

# The 3-point parking test

You will have one opportunity to park your vehicle in each spot.

- You will begin at the starting position.
- You will pull into space 1.
- Once fully in space 1, you will reverse into space 2.
- Once fully in space 2 you will pull forward and stop in space 3 and wait for the instructor.

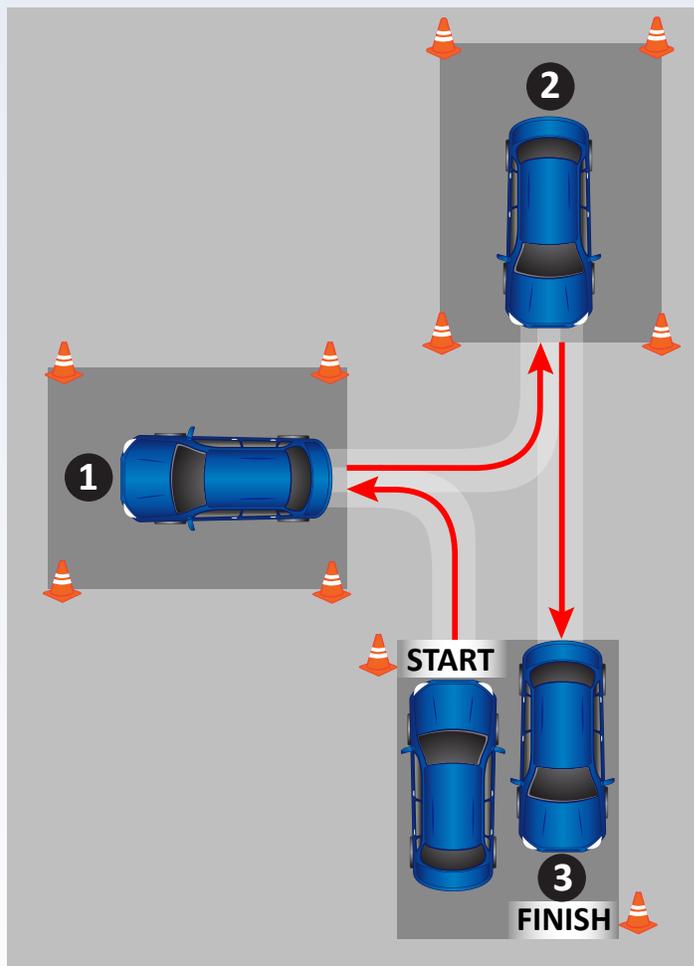

The 3-point parking test is scored in two ways:

1. **POINTS:** 8 or more points will be considered a failure. You will be penalized points for any of the following:

- When you don't wear a seatbelt
- When you change your direction of travel (back and forth) more than two times
- When your vehicle is not fully in space 1 or 2
- When the vehicle stalls, for hard braking, and/or difficulty maneuvering

2. **AUTOMATIC FAILURES:** Doing any of the following will result in an automatic failure and will stop the test.

- Pulling out of the parking space to make a second attempt
- Hitting, moving, knocking over or striking a pylon, or other barrier during the test or after the test
- Refusing or being unable to follow instructions
- Jumping the curb or tire crossing over the curb line
- Committing any dangerous act
