ACIS – Arizona Crash Information System
Training Video 4
Non-ADOT ACIS Users

ADOT Traffic Safety Group
Created on February 4, 2021
Government Agencies need a Data Access Agreement in place to request access ACIS

Submit email request with below information:
- Agency name and contact info
- Name of Person requesting
- Last 4 digits of SSN
- Project Description and Limits
- signed AUA & NDA forms

Data Security Requests are approved by ADOT Traffic Safety Engineer and/or Traffic Safety Crash Records Manager
Login to ADOT Network using your ADOT RACF ID, Password and Mobile PASS code

https://remote4.azdot.gov/vpn/index.html
https://remote4.azdot.gov/vpn/index.html

You should see DESKTOP ICON. Click to open ADOT Network.

ACIS Query did not **WORK**

- Check your query parameters
- Check if you have access to the NCIC codes
- Check all programs are working
- Call ADOT Traffic Safety

ACIS access will be disabled if you didn’t login to ADOT network for 90 days
Crash Numbers Don’t Match - ACIS

✔ An agency may not have sent all their crash reports to ADOT or the reports have not been processed due to backlog
✔ Agencies may have different criteria for crashes, such as counting private property crashes or under minimum crashes, or including fatalities not matching NHTSA guidelines
✔ An agency may have different criteria for certain queries, example: counting all crashes within 250 feet of an intersection instead of 150 feet or using the intersection related box
✔ Any query run from 2 different databases may have different results
