest to the department. From materials and safety to public outreach and the environment, research gets ADOT the answers it needs.

## **What about funding?**

It's on us. With help from FHWA, the Research Center funds and manages ADOT research.

## **Let's talk.**

Curious about how research might benefit your group? Let's get the conversation started.

**Dianne Kresich, Manager  
Research Center**
