

# Lindsay Road at Loop 202 Santan Freeway

## PROJECT CONSTRUCTION NOTICE

### PROJECT OVERVIEW

Beginning March 9, Lindsay Road will be restricted to one lane in each direction between Pecos and Germann roads. This restriction will be in place for the duration of this project in early 2022.

The Arizona Department of Transportation, in partnership with the town of Gilbert, is constructing a new interchange on the Loop 202 Santan Freeway at Lindsay Road. The new Lindsay Road interchange will provide direct freeway access to Gilbert's Central Business District and surrounding residential and commercial development. The interchange will improve traffic flow in the area by widening Lindsay Road and reducing traffic congestion at the existing interchanges at Gilbert Road and Val Vista Drive. The completed project will also accommodate future general purpose lane widening of the Santan Freeway. Project construction began in January 2021 and is expected to be completed in early 2022. Schedules are subject to change based on weather and other unforeseen factors.
