**Light Rail Extension/Hub Awarded $530M DOT Grant**

Valley Metro’s South Central Extension/Downtown Hub development was recently awarded a $530M grant from the U.S. Department of Transportation through the department’s Capital Investment Grants program. The roughly five-mile extension starts at a new hub in downtown Phoenix and ends south of Baseline Road. New light rail stations and public art installations are part of the project. Completion is planned for 2024. [Source]
Digging into Your Business Toolbox: Emails

How to communicate clearly with electronic mail

When you send an email, are you sure your message is clear? Here are some helpful ideas to improve your effectiveness when using this critical business tool.

Think APSSS.

Who is the audience?

- **Do you have their current email address?** Most people have more than one email (personal, business, and others), so be sure you are sending to the appropriate one. When people change jobs, they often send a personal email until they have landed at their new gig. Even when you update the email to the new organization, that old email stays, and sometimes your email autofiller reverts to the personal email. And then you wonder why you don’t get a reply. Take an extra minute to double-check the email address so you know it is correct. Watch how you enter new contact information and avoid typos that delay emails from getting through to your audience.

  - **Is email the right way to communicate?** Some people prefer phone calls, others like texts. When making a new business contact, be sure to ask how they like to communicate so you will save time and they will appreciate your consideration.

  - **Would a phone or video call be better?** It is easy to craft a quick message to share an update or ask a question. Think a moment, and make sure the email is better than a phone or video call. Does the topic need a two-way discussion to make sure you both have clarity about the situation at hand? Sometimes a voice-to-voice conversation is better to make sure facts are understood and decisions are on target.

  - **Would in-person be best?** No one likes bad news, and getting it through email is the worst. Some messages need to be conveyed in person, where you can observe body language, get clear eye contact, and hear true tone of voice. We all know that **ALL CAPS IS LIKE SCREAMING**, and emails should rarely be used for critical conversations.

What is your purpose?

- **Are you intending to inform?** Do you want a response? Are you persuading to shift a point of view? Are you simply sharing a document? The best emails clearly accomplish the sender’s purpose. Include clear time and date deadlines.

- **Avoid delivering private information**, especially in business emails. By keeping business emails on business topics, you are much less likely to encounter uncomfortable (and even legal) situations.

- **If you need a quick response, avoid using an email.** Pick up the phone or have an in-person meeting. Many people check emails only once or twice a day. Just because you use the “high importance” red exclamation mark does not mean the receiver will respond as quickly as you wish.
Digging into Your Business Toolbox: Emails (Cont’d)

What is the appropriate style?

- **What is your relationship with the audience?** If this is a close peer or colleague, you may be able use casual, insider language. If this is an entirely professional situation, then it may range from informal to formal. No matter what, grammar and clarity matter.
- **Avoid jargon, long words, and a complicated, rambling message.** Even when the content is complicated, break it into steps or key points so the reader will follow your intended message path.

Does your company have email standards?

- **Signatures reflect company brands.** Many firms have established guidelines for business email signatures. Be sure you are using the correct format, which may include title, address, office and mobile phones, website, logos, slogans, and taglines. Some people have inspirational messages they like to use, which may be outside of company standards. Remember, you represent your company, and your personal preferences may not align with your company’s branding standards.
- **Confirm that your company may have preferences for mobile device signatures, too.** If you use your mobile phone for business, you may want to have your company name and information as part of your mobile email signature.

What is the message substance?

- **Subject lines** tell the audience if the email is worth reading.
  1) Be crystal clear to break through the noise. Frame it based on the response you need, such as:
     - Reply needed by noon on April 1
     - FYI - Logistics information for business trip
     - Help ACME Make a Difference in the Community
     - Invoice attached from ACME
  2) Keep it to 6-10 words
  3) Personalize it (person, company, business)
  4) Hook the reader. Use action verbs. Respond, review, call, schedule, help, etc. prompt the reader to act.
- **Formatting makes emails easy to understand.**
  1) 2-3 sentence paragraphs
  2) Make important information stand out (bold, color, italic)
  3) Watch font style – look for readability (no cartoon or script)
  4) Add spacing to give the reader’s eye a chance to rest
  5) Use numbers for action steps and key points
  6) Write succinctly
- **Who really needs to be included in the thread?** Avoid copying unnecessary people unless they actually need to be informed or are part of the discussion or decision.

Last chance for success

- **Proofread!!!!** Write, read, and then re-read to make sure your message is clear and accurate.
- **Double check that you have actually attached documents** and they are the right ones. Name them wisely and avoid your internal naming conventions that your audience may not understand. Make sure they are relevant to the email message. Avoid sending so many documents that the reader is overwhelmed, and therefore not likely to respond.
- **Fill in recipient name(s) after you have written the content so it is less likely to be sent incomplete or with errors** – AND THEN DOUBLE CHECK to make sure it is the right recipient (email programs autofill and can get names wrong).

Most people are accustomed to using emails to communicate business matters. When your emails consider the audience, are crafted to fulfill a purpose, are written in appropriate style, follow company guidelines, and clearly convey well-organized substance, you will achieve email success.
Construction Input Prices Up 2.1 Percent

By Associated Builders and Contractors

Construction input prices rose 2.1 percent in February 2021, according to an Associated Builders and Contractors analysis of U.S. Bureau of Labor Statistics’ Producer Price Index data. Nonresidential construction input prices also increased 2.1 percent for the month.

Construction input prices are up 7.6 percent from February 2020, and nonresidential construction input prices have expanded 7.1 percent during that span. Softwood lumber and natural gas have experienced the largest year-over-year increases, rising 79.7 percent and 76.2 percent, respectively. Prices in the iron and steel category increased 22.0 percent compared to the same time last year, and steel mill product prices are up 20.0 percent. (Source)

U.S. Infrastructure Scores a C-

A recent report from the American Society of Civil Engineers gives the United States’ infrastructure a C-.

The “Infrastructure Report Card” calls for additional infrastructure spending and estimates costs of $5.9T to bring roads, bridges, airports and other infrastructure components up to “safe and sustainable” levels.

In the ASCE report, Bridges, Energy, Drinking Water and Solid Waste earned C grades. Ports scored a B-, and Rail earned a B. (Source)

**DBE SUPPORTIVE SERVICES PROGRAM**

1801 W. Jefferson, Suite 101, Phoenix AZ  
(602) 712-7761  
DBESupportiveServices@azdot.gov

www.azdot.gov/beco
Business Development Program class launching Q1-2021!

Whether you are brand new or simply looking to grow business, the ADOT DBE Business Development Program has something for you! Apply or get nominated today.

What does it include?

Expert Workshops
Workshop sessions will be at the core of the program. See other side for more information:
- Workshops delivered by subject matter experts in an interactive, hands-on format.
- First phase of workshops designed around business skills building and second phase of workshops around industry topics.
- A selection of workshops targeting specific tiers of businesses based on industry and business experience/history.

Peer Advisory Groups
Your classmates become your peer advisory group during and after the program.

Business Planning
During the last phase of the program, you will build your business model canvas or one page business plan along with a financial forecast.

Coaching & Mentoring
Each participant will be assigned a business coach to help build and complete your business plan.

Prime Interactions
Several workshops include opportunities to hear from Primes about how to build and manage relationships. You also will have the opportunity to meet with other Primes to get questions answered.

Special Materials
As a participant, you will be given a variety of materials ranging from books to software templates to leadership assessments and an online lead source directory.

Subject Matter Expert Assistance
Masters level participants will be provided six hours of consulting time with subject matter experts including marketing, sales management, legal and more.

Public Relations
Throughout the year, ADOT will publicize the program and highlight its participants throughout the state.

Sales Video
As a graduate, you will receive a professionally filmed and edited marketing video.

Contact DBE Supportive Services at 602-712-7761 today for more information, to enroll or to get on the list for our 8th class starting in Q1-2021.

74 Alumni have reported since graduating the program:
- 1,500 new contracts
- $18 Million in value
- 75 jobs created

What graduates are saying about the program:
- “The program gave me the tools to improve business practices and strengthen our business foundation”
- “It will help you take your business to the next level”
- “This is the way to improve your business all around”

Apply for an open, at-large spot today or get nominated by one of our community partners or a Prime
