## 5. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The Arizona Department of Transportation (ADOT) and Overdimensional Permit Council have developed these proposed rules in coordination with a broad coalition of public and private transportation stakeholder groups including the Department of Public Safety (DPS), local law enforcement personnel, Arizona's business community, the Arizona Trucking Association, the Specialized Carriers \& Rigging Association and other members of Arizona's trucking, heavy-haul transport, crane, utility, and escort vehicle industries. The proposed rules amend existing oversize and overweight envelope and special permit rules and contain reasonable permit requirements, restrictions, and allowances for transporting oversize and overweight vehicles and loads on the State Highway System.

On publication of final rulemaking at 19 A.A.R. 2486, August 16, 2013, effective September 7, 2013, several members of the Specialized Carriers \& Rigging Association contacted the Department to express concern about a change made to the continuous travel allowance previously provided under R17-6-408(B) for the movement of self-propelled mobile cranes, drilling rigs, and similar specialty equipment from a $10^{\prime}$ front or rear overhang allowance to a $3^{\prime}$ front and $10^{\prime}$ rear overhang allowance. In changing the language of the rule, the Department intended to expand the continuous travel allowance for all vehicles by allowing overhang of up to $13^{\prime}$ (previously only $10^{\prime}$ ) as long as $10^{\prime}$ of the overhang projected to the rear of the vehicle. However, by changing that language the Department inadvertently eliminated a variable overhang length consideration routinely used by the industry to justify eligibility for continuous travel previously relied on for movement of specialty equipment specifically manufactured for travel with more than 3 ' of front overhang (i.e., bucket trucks, ladder trucks, utility trucks, etc.). This rulemaking provides a new continuous travel allowance made specifically applicable to the movement of self-propelled mobile cranes, drilling rigs, and similar specialty equipment with no more than 20 ' of overhang ( 10 ' to the front and 10 ' to the rear) while transporting under a class A - Crane oversize or overweight envelope or special permit.

Representatives of the heavy-haul and oversize and overweight transport industries requested that the Department further clarify the rules by making minor technical corrections that may provide additional regulatory relief for the industry and ensure that the rules are more clear, concise, and understandable. Rule amendments, technical corrections, and clarifying changes considered by the Department since publication of the final rules on oversize and overweight special permits on August 16, 2013, include:
a. Adding a special continuous travel allowance to accommodate self-propelled mobile cranes, drilling rigs, and similar specialty equipment traveling under a class A - Crane special permit at no more than $11^{\prime}$ in width, $14^{\prime} 6^{\prime \prime}$ in height, $10^{\prime}$ in length of front overhang, and $10^{\prime}$ in length of rear overhang;
b. Removing an outdated address from the definition of "Arizona Central Commercial Permits Office";
c. Providing clearer references to the thresholds at which a vehicle or a self-propelled mobile crane, drilling rig, or similar specialty equipment becomes subject to the metropolitan curfew transport allowance and restrictions provided under R17-6-404;
d. Adding a class A annual permit option and a 30-day permit option as provided under Laws 2014, Ch. 60 (HB2430), to accommodate industry requests for expansion of the more desirable class A special permit by consolidating and renaming the class B-Oversize Combination, class B - Type R - Oversize Recreational Vehicle, class D - Crane, class G - Overwidth Vehicle or Combination, and class H - Overwidth Watercraft special permits, since the class A special permits can now accommodate all dimensions and permit options previously only available under the separate permit classes;
e. Updating R17-6-102, Table 1, Threshold Dimensions, to reflect the higher legal thresholds provided under Laws 2016, Ch. 52 (HB2251), and the federal 'Fixing America's Surface Transportation Act"' or "FAST Act";
f. Clarifying R17-6-103 and R17-6-204 (as renumbered to R17-6-211), for delinquent tax reporting purposes under A.R.S. § 42-19157, by prescribing the method and procedure used by the Department to verify eligibility for movement of a mobile home subject to payment of ad valorem taxes, including clarification on what the Department may accept as evidence of ad valorem tax payment or clearance;
g. Repealing R17-6-212, Table 6, as duplicative information since all bridges currently designated by the Department as weight restricted are identified as such under R17-6-412, Table 4; and a special permitted vehicle with at least one tridem axle group configured as provided under R17-6-212 to distribute heavier weights over a larger surface area, may now travel on any route of the State Highway System, unless otherwise restricted under R17-6-412, Table 4;
h. Repealing R17-6-212, Table 7, since the axle group weight calculations are no longer applicable to the new axle spacing criteria provided for class C - Tridem axle group configurations under R17-6212;
i. Consolidating the gross weight categories permitted for reducible vehicle and load combinations traveling under a class E special permit in conformance with legislative changes provided by Laws 2014, Ch. 60 (HB2430);
j. Repealing the Western Regional Trip Permit previously made available under R17-6-211, since issuance of the permit was discontinued as provided under the Western Association of State Highway and Transportation Officials (WASHTO) Resolution 03-18, effective December 31, 2018;
k. Providing illustrations of the warning flag configurations and safety lighting device requirements for vehicles or loads extending more than four feet beyond the front of a vehicle;

1. Adding a reference to the general highway operations requirements under R17-6-401 to remind permittees and drivers issued any multiple trip oversize or overweight envelope or special permit to access and review the most current information on highway-specific restrictions, requirements, conditions, and allowances indicated on the Department's website prior to commencing transport, as currently required under R17-6-412;
m. Clarifying that the general term "houseboat," when transported under an envelope or special permit issued by the Department as provided in A.R.S. § 28-1144(B), and this Chapter, encompasses all large non-reducible watercraft, including a yacht;
n. Correcting the weight tables used for maximizing the amount of weight allowed when using wider tires on axle group configurations with two or more axles;
o. Updating R17-6-412, Table 4, to reflect the most recent bridge height and weight restriction information as posted in real time on the Department's website; to remove some under-legal width restrictions no longer necessary on certain routes; and to expand the number of routes that can now accommodate oversize and overweight vehicles, combinations of vehicles, or vehicle and load combinations using tridem axle group configurations;
p. Removing all curfew routes and restrictions from the Yuma metropolitan area; and
q. Updating the statutory reference in the definition of "mobile home" to reflect changes made by Laws 2016, Ch. 128, §§ 19 through 21 (SB1530), which renumbered A.R.S. § 41-2142 as A.R.S. § 414001.

Additionally, this rulemaking will allow the Department to lift size or weight restrictions on certain routes for vehicle and load combinations operating in support of projects aimed at protecting watersheds from the negative environmental and economic impacts of flood damage, maintaining the health and vitality of at-risk timber forests, supporting the economic development of communities, and preventing loss of life and significant property or infrastructure damage as a result of catastrophic forest fires. State and federal hazardous fuel reduction projects are currently being conducted under Arizona's Four Forest Restoration Initiative, which is a collaborative effort to restore forest ecosystems on portions of four National Forests Coconino, Kaibab, Apache-Sitgreaves, and Tonto - along the Mogollon Rim in northern Arizona and to reduce any constant threats to forest and rangeland health throughout rural Arizona.

## 6. A reference to any study relevant to the rules that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rules, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The agency did not review or rely on any study relevant to the rules.

## 7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking

will diminish a previous grant of authority of a political subdivision of this state:
This rulemaking does not diminish a previous grant of authority of a political subdivision of this state. However, the rulemaking is necessary to correct the Department's inadvertent removal of the variable overhang consideration currently used by the Salt River Project when dispatching oversize bucket trucks and other large utility repair vehicles or loads needed for the rapid restoration of utility services after an outage.

Additionally, as provided under Laws 2015, Ch. 244, §§ 12 and 37 (HB2480), the Arizona Department of Agriculture's Division of Weights and Measures has now assumed all authority, powers, duties and responsibilities of the former Arizona Department of Weights and Measures. This rulemaking updates the weighmaster services reference to reflect those services now provided through the Arizona Department of Agriculture's Weights and Measures Division. Since the legislation specifically provided that all certificates, licenses, registrations, permits and other indicia of qualification and authority previously issued by the Department of Weights and Measures remain valid for the duration of their terms of validity, any weighmaster service impacts experienced during this change of agency would have occurred as a direct result of the legislative changes and not as a result of this rulemaking.

## 8. The preliminary summary of the economic, small business, and consumer impact:

As a multi-modal transportation agency, the Arizona Department of Transportation is primarily responsible for planning, building, operating and maintaining a complex highway system. The Department also provides for the safe and efficient movement of people, goods, and services throughout the state, while promoting compliance with all applicable state and federal laws and regulations developed to protect and preserve all state and federal highway infrastructure under the jurisdiction of the Department. The Arizona Department of Public Safety assists the Department in performance of those duties, and both agencies endeavor to make Arizona highways safer for all motorists by:

Enforcing all motor carrier safety regulations;
Requiring all trucks of every weight and classification to be configured, maintained, and driven in ways that maximize public safety; and

Ensuring that all commercial motor vehicle owners, operators, and drivers comply with all applicable state and federal commercial motor vehicle safety regulations, weight laws, and driver qualification standards.

As indicated in Arizona's statewide Long-Range Transportation Plan, What Moves You Arizona (WMYA) 2040:

ADOT is responsible for maintaining, operating, and improving 18,488 miles of the State Highway System. Although the State Highway System constitutes less than 10 percent of the total public roadway miles in Arizona, it carries 50 percent of the total traffic and nearly 90 percent of all the heavy truck traffic;

ADOT is also responsible for monitoring the conditions on all 7,826 bridges on state and local roads in Arizona, and for replacing, maintaining and preserving the 4,811 state-owned bridges that are part of the State Highway System; and

Arizona and the state of Sonora, Mexico share approximately 360 miles of international border. During 2014, more than $\$ 437$ billion worth of goods moved through the U.S.-Mexico border using trucks, rail and pipeline.

This rulemaking details eligibility, application, and use requirements for a variety of permits the Department currently issues to commercial motor carriers for the operation of commercial motor vehicles, combinations of vehicles, or vehicle and load combinations exceeding any statutorily prescribed maximum size or weight
limitation. The applicable statutes also provide authority for the Department to issue permits, require route analysis and approval, set conditions and restrictions, and collect fees.

The amendments made in this rulemaking modify the parameters of the Department's existing class A special permit to more closely follow the general permit requirement provided under A.R.S. § 41-1037. To reduce the number of permit classes, categories, and types of special permits that each applicant must currently consider each time the applicant applies for permission to transport a vehicle or vehicle and load combination using the State Highway System.

Further, this rulemaking aligns the Department's definition of a "non-reducible vehicle or load" with the federal definition of "non-divisible load or vehicle" and modifies the Department's issuance criteria for class A special permits to accommodate all vehicles, or vehicle and load combinations, previously only eligible for a class B, class B-Type R, class D, or class G special permit. The Department has determined that the broader class A special permits, which are the least restrictive permits most desired by industry representatives, will sufficiently encompass all specific non-reducible vehicles, combinations of vehicles, or vehicle and load combinations with dimensions that do not exceed the limitations provided under R17-6-201, or the maximum permitted weight computations provided under R17-6-411.

In this rulemaking, the Department identifies the following entities that may bear costs and receive benefits ranging from minimal to substantial:
a. Arizona Department of Transportation;
b. Arizona Department of Public Safety;
c. Arizona Department of Agriculture;
d. Arizona utility providers;
e. Any political subdivision issuing permits for oversize or overweight vehicles, combinations of vehicles, or vehicle and load combinations;
f. Automobile and boat transporter companies based in Arizona;
g. Businesses or consumers with projects requiring the use or movement of an oversize, overweight, or oversize and overweight vehicle, combination of vehicles, or vehicle and load combination on a highway under the jurisdiction of the Department;
h. Freight brokerage firms, heavy-haul companies, and other commercial transporters based in Arizona who seek permits for movement of oversize or overweight vehicles, combinations of vehicles, or vehicle and load combinations;
i. Private certified engineering firms; and
j. Private individuals and consumers.

The Department of Public Safety, local law enforcement personnel, and certain members of Arizona's trucking, heavy-haul transport, crane, utility, and escort vehicle industries, including the Arizona Trucking Association, the Specialized Carriers \& Rigging Association, and Arizona's business community may experience minimal costs for re-training any personnel involved with the application, issuance, and use of oversize and overweight envelope or special permits issued by the Department under these rules.

This rulemaking brings the Department's rules into conformance with all applicable provisions prescribed under the federal "Fixing America's Surface Transportation Act" or "FAST Act" signed into law on December 4, 2015, which provided some level of regulatory relief for motor carriers trying to maintain compliance with federal regulations while operating certain types of commercial motor vehicles in interstate commerce. The Department is updating R17-6-102, Table 1, to reflect the new legal thresholds provided under the FAST Act and Laws 2016, Chapter 52, which:

- Increased the allowable length of a stinger-steered automobile or boat transporter from 75 feet to 80 feet and provided that up to four feet of front overhang and six feet of rear overhang on the automobile or boat transporter shall not be included when measuring the overall length of the vehicle and load for legal operation in interstate commerce as provided under 49 United States Code (U.S.C.) § 31111(a) and (b);
- Increased the allowable length of a towaway trailer transporter combination to 82 feet when operated on the Interstate Highway System;
- Clarified that a vehicle carrying fluid milk products is now deemed under 23 U.S.C. § 127(a) to be a load that cannot be easily dismantled or divided, and as such, is a "non-reducible load or vehicle" eligible for special permit issuance under A.R.S. § 28-1103 and these rules;
- Provided an exception from the existing 20,000 pound single axle load limit allowing an over-theroad bus to operate with a single axle load limit of up to 24,000 pounds without a special permit;
- Clarified the term "emergency response vehicle" as it relates to the "non-reducible load or vehicle" designation provided for oversize and overweight special permit issuance when traveling on the Interstate Highway System, to include vehicles loaded with salt, sand, chemicals or a combination thereof, with or without a plow or blade attached in front, when being used for the purpose of spreading the material on highways that are or may become slick or icy;
- Increased the maximum gross vehicle weight allowance for natural gas and electric battery vehicles traveling on the Interstate Highway System by an amount equal to the difference between the weight attributable to the vehicle's natural gas tank and fueling system or electric battery system and the weight of a comparable diesel tank and fueling system (up to 82,000 pounds) as provided under 23 U.S.C. § 127(s); and
- Clarified the special permit issuance process for commercial motor carriers using otherwise reducible overweight vehicles or vehicle and load combinations on the Interstate Highway System for delivering supplies and other relief during periods of national emergency.

This rulemaking does not increase any fee currently required on application for an oversize or overweight envelope or special permit. In Calendar Year 2017, the Department generated $\$ 7,569,702$ by issuance of 116,499 oversize and overweight envelope and special permits for distribution to the Highway User Revenue Fund as prescribed under A.R.S. § 28-6533, and the State Highway Fund as prescribed under A.R.S. § 281105(A)(2). The Table below outlines the Department's oversize and overweight permit classifications, revenue collections, and issuance counts for the separate permit classifications.
(Insert New Table Here - Update Permit Counts for Calendar Year 2019)

The Department intends to begin collecting permit and trip data from all permittees or drivers using the new class $C$ annual envelope permit with tridem axle group configurations as introduced under R17-6-505. The Department's traffic, bridge, pavement, and maintenance engineers will use the collected data to analyze and quantify infrastructure consumption costs associated with the extended use of tridem axle group configurations. Permittees and drivers subject to this new data collection requirement will be able to easily complete the required electronic notification process through the Department's website.

In support of these necessary special permit issuance requirements, the Department currently maintains a modernized, mobile-friendly, Arizona 511 Traveler Information System website that uses the latest technology to provide a customized experience with real-time updates. The AZ511.gov website allows users to save their favorite routes and their most used traffic cameras. Before leaving for a destination, each permittee or driver is required under these rules to $\log$ on to AZ511.gov and review all incident alerts relative to their intended route, get estimated travel times to their destination, and receive information regarding any detours or alternate routes that may be necessary. A permittee or driver may setup automatic text or email alerts to receive real-time updates on any incidents that may affect transport along their intended route. A permittee or driver may also call the Department's 511 phone line to hear personalized updates. The 511 phone line is now easier to navigate and the voice recognition software has been upgraded.

The Department has determined that the benefits of these rules far outweigh the costs of the rules and anticipates that all affected businesses will experience an unquantifiable, but welcome, financial benefit as a result of the Department's ability to issue special permits authorizing increased weight allowances on more routes for vehicles, or vehicle and load combinations, equipped with at least one tridem axle group configuration.

Additionally, this rulemaking supports appropriately scaled, sustainable, forest product industries currently working throughout the state to safeguard the health, safety, and welfare of visitors to the National Forests and any residents of the surrounding communities by reducing unnecessary fuel loads for the elimination of, or a significant reduction in, any future possibility of fueling devastating forest fires. These industries strengthen local economies while conserving natural resources and aesthetic values across the state.

This rulemaking allows the Department to provide the sustainable forest product industry with a more costeffective way to move or remove natural forest products or biomass in direct support of the Department's ongoing cooperative efforts with the U.S. Forest Service, the Arizona Department of Forestry and Fire Management, county officials, and Arizona cities and towns. These ongoing efforts help to mitigate the effects of wildfires, correct damages, and provide other improvements necessary for the successful management of forest health by making it easier for these businesses to engage in activities designed to:

Increase forest resiliency and sustainability;
Reduce risk of undesirable fire effects;
Improve terrestrial and aquatic species habitats;
Improve conditions and functionality of streams and springs;
Restore woody riparian vegetation; and

## Preserve cultural resources.

All of these businesses play a key role in achieving the goals of Arizona's Four Forest Restoration Initiative by harvesting, processing, and selling wood products, thereby reducing treatment costs and providing additional economic opportunities.

Arizona's motoring public will experience no direct costs as a result of this rulemaking, but may experience the unquantifiable benefits the rules provide in maintaining general highway safety measures and supporting cost abatement in the preservation and integrity of the State Highway System infrastructure.
9. The agency's contact person who can answer questions about the economic, small business, and consumer impact statement:

Written comments regarding this rulemaking or the accuracy of the Department's economic, small business, and consumer impact statement should be directed to the person listed under item 4 . All comments must be received by close of public record at 5:00 p.m. on [to be determined].
10. The time, place, and nature of the proceedings to make, amend, repeal, or renumber the rules, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rules:

The Department has scheduled the following oral proceeding for public comments:
Date: [To be determined]
Time: $\quad$ 1:30 p.m.
Location: Arizona Department of Transportation Auditorium
206 S 17th Ave., Rm. 107
Phoenix, AZ 85007
Nature: Oral Proceeding/Public Hearing
Pursuant to Title VI of the Civil Rights Act of 1964, and the Americans with Disabilities Act (ADA), ADOT does not discriminate on the basis of race, color, national origin, age, gender, disability or limited English proficiency. Persons that require a reasonable accommodation based on language or disability should contact ADOT Civil Rights at (602) 712-8946 or civilrightsoffice@azdot.gov. Requests should be made as early as possible to ensure the state has an opportunity to address the accommodation.

Personas que requieren asistencia o una adaptación razonable por habilidad limitada en inglés o discapacidad deben ponerse en contacto con la Oficina de Derechos Civiles de ADOT al (602) 712-8946 o civilrightsoffice@azdot.gov. Las solicitudes deben hacerse tan pronto como sea posible para asegurar que el estado tiene la oportunidad de abordar el alojamiento.
11. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

These rules support the Department's obligation to develop easily understandable publications of the laws, rules, and Department policies relating to commercial motor vehicles, trailers, and vehicle combinations as required under A.R.S. § 28-1111 for publication on the Department's website. The updates and other amendments made by the Department in this rulemaking continue to support the Multistate Highway

Transportation Agreement for governing truck size and weight configurations throughout the Western Region of the United States. This agreement helps the Department to:

Promote the uniform laws and regulations adopted by the Policy Committee of the Western Association of State Highway and Transportation Officials (WASHTO) in June 2004 and updated in March 2009; Ensure a high level of safety for all highway users;
Protect the public investment in Arizona's transportation infrastructure; and
Preserve the state's 18,488 miles of roadways, highways, and freeways containing over 27,000 highway lane miles across 17 districts statewide.

All transporters subject to this rulemaking are additionally subject to all other federal and state motor carrier safety and hazardous materials regulations currently applicable to Arizona motor carriers.

This rulemaking introduces a new 30-day or annual class C envelope permit that the Department may issue for operation of a non-specific and non-reducible vehicle or vehicle and load combination that uses one or more tridem axle groups to meet the envelope permit dimensions prescribed under A.R.S. § 28-1144. However, use of the annual envelope permit to transport these overweight, or oversize and overweight, vehicles or vehicle and load combinations is contingent on the permit holder's ability to electronically report additional trip-related information to the Department before transport begins. Electronic notification to the Department requires a permittee or driver to enter only the basic trip-related information and is accomplished completely online through the Department's electronic permitting system:

1. For analyzing the number and types of overweight vehicles and loads that continuously rely on access to the State Highway System;
2. For monitoring the unpredictable effects those vehicles and loads are having on the Department's ongoing pavement preservation efforts; and
3. For quantifying infrastructure consumption costs reasonably attributable to the operation of each type of overweight or oversize and overweight vehicle.

Without this information, the Department may no longer be able to justify maintaining overweight rules that are less stringent than the federal rules created to protect the public investment in transportation infrastructure.
a. Whether the rules require a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

These rules detail the eligibility, application, and use requirements of a variety of special permits the Department issues to commercial motor carriers for movement of vehicles or vehicle and load combinations exceeding the maximum size or weight limitations provided by statute. Those statutes also provide specific authority for issuance, conditions, restrictions, approvals, and fees for each of the special permits issued by the Department under these rules.

The Department has fully analyzed these rules for compliance with the general permit issuance requirement provided under A.R.S. § 41-1037, and determined that the oversize, overweight, or oversize and overweight special permits issued under these rules are "general permits" in that each permittee
issued a particular class of permit is subject to the same activities, practices, requirements, and restrictions applicable to that permit type.

However, safe movement of specialized vehicles and loads throughout the state requires detailed coordination and implementation of complex operations involving many variables, the Department may need to collect more specific information from certain permit holders operating under these rules to make informed decisions on how best to facilitate safe movement and ensure that all appropriate precautions are in place for the preservation of public safety and transportation infrastructure. Certain instances, which generally involve applications submitted for a class $C$ or class $E$ special permit, or when exigent circumstances exist that may require special consideration by the Department or further coordination with the Arizona Department of Public Safety, may fall outside the criteria for general permit issuance and would be an exception to the general permit issuance requirement provided under A.R.S. § 41-1037.

Additionally, under certain circumstances the rules may require additional application for an encroachment permit under A.R.S. § 41-1037 and 17 A.A.C. 3, Article 5, setting forth specific instances in which encroachment permits may be granted and allowing the Department to approve or disapprove an application outside the criteria of these rules. Since some requirements for obtaining an encroachment permit are generally applicable to all encroachment activities while others are specific to the encroaching activity under consideration, the issuance of a general permit as required under A.R.S. § 41-1037, may not always be technically feasible.

## b. Whether a federal law is applicable to the subject of the rules, whether the rules are more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

This rulemaking provides commercial motor vehicle owners, operators, and drivers with reasonable access to all state and federal highways and routes under the jurisdiction of the Department for interstate and intrastate operations subject to numerous federal laws and regulations designed to facilitate commerce and protect the public investment in transportation infrastructure. The following federal regulations are applicable to the subject matter of the rules, but the rules are not more stringent than any of the applicable federal laws relating to the allowable size of a vehicle and load under 49 U.S.C. §§ $31111,31112,31113$, and 31114 , or the implementing regulations found under 23 C.F.R. Part 658. Federal weight laws are codified under 23 U.S.C. § 127 and implemented under 23 CFR 658, Appendix C of 23 CFR 658, 49 CFR 393.5, 49 CFR 393.11, and Table 1 of 49 CFR 393.11.

The Department's rules are subject to review by the U.S. Secretary of Transportation, as provided under 49 U.S.C. § 31141, Review and Preemption of State Laws and Regulations. If the Secretary determines that a state law or regulation is less stringent than a regulation prescribed by the Secretary under 49 U.S.C. § 31136, the state law or regulation may not be enforced. Conversely, if the Secretary determines that the Department is not adequately enforcing all state laws respecting maximum vehicle sizes and weights on highways which, prior to October 1, 1991, were designated as part of the Federal-aid Interstate, Federal-aid primary, Federal-aid secondary or Federal-aid urban systems, the Federal-aid funds for the National Highway System apportioned to the state for the next fiscal year will be reduced
by an amount equal to 10 percent of the amount which would otherwise be apportioned to the state under 23 U.S.C. § 104, and/or by the amount required pursuant to 23 U.S.C. § 127.

However, the Department is able to issue special permits using the less stringent maximum permitted weight computations provided under R17-6-411, and Tables 3.01 through 3.09, when issuing an overweight or oversize and overweight special permit for movement of a non-reducible vehicle or load under these rules. The "grandfather" provisions in the Federal-Aid Highway Act amendments of 1974, allow the Department to continue issuing special permits using axle spacing tables that yield higher weights for groups of axles spaced within 3 feet 5 inches and 18 feet since the Tables were enacted prior to the amendments. The Department's axle spacing Tables are an expansion of the Federal Bridge Formula B weights authorized by the Federal Highway Administration and A.R.S. § 28-1100 for use on the National Highway System and are used by the trucking industry for determining the axle spacing needed to appropriately distribute excess weight across multiple groups of axles.

49 U.S.C. § 31141 provides that if the U.S. Secretary of Transportation decides that a state law or regulation is additional to, or more stringent than, a regulation prescribed by the Secretary under 49 U.S.C. § 31136, the state law or regulation may be enforced unless the Secretary also decides that: (A) the state law or regulation has no safety benefit; (B) the state law or regulation is incompatible with the regulation prescribed by the Secretary; or (C) enforcement of the state law or regulation would cause an unreasonable burden on interstate commerce.

## c. Whether a person submitted an analysis to the agency regarding the rule's impact of the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states:

No analysis was submitted to the Department.

## 12. A list of any incorporated by reference material as specified in A.R.S. $\$ 41-1028$ and its location in the rules:

This rulemaking incorporates no materials by reference.

## 13. The full text of the rules follows:

## TITLE 17. TRANSPORTATION

## CHAPTER 6. DEPARTMENT OF TRANSPORTATION OVERSIZE AND OVERWEIGHT SPECIAL PERMITS

## ARTICLE 1. GENERAL PROVISIONS

## R17-6-101. General Provision; Definitions; Time of Day

A. General Provision. The Department shall issue and regulate oversize and overweight special permits as provided under this Chapter. The Department implements these Sections under authority of A.R.S. §§ 28-366, 28-1103, 28-1104, and 28-7045, in collaboration with the Overdimensional Permit Council as prescribed under A.R.S. § 28-1150.
B. Definitions. In addition to the definitions prescribed under A.R.S. §§ 28-101 and 28-601, the following terms apply to this Chapter, unless otherwise specified:
"AASHTO" means the American Association of State Highway Transportation Officials.
"ADOT" means the Arizona Department of Transportation.
"Applicant" means a person or entity seeking to obtain a special permit or envelope permit from the Department under A.R.S. Title 28, Chapter 3, Article 18 or 19, and this Chapter.
"Appurtenance" means any not readily removable manufacturer-installed or dealer-installed fixture attached to a vehicle or load that increases a peripheral dimension of the vehicle or load.
"Arizona Central Commercial Permits Office" means the statewide ADOT ECD officefor identified on the Department's website as a location available for oversize and overweight special permit and envelope permit applications and information:, application, and issuance.

1225 N. 25th Avenue
Phoenix, Arizona 85009
Voice line: (602) 712-8851
Facsimile: (602) 272-1887
Internet: www.azdot.gov/mvd/eommercialenforcement/permrequest forms.asp
"Cargo carrying unit" has the same meaning as prescribed under A.R.S. § 28-1103.
"Certified law enforcement officer" means a person who is an active duty Arizona peace officer standards and training board certified peace officer.
"Class C Maintenance Permit Services Unit" means the statewide ADOT office for class C oversize and overweight special permit applications and information:

206 S. 17th Avenue, Mail Drop 004R
Phoenix, AZ 85007
Voice: (602) 712-8176 or (602) 712-8280
Fax: (602) 712-3380
Internet: www.azdot.gov
"Combination wehicle of vehicles" has the same meaning as prescribed under A.R.S. § 28-101, "combination of vehicles," but excludes which does not include a mobile home.
"Continuous travel" means to operate a vehicle continuously throughout any 24 -hour period, except as provided under R17-6-404 the ability to operate or transport an oversize, overweight, or oversize and overweight special permitted vehicle that meets all of the size and weight parameters provided by the Department under R17-6-205(B), R17-6-401(A), and R17-6-412, Table 4, at any time, 24 hours a day, 7 days a week.
"Department's website" means www.azdot.gov.
"ECD" means ADOT's the Enforcement and Compliance Division of the Arizona Department of Transportation.
"Emergency vehicle" and "Emergency response vehicle" mean the same as prescribed under 23 U.S.C. § 127, which includes a vehicle designed to be used under emergency conditions to:

## Transport personnel and equipment; and

Support the suppression of fires and mitigation of other hazardous situations.
"Envelope" has the same meaning as prescribed under A.R.S. § 28-1141, and encompassing encompasses the outermost dimensions of a load or vehicle or vehicle and load combination as prescribed under A.R.S. § 28-1144, without exceeding the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411.
"Envelope permit" has the same meaning as prescribed under A.R.S. § 28-1141, and as further prescribed under A.R.S. § 28-1144, which when issued by the Department for a vehicle or vehicle and load combination:

Restricts the all loads to non-reducible only,
Allows unlimited trips within the permit's period of validity period,
Allows the permitted carrier unlimited load changes,
Requires a each transported load to meet all envelope dimensional criteria,
Restricts operation to certain routes, and
Excludes the Makes the permit inapplicable for use in transporting of a modular or mobile home.
"Escort" has the same meaning as prescribed under A.R.S. § 28-601, "escort vehicle."
"Established place of business" means a permanent site or location where an oversize or overweight special permit or envelope permit holder conducts business.
"Highway" has the same meaning as prescribed under A.R.S. § 28-101, "street" or "highway."
"Highway feature" means a roadway, structure, traffic control device, right-of-way, or any item connected with highway travel.
"Houseboat" means any large non-reducible watercraft, including a yacht, which when hauled on a vehicle issued an envelope or special permit by the Department as provided under A.R.S. § 28-1144(B), and this Chapter, will not exceed any allowable size or weight indicated on the permit.
"IFTA license" means an interstate user license issued by an applicant's base jurisdiction for fuel tax purposes under the International Fuel Tax Agreement as provided under A.R.S. Title 28, Chapter 16, Article 2, for
operation of a use class motor vehicle that is not a recreational vehicle, but is a motor vehicle or vehicle combination designed, used, or maintained primarily for the transportation of persons or property, and:

Has two axles and a gross vehicle weight rating or declared gross vehicle weight of 26,001 pounds or more;

Has three or more axles regardless of weight; or
Has a gross combined weight rating or declared gross combined weight of 26,001 pounds or more.
"Interstate Highway System" means any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways located within the boundaries of this state, officially designated by the state transportation board, and approved by the United States Secretary of Transportation pursuant to 23 United States Code.
"Law enforcement escort" means a uniformed certified law enforcement officer in a fully marked patrol vehicle that accompanies an oversize or overweight special permitted vehicle.
"LCV" means longer combination vehicle, which has the same meaning as prescribed under 23 CFR 658.5. "Legal weight" means within the maximum gross weight limitations prescribed under A.R.S. § 28-1100 and R17-6-102, Table 1.
"Mobile home" has the same meaning as prescribed under A.R.S. § 28-2001, which encompasses both may include a mobile home, and a manufactured home, or a factory-built building as more specifically prescribed under A.R.S. § 41-2142 41-4001, if used in the same context as a mobile home prescribed under A.R.S. § 28-2001.
"Motor home" has the same meaning as prescribed under A.R.S. § 28-4301.
"Mountain Standard Time" means the standard time in Arizona as prescribed under 49 CFR 71 and A.R.S. § 1-242.
"National Network" has the same meaning as prescribed under A.R.S. § 28-1092, designated under A.R.S. § 28-1093(C), and detailed under:

23 CFR 658, appendix A, for movement of a vehicle, combination of vehicles, or vehicle and load combination exceeding an overall length or width limitation provided under R17-6-102, Table 1; or

23 CFR 658, appendix C, and A.R.S. § 28-1095(F), for movement of longer combination vehicles exceeding a size or weight limitation provided under R17-6-102, Table 1.
"Natural forest products" include raw or unfinished $\log s$, timber, pulpwood, biomass, wood chips, etc.
"Non-articulated" means any segment of a vehicle or combination of vehicles constructed or configured without hinged mechanisms, bendable joints, or other flexible points of pivot, swivel, or turning, which may hinder or prevent vertical or horizontal movement during transport or while attempting to negotiate turns.
"Non-reducible" or "non-reducible load or vehicle" has the same meaning as prescribed under 23 CFR 658.5, "nondivisible load or vehicle-," which applies to any load or vehicle exceeding an applicable length or weight $\underline{\text { limit that if separated into smaller loads or vehicles would: }}$

1. Compromise the intended use of the vehicle, i.e., make it unable to perform the function for which it was intended;
2. Destroy the value of the load or vehicle, i.e., make it unusable for its intended purpose; or
3. Require more than eight workhours to dismantle using appropriate equipment, with the applicant having the burden of proof as to the number of workhours required to dismantle the load.
"Oversize" means a size of vehicle, combination of vehicles, or vehicle and load combination that exceeds a maximum legal size limitation provided under A.R.S. Title 28, Chapter 3, Article 18 or 19.
"Over-the-road bus" has the same meaning as prescribed under A.R.S. § 28-1099.
"Overweight" means a weight of vehicle, combination of vehicles, or vehicle and load combination that exceeds a maximum legal weight limitation provided under A.R.S. Title 28, Chapter 3, Article 18 or 19.
"Permittee" means a person or entity to whom the Department issues an oversize or overweight special permit or envelope permit under this Chapter, and who is responsible for meeting the obligations, responsibilities, and specifications indicated on the permit.
"Person" has the same meaning as prescribed under A.R.S. § 28-5201.
"Pounds per inch of tire width" means a measure of load restriction based on rated tire size, which is determined by dividing the weight carried by an axle group, in pounds, by the number of tires in the group and dividing that result by the manufacturer's rated tire width indicated on the sidewall of the tire, or in the absence of sidewall marking, the load rating specified in any publication of an organization listed under 49 CFR 571.119, Federal Motor Carrier Safety Standard No. 119.
"Power unit" has the same meaning as prescribed under A.R.S. § 28-1141.
"Public weighmaster" has the same meaning as prescribed under A.R.S. § 41-2051 3-3401.
"Special permit" means a document issued by the Department under A.R.S. § 28-1103, which authorizes the a permittee or driver to operate or transport an oversize, overweight, or oversize and overweight vehicle, combination of vehicles, or vehicle and load combination on a state highway the State Highway System, subject to the terms and conditions of the permit issued.
"Special permitted vehicle" means the vehicle, combination of vehicles, or vehicle and load combination described to the Department by a special permit applicant on application for a special permit, as required under A.R.S. § 28-1104 on application for a special permit, the description of which is then recorded on the Department's computer systems for analysis, approval, and subsequent documentation on any special permit issued by the Department.
"Specified load" means the dimensions and weights a special permit applicant declares to the Department, as provided under A.R.S. § 28-1104, regarding any item or series of items to be transported throughout an entire permit period.
"State Highway System" means all state routes and state highways owned, operated, and maintained by the Department as designated by the state transportation board under A.R.S. § 28-304(B)(2), including all U.S. routes and Interstate highways located within the boundaries of this state.
"Sunrise" and "sunset" have the same meaning and daily calculation as prescribed by the United States Naval Observatory (USNO), which:

The Department uses to determine normal permit transport start and stop times as provided under R17-6-401; and

An interested person may access on the Internet from the USNO at http://aarusno.navy.mil online at aa.usno.navy.mil, or in hardcopy format from the Arizona Central Commercial Permits effice Office or any Arizona Port of Entry location listed on the Department's website.
"Tandem axle" has the same meaning as prescribed under A.R.S. § 28-1100(B).
"TI" means traffic interchange, which is a junction of roadways arranged to allow for the free flow of traffic uninterrupted by crossing traffic routed over or under the main roadway.
"Towaway trailer transporter combination" means a combination of vehicles consisting of a trailer transporter towing unit and two trailers or semitrailers as inventory of the trailer or semitrailer manufacturer, distributor, or dealer, and the total weight of the combination plus any property carried does not exceed 26,000 pounds.
"Trailer transporter towing unit" means a power unit that is not used to carry property when in a towaway trailer transporter combination.
"Tridem axle" means a group of three axles connected by a common suspension system, or any three consecutive axles whose extreme centers are not more than 144 inches may be included between parallel transverse vertical planes spaced nine to fourteen feet apart, extend across the width of the vehicle, and are individually attached to, or articulated from, a common attachment to the vehicle, including a connecting mechanism or are designed to automatically equalize the load between the three axles.
"USDOT number" means the motor carrier identification number, assigned to a company by the U.S. Department of Transportation's Federal Motor Carrier Safety Administration, preceded by the letters USDOT.
"Use class motor vehicle" has the same meaning as prescribed under A.R.S. § 28-5601.
"UX" means a temporary highway or route segment designated by the Department as:
A segment of highway no longer part of the mainline U.S. system of highways, but still owned and maintained by the Department; or

A portion of a U.S. Route affected by mining operations and subject to realignment by the mining company as the mine expands operations.
"Watercraft" has the same meaning as prescribed under A.R.S. § 5-301 that is properly registered with the Arizona Game and Fish Department or the U.S. Coast Guard.
C. Time of Day. In this Chapter, a time of day prescribed is Mountain Standard Time as defined under subsection (B) except where a state highway a route on the State Highway System traverses a tribal nation that adopts Daylight Saving Time under 49 CFR 71.2.

## R17-6-102. Threshold Dimensions; Special Permit Exemptions

A. Unless exempt under this Section or A.R.S. § 28-1091(C), § 28-1093(D), or § 28-1095(A)(6), a person shall obtain and carry an oversize or overweight special permit issued by the Department under this Chapter if
transporting a vehicle or load exceeding any dimension provided under Table 1 on a state highway under the jurisdiction of the Department using any route on the State Highway System.
B. A permittee and a driver of an oversize or overweight special permitted vehicle shall comply with all applicable:

1. Safety requirements provided under Article 3, and
2. Transport provisions provided under Article 4.
C. An oversize or overweight special permit is not required if crossing a state highway route on the State Highway System at a level grade and no highway structures are involved.
D. An oversize or overweight special permit is not required for snow removal equipment operated by one of the following:
3. An Arizona state agency,
4. An Arizona county,
5. An Arizona city, or
6. An Arizona municipality other than a city.
E. The special permit exemption provided under subsection (D) applies only to snow removal equipment traveling on its own wheels and:
7. Operating for the purpose of clearing snow or ice,
8. Traveling to a facility for repair, or
9. Traveling to a location used for the purpose of loading or unloading de-icing materials.
F. The operator of an oversize or overweight vehicle exempt from the special permit requirement under this Section shall comply with all applicable safety requirements provided under Article 3 unless otherwise prescribed by statute.

## Table 1. Threshold Dimensions

The Department shall may issue an applicable class of special permit, as provided under Article 2, for each transporting on the State Highway System a vehicle, combination of vehicles, or vehicle and load combination; exceeding any of the following maximum limits:

| Width (A.R.S. § 28-1093) |  |  |
| :---: | :---: | :---: |
| Vehicles operating on the state highway system designated by the Transportation Board under A.R.S. § $28-304$ (B)(2) | $8^{\prime} 6^{\prime \prime}$ ( $8^{\prime}$ ' if the maximum width of the route is further restricted underR17-6-412, Table 4) |  |
| Height (A.R.S. § 28-1094) |  |  |
| Vehicles operating on the state highway system designated by the Transpertation Board under A.R.S. \& $28304(\mathrm{~B})(2)$ | $14^{\prime}\left(13^{\prime} 6^{\prime \prime}\right.$ if the maximum height of the route is further restricted under R17 6-412, Table 4) |  |
| Length (A.R.S. §§ 28-1095 and 28-1097) |  |  |
| Straight trucks |  | 40' |
| Truek tractor semitrailer combination or <br> Truck tractor semitrailer forklift combination | Interstate system | 57' 6 " semitrailer |

| Width (A.R.S. § 28-1093) | Height (A.R.S. § 28-1094) |  |
| :---: | :---: | :---: |
| $8^{\prime} 6^{\prime \prime}\left(8^{\prime}\right.$ if the maximum width of the route is further restricted under R17-6-412, Table 4) | $14^{\prime}\left(13^{\prime} 6^{\prime \prime}\right.$ if the maximum height R17-6-412, Table 4) | the route is further restricted under |
| Length (A.R.S. <br> Legal for travel on the State Highway System, <br> highways and routes listed under 23 CFR 658, | 8-1095 and 28-1097 and 23 CFR 65 <br> Interstate Highway System, the feder <br> A, and other highways and routes loc highway. | 8.13) <br> ly-designated National Network of ated within ten miles of an Interstate |
| Overhang | Front of vehicle <br> Rear of vehicle or trailer | $\begin{aligned} & \underline{3^{\prime}} \\ & \underline{6} \\ & \hline \end{aligned}$ |
| Straight truck |  | 40' |
| Bus, or recreational vehicle as defined in A.R.S. § 41-4001(30)(b), if non-articulated |  | 45' |
| Truck equipped with a conveyor bed and used solely as a fiber and forage module mover |  | 48' |
| Truck tractor - semitrailer combination <br> Truck-tractor - semitrailer - forklift combination | National Network | 57' 6" semitrailer |

| An electric powered vehicle or a vehicle with an engine fueled primarily by natural gas may exceed any vehicle weight limit (up <br> to a maximum gross vehicle weight of 82,000 pounds) as provided under 23 U.S.C. 127, by an amount that is equal to the difference |  |
| between the weight of the vehicle attributable to the electric battery system, or the natural gas tank and fueling system carried by <br> that vehicle, and the weight of a comparable diesel tank and fueling system. |  |

## R17-6-103. General Application Procedure for Special Permits

A. Except as provided under subsections (E) and (F), an applicant shall apply to the Department using one of the following methods.

1. For an oversize or overweight special permit:
a. Complete an oversize/overweight special permit application form, available on the Department's web site at www.azdot.gov, and fax, mail, or deliver the written application to the Arizona Central Commercial Permits office at the location provided under R17-6-101, or an Arizona port of entry identified by the Department on its Enforcement Compliance Division Commercial Vehicle Enforcement Services web page; or
b. Complete and submit the oversize/overweight special permit application form online at www.azdot.gov or apply through the Department's electronic service provider if the appropriate permit is available for enline purchase.
z. For an envelope permit:
a. Complete an envelope permit application form, available on the Department's web site at www.azdot.gov, and fax, mail, or deliver the written application to the Arizona Central Commercial Permits office at the location provided under R17-6-101; or
b. Submit the written application form to an Arizona port of entry identified by the Department on its Enforcement Compliance Division - Commercial Vehicle Enforcement Services web page.
A. Unless otherwise provided in this Chapter, an applicant may apply to the Department as provided under subsection (B) for an oversize, overweight, or oversize and overweight special permit to transport a specific non-reducible vehicle, combination of vehicles, or vehicle and load combination that does not exceed:
2. A class A oversize and overweight special permit limitation provided under R17-6-201;
3. A class C - Tridem special permit limitation provided under R17-6-212; or
4. Any other applicable State Highway System restriction, condition, or allowance prescribed by the Department under R17-6-412, Table 4.
B. An applicant may request a special permit prescribed under subsection (A), by:
5. Completing the electronic application process provided on the Department's website; or
6. Completing an oversize/overweight special permit application form, provided by the Department on its website, and mailing or delivering the written application to the address indicated on the application.
C. Unless otherwise provided in this Chapter, an applicant may request from the Class C Unit a class C special permit, class C - Mobile Home special permit, or Easy C - Mobile Home special permit to transport a specific $\underline{\text { non-reducible vehicle, combination of vehicles, or vehicle and load combination that exceeds a limit provided }}$ under subsection (A), by:
7. Completing the electronic application process provided on the Department's website, or completing a class C oversize/overweight special permit application form, provided by the Department on its website, and mailing the written application to the Class C Unit as indicated on the application; and
8. Following all additional application procedures provided under R17-6-104 and R17-6-211, as applicable.
D. An applicant requesting a special permit to transport a self-propelled mobile crane, drilling rig, or similar specialty equipment shall additionally follow the application procedures provided under R17-6-205.
E. An applicant requesting a special permit to transport an LCV shall follow the application procedures provided under R17-6-206.
F. An applicant requesting an envelope permit shall follow the application procedures provided under Article 5, of this Chapter.
B.G. Unless otherwise provided under this Chapter, an applicant for an oversize or overweight special permit or envelope permit shall provide to the Department, at the time of application, all applicable fees and information required by the Department for issuance of the an appropriate class of permit, including:
9. Company Motor carrier related information:
a. Name and address of the applicant's principal or established place of business;
b. Name, phone number, and email address of an official company representative; and
c. USDOT number;
10. Power unit related information:
a. Vehicle make, body style, and year;
b. Vehicle identification number;
c. Unit number assigned;
d. License plate number; and
e. Base jurisdiction - state of registration;
11. Vehicle and load combination related information:
a. Trailer plate number(s);
b. Total number of axles;
c. Overall gross weight;
d. Overall length, width, and height; and
e. Length of front and rear overhang if applicable;
12. Load related information:
a. Specific load description;
b. State and federal routes requested;
c. Starting and ending location within the state;
d. If the load is overweight:
i. Axle spacing measurements,
ii. Axle width measurements,
iii. Number of tires per axle,
iv. Weight measurements per axle, and
v. Width of each tire;
e. If the load is a mobile home:
i. Complete serial number; and
ii. Evidence of payment of all applicable ad valorem taxes, as required under A.R.S. § 28-1104, in the form of a 504 tax clearance permit issued by the county in which the mobile home is currently located;
13. Load related information for movement of a mobile home shall additionally include:
a. Manufacturer's name;
b. Brand name or model;
c. Complete serial number assigned; and
d. Evidence of payment of all applicable ad valorem taxes as required under A.R.S. § 28-1104 in the form of a Mobile Home Property Tax Clearance 504 issued by the county in which the mobile home is currently located if movement of the mobile home is being conducted for a reason other than an original sale, exchange, or lease-purchase to a consumer.
5.6. Proof of valid registration that complies with the requirements of A.R.S. § 28-2153; and
6.7. Proof of a valid IFTA license that complies with the requirements of A.R.S. § 28-5742, if applicable.
C.H. An applicant for an oversize or overweight special permit shall certify to the Department that all information provided on the application is true and correct.
D. An applicant requesting a special permit for transport of a self-propelled mobile crane, drilling rig, or similar specialty equipment shall additionally follow the application procedure provided under R17-6 205.
E. An applicant requesting a special permit for transport of a specific non reducible vehicle and load combination with a dimension that exceeds a class $A$ oversize and overweight special permit limitation provided under R17

6-201, or that exceeds the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411, shall follow the application procedures provided under R17-6-104 and R17-6-204.
F. An applicant requesting a special permit for transport of an LCV shall follow the application procedure provided under R17-6-206.
I. For the purposes of oversize or overweight special permit application and issuance under this Article for travel on the State Highway System, the term "non-reducible load or vehicle" may include any of the following vehicles, or vehicle and load combinations:

1. Casks designed for the transport of spent nuclear materials;
2. Emergency vehicles or emergency response vehicles, including those loaded with salt, sand, chemicals or a combination thereof, with or without a plow or blade attached in front, and being used for the purpose of spreading the material on highways that are or may become slick or icy;
3. Military vehicles transporting marked military equipment or material;
4. Bulk milk transport tankers or trucks carrying fluid milk products; and
5. Vehicles or vehicle and load combinations transporting or removing natural forest products or biomass from certain areas within this state, subject to all terms and conditions set by the Department on issuance of a special permit, as provided under R17-6-207.

## R17-6-104. Additional Special Permit Requirements and Restrictions; Engineering Analysis

A. To promote safe transport of oversize and overweight vehicles, combinations of vehicles, or vehicle and load combinations, the Department's Class C Maintenance Permit Services section Unit shall evaluate each class C special permit application to determine, on a case-by-case basis, whether additional permit requirements or restrictions are appropriate and necessary as a condition of permit approval. The Department's decision to require additional permit restrictions shall be based on its consideration of:

1. Bridge capacities;
2. Load size and weight;
3. Pavement stress;
4. Road width, grade, and condition; and
5. Traffic dynamics of the proposed route.
B. The Department shall require a special permit applicant to obtain an engineering analysis for transport of an overweight vehicle, combination of vehicles, or vehicle and load combination:
6. Exceeding 250,000 pounds;
7. Exceeding the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411; or
8. Exceeding a bridge weight restriction provided under R17-6-412, Table 4.
C. If the Department requires an engineering analysis of a proposed route as a condition of permit approval, and is unable to dedicate the employee resources necessary to timely complete the required analysis, a special permit applicant may obtain an analysis prepared by a non-Department engineer at the applicant's own expense.
9. An engineer registered by the Arizona State Board of Technical Registration in structural or civil engineering, as prescribed under A.R.S. Title 32, Chapter 1, shall prepare an engineering analysis of the proposed route according to industry standards.
10. The special permit applicant shall submit to the Department for review any engineering analysis prepared by a non-Department engineer.
11. An engineering analysis is considered by the Department to be compliant with industry standards if prepared according to the following publications, available on the Department's web site at www.azdot.gov, complies with industry standards website:
a. The most recently published edition of the AASHTO Manual for Bridge Evaluation, including all interims, standards, or guidelines;
b. The most recently published edition of the AASHTO Load and Resistance Factor Design (LRFD) Bridge Design Specifications, including all interims, standards, or guidelines; and
c. The ADOT Bridge Load Rating Guidelines and Bridge Design Guidelines.
12. The non-Department engineer shall certify that an applicant's overweight vehicle will not overstress or damage any element of:
a. A highway structure, or
b. Any other state property.
D. An applicant for a class $C$ special permit shall submit to the Department, at the time of special permit application, all applicable fees required under R17-6-204 R17-6-211 for preparation or review of an engineering analysis.
E. An applicant for a class $C$ special permit may resubmit an engineering analysis approved by the Department within the previous 12 months if:
13. The size and weight of the applicant's vehicle and load are identical to the previously approved permit application;
14. The segments of the applicant's proposed route are within the outer limits of the previously approved route; and
15. The condition of the highway structure or other state property has not changed.
F. The Department shall conduct a separate review and approval process for each engineering analysis submitted under this Section.
G. If the applicant's engineering analysis shows that a highway structure will not support the overweight vehicle as requested, the Department shall deny the application for a class $C$ special permit.
H. If the Department determines that a potential traffic safety risk exists, a class C special permit applicant shall submit to the Department a comprehensive traffic control route survey and contingency plan as provided under R17-6-108.
I. The Department of Transportation, the Department of Public Safety, or any other law enforcement entity lawfully authorized to provide certified weights may weigh a class C special permitted vehicle and load exceeding 250,000 pounds, or require the applicant to have the vehicle and load weighed as prescribed under A.R.S. § 28-1102.

## R17-6-105. Special Permit Limitation

The Department shall issue oversize and overweight special permits for state highways. An applicant or permittee may apply to the Department for a special permit to transport an oversize, overweight, or oversize and overweight vehicle or vehicle and load combination on any part of the State Highway System as provided under this Chapter. A An applicant or permittee shall apply separately with an other applicable political stebdivision subdivisions or tribal nation nations for permission to operate on a county, municipal, or tribal route.

## R17-6-106. Special Permit Extension

A. Upon request by a permittee, the Department shall may authorize a one-time extension of up to four days for a single-trip special permit if:

1. The permittee needs to exchange a permitted vehicle for another due to mechanical failure, or
2. Transport by the permitted vehicle is delayed by inclement weather.
B. Except as provided under subsection (C), the special permit extension attherization a permittee may request and receive authorization for the extension provided under subsection (A) is administered: by contacting the Department at the telephone number indicated on the special permit.
3. By signature of an authorized ECD agent, or
4. By telephone in an emergency sittation after first contacting Arizona Central Commercial Permits or the Arizona port of entry closest to the affected area as listed on the Department's web site at www.azdot.gov.
C. A special permit extension authorization for a class $C$ special permit is administered only by only available through the Class C Maintenance Permit Services Unit and may be requested by contacting the Department at the telephone number indicated on the special permit.
D. A class C special permit extension request due to mechanical failure shall include:
5. A written statement from the repair facility, on company letterhead, referencing the necessary repairs; and
6. Any new power unit and registration numbers, if applicable.

## R17-6-107. Special Permit Confiscation

A. Except as provided under subsection (B), a peace officer designated by the Director under A.R.S. § 28-369 may confiscate an oversize or overweight special permit before its expiration date if the permittee or driver is cited for a violation of this Chapter or A.R.S. Title 28, Chapter 3, Article 18.
B. The Director may suspend, revoke, and retrieve an envelope permit as provided under A.R.S. § 28-1147 and R17-6-503 R17-6-509.

## R17-6-108. Traffic Control Route Survey and Contingency Plan

A. To promote safe transport of oversize and overweight vehicles, combinations of vehicles, or vehicle and load combinations, the Department shall evaluate each class $C$ special permit application determine, on a case-bycase basis, to determine whether a potential traffic safety risk exists that may require a comprehensive traffic control route survey and contingency plan as a condition of permit approval. The Department's decision to require a comprehensive traffic control route survey and contingency plan shall be based on its consideration of:

1. Bridge capacities;
2. Load size and weight;
3. Pavement stress;
4. Road width, grade, and condition; and
5. Traffic dynamics of the proposed route.
B. If the Department determines that a potential traffic safety risk exists, a class C special permit applicant shall submit to the Class C Maintenance Permit Services Unit at the time of special permit application, a eomprehensive traffic control route survey and contingency plan, which shall be prepared as follows address all of the following items:
6. Identify all roadway features located along the proposed route that may inhibit movement of the vehicle, combination of vehicles, or vehicle and load combination;
7. Identify all obstructions that may be subject to potential disturbance or damage;
8. Specify how all structures, delineators, foliage, and official traffic control devices will be managed or avoided;
9. Specify all available pullout points located along the proposed route listed by highway and milepost number;
10. Specify how all side traffic will be managed;
11. Specify the rate of speed at which the load will travel along the proposed route;
12. Specify the approximate times when during which the load will is expected to be in transit; and
13. Provide acontingency Specify the plan to be followed in the event of a breakdown-; and
14. Indicate the estimated time needed to change out a power unit or other special equipment if the Department, through detailed analysis and as a condition of permit approval, requires the use of an additional power unit or other special equipment to ensure safe transport of the proposed load. The Department's decision to require an additional power unit or other special equipment shall be based on its consideration of the:
a. Estimated timing involved with clearing a route after a breakdown;
b. Expected weather conditions;
c. Proximity and availability of reserve resources;
d. Size and weight of the load;
e. Traffic dynamics of the proposed route; and
f. Width, grade, and condition of the roads.
C. As a condition of class $C$ special permit issuance, the Department may require an applicant to coordinate use of one or more law enforcement escorts as needed to ensure public safety while transporting a proposed load.

## R17-6-109. Special Permit Denial

The Department shall deny an oversize or overweight special permit application, or revoke and confiscate a previously approved special permit, if:

1. The proposed transport route or a structure on the route is:
a. Unable to bear the size or weight of the transport vehicle and load according to the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411,
b. Under repair, or
c. Temporarily closed due to a hazardous condition listed under R17-6-403(B) R17-6-405;
2. An applicant for a permit to transport a mobile home does not provide written proof of ad valorem tax payment or clearance as required under A.R.S. § 28-1104; or
3. The Department determines that the special permit applicant made a material misrepresentation or misstatement on the permit application or any other document submitted to the Department in support of the permit application.

## R17-6-110. Liability

A person who operates an oversize or overweight special permitted vehicle and a person who causes the vehicle to be operated shall be liable for any damage caused to a state highway by the oversize or overweight vehicle or load during transport as provided under A.R.S. § 28-1107.

## R17-6-111. Administrative Hearing

If the Department denies an oversize or overweight special permit application, or revokes and confiscates a previously issued special permit, the permittee may appeal the action using the procedure provided under 17 A.A.C. 1, Article 5.

## R17-6-112. Emergency Operation Provision

A. In time of For a statewide or local emergency that affects public welfare or safety, according to general powers under A.R.S. §§ 28-363(A)(5) and 28-364(B), the Director may authorize transport of an oversize or overweight vehicle or load without a special permit for purposes of relief or repair.
B. For a national emergency, the Director may issue a special permit authorizing operation of a reducible oversize or overweight vehicle, or vehicle and load combination, on the Interstate Highway System if the President has declared an emergency or a major disaster under 42 U.S.C. $\S 5121$. A special permit provided by the Department under this subsection shall be:

1. Issued in accordance with all applicable state laws;
2. Issued exclusively for delivering relief supplies or providing other direct assistance in efforts to help alleviate any damage, loss, hardship, or suffering caused by such event; and
3. Issued to expire not later than 120 days after the date on which the President declares the emergency or major disaster, whichever declaration occurred first.
B.C. Authorization for emergency operation under this Section may be obtained by contacting the Arizona port of entry closest to the affected area as listed on the Department's web site at www.azdot.got the Department's Traffic Operations Center at 1-800-379-3701.

## R17-6-113. Electronic Access to Local Permit Ordinances and Rules

A. A local authority that issues oversize and overweight special permits under A.R.S. § 28-1103, and this Chapter, shall make available, provide to the Department's Arizona Central Commercial Permits office Class C Unit, an Internet a web link to where the public may use to electronically access the local authority's current ordinances and rules relating to the excess size and weight special permits can be electronically accessed.
B. The Department shall immediately post, to its web site at www.azdot.gov, each Internet web link provided by received from a local authority under subsection (A) and A.R.S. § 28-1103 to its website at www.azdot.gov.
C. A local authority shall provide, to the Department's Class C Unit, an electronic copy of all ordinances adopted and enforced by the local authority with respect to highways under its jurisdiction as required under A.R.S. § 281103(F), as follows:

1. Email one copy of all applicable local ordinances formatted as a word document (.doc, .docx, .rtf, .pdf, etc.) to StatewidePermits@azdot.gov; and
2. Email one copy of any change the local authority is considering, proposing, or making to any applicable local ordinance to StatewidePermits@azdot.gov.
D. If a local authority informs the Department of an urgent need for an ordinance to be posted to the Department's website for the protection of public safety, the Department may post the information to its website as proposed, and forward an electronic copy of the proposed ordinance to the Overdimensional Permit Council for further review as required by law.

## ARTICLE 2. SPECIAL PERMIT CLASSES AND FEES

## R17-6-201. Class A Oversize and Overweight Special Permits Permit - Specified Specific Non-reducible Vehicle, Load, or Combination

A. The Department shall issue a multiple or single trip, multiple trip, or annual class A oversize, overweight, or oversize and overweight special permit according to the following criteria for a specified nonreducible specific non-reducible vehicle, combination of vehicles, or vehicle and load combination that exceeds a dimension provided under R17-6-102, Table 1, but does not exceed the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411, or any of the following maximum limits:

| Vehicle or load description | A specific non-reducible specified vehicle or load over a threshold dimension provided under R17-6-102, Table 1, to a maximum: |  |
| :---: | :---: | :---: |
|  | $\underline{\text { Width }}$ | 14 feet |
|  | Height | 16 feet |
|  | Overall length | 120 feet |
|  | Width | 14 feet |
|  | Weight | 250,000 lbs. |
| Permit option | Single trip: 96-hour maximum |  |
|  | Multiple trip: 30-day maximum |  |
| Standard permit fee for weight not exceeding 80,000 pounds (A.R.S. § 281105) | Single trip: 96-hour maximum | \$15 |
|  | Multiple trip: 30-day maximum | \$30 |
|  | Multiple trip: one year | \$360 |
| Overweight permit fee for weight less than 250,000 peunds but that exceeds exceeding the legal threshold under R17-6-102, Table 1, but not exceeding 250,000 pounds (A.R.S. § 28-1105) | Single trip | \$75 |
|  | Multiple trip: 30-day maximum | \$75 |
|  | Multiple trip: one year | \$600 |

B. An applicant for a class A oversize, overweight, or oversize and overweight special permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103.
C. A permittee or driver of an oversize, overweight, or oversize and overweight special permitted vehicle, combination of vehicles, or vehicle and load combination shall not access a route listed under R17-6-412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-202. Class B-Oversize Special Permit - Specified Non-reducible Vehicle and Load-Combination Repealed

A. The Department shall issue an annual class B oversize special permit according to the following criteria for multiple trips of a specified non-reducible vehicle and load combination that exceeds a dimension provided under R17-6-102, Table 1, but does not exceed the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411 or any of the following maximum limits:

| Vehicle or load description | A non-reducible, specified vehicle and load combination (excluding cranes and <br> drill rigs) over a threshold dimension provided under R17-6-102, Table 1, to a <br> maximmm: |  |
| :--- | :--- | :--- |
|  | Height | 14 feet 8 inches |
|  | Overall length | 80 feet |
|  | Width | 12 feet 6 inches |
|  | Weight | 80,000 lbs. |
| Permit option | Multiple trip: one year |  |
| Fee (A.R.S. § 28-1105) | $\$ 360$ |  |

B. An applicant for aclass B oversize special permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103.
C. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-203. Class B-Type R $\underline{\text { A - Oversize Recreational Vehicle Special Permit - Commercial Transport }}$

A. The Department shall issue an ammat a class B-Type R oversize A - Oversize Recreational Vehicle special permit according to the following criteria for a commercial transporter of a recreational vehicle that exceeds the width threshold prescribed under A.R.S. § 28-1093 and R17-6-102, Table 1, but does not exceed the following maximum limit:

| Vehicle or load description | A dealer, manufacturer, or transporter hauling or driving a recreational <br> vehicle with appurtenances wider than 8 feet, 6 inches, on behalf of a dealer, <br> manufacturer, or consumer |
| :--- | :--- |
| Permit option | For each original permit purchased, up to 24 additional copies of that permit <br> may be issted, all of which are valid for unlimited use by an unlimited <br> number of vehicles throughout a one-year period by the permittee. |
| Fee (A.R.S.§28-1105) | $\$ 360$ per year |

| Vehicle or load description | $\underline{\text { A dealer, manufacturer, or transporter hauling or driving on behalf of a }}$ |
| :--- | :--- |
|  | $\underline{\text { dealer, manufacturer, or consumer a recreational vehicle that exceeds the }}$ |
| $\underline{\text { legal width threshold provided under R17-6-102, Table 1, but is }}$ |  |
|  | $\underline{\text { otherwise in conformance with configuration requirements provided }}$ |
|  | $\underline{\text { under A.R.S. } \$ 28-1093 \text { for excess width attributable to recreational }}$ |
| lehicle appurtenances. |  |

| Standard permit fee for weight <br> not exceeding 80,000 pounds | $\underline{\text { Multiple trip: 30-day maximum }}$ | $\underline{\$ 30}$ |
| :--- | :--- | :--- |
| (A.R.S. §28-1105) | $\underline{\text { Multiple trip: one year }}$ | $\underline{\$ 360^{*}}$ |
| *For each original annual permit purchased, the Department may issue up to 24 additional copies of that <br> permit, all of which are valid for unlimited use by the permittee throughout the permitted period for an |  |  |
| unlimited number of vehicles. |  |  |

B. An applicant for a class B-Type Roversize A - Oversize Recreational Vehicle special permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103.
C. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-204. Reserved - Class A - International Border Permit

## R17-6-205. Class D A - Crane Oversize and Overweight Special Permit - Self-propelled Mobile Crane, Drilling Rig, or Similar Specialty Equipment

A. The Department shall issue an annmat a class $\mathrm{B} \underline{\mathrm{A}}$ oversize, of overweight, or oversize and overweight special permit according to the following criteria for a specified specific non-reducible self-propelled mobile crane, drilling rig, or similar specialty equipment meeting the dimensional requirements provided under R17-6 201, without exceeding the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411: that exceeds a dimension provided under R17-6-102, Table 1, but is within the class A maximum limits prescribed under R17-6-201.

| Vehicle or load description | A self propelled mobile crane, drilling rig, or similar specialty equipment <br> meeting the dimensional requirements provided under R17-6 201. |
| :--- | :--- |
| Permit option | Multiple trip: one year |
| Fee (A.R.S. § 28-1105) | $\$ 600$ per year |

B. Unless restricted under R17-6-404 or R17-6-412, Table 4, a permittee or driver of a self-propelled mobile crane, drilling rig, or similar specialty equipment issued a special permit under this Section is eligible for continuous travel if the specialty equipment does not exceed any of the following dimensions:

1. 11 feet in width;
2. 14 feet 6 inches in height;
3. 10 feet in length of front overhang;
4. 10 feet in length of rear overhang;
5. 120 feet in overall length; or
6. 250,000 pounds.
B.C. An applicant for a class B A - Crane oversize or overweight special permit under this Section shall submit to the Department, with all appropriate fees, an application form provided by the Department that includes all of the following information:
7. Specific dimensions of the vehicle and load combination, including:
a. A detailed description;
b. A detailed drawing that illustrates all of the following:
i. Axle spacing;
ii. Axle weight;
iii. Axle width;
iv. Tires per axle;
v. Tire width as designated by the manufacturer;
vi. Maximum width to the outside of the axles, excluding any load-induced tire bulge; and
vii. Load weight;
c. A detailed listing of all equipment to be included, such as counterweights, outriggers, boom position, position of boom dolly, etc.; and
d. A table of loads supplied by the manufacturer listing component and total weights;
8. Proof of gross weight:
a. For an initial application, a public weighmaster's certificate of weight and measure issued at a certified public scale once the vehicle is equipped and set for highway travel; or
b. For a renewal application, a certification by the applicant that no dimension has changed and the vehicle does not exceed the originally certified dimensions or weights;
9. Proof of valid registration that complies with the requirements of A.R.S. § 28-2153;
10. Proof of a valid IFTA license that complies with the requirements of A.R.S. § 28-5742 if applicable; and
11. Documentation of any applicable encroachment permit obtained under 17 A.A.C. 3, Article 5, if the applicant must temporarily move any state-owned highway feature as part of a planned transport.
C.D. Conformance to The permittee and driver are responsible for ensuring that the dimensions and weights of a special permitted vehicle remain in compliance with the dimensions and weights certified by the permittee to the Department on application for the permit, and that all permit restrictions and vehicle certification is the sole respensibility of the applicant indicated by the Department on the special permit are followed. Violation of the anntal terms of a permit in size, weight, length, height, ehanging the boom position, dolly position, or trailer position, or any other restriction stated indicated on the permit shall render the permit invalid and no permit fee or portion thereof will be refunded. Annwal permits Special permits are non-transferable and non-refundable.
D.E. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412 , Table 4 , unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-206. Class E Oversize and Overweight Special Permits Permit - Reducible Multiple Trailer LCVs LCV

A. The Department shall issue a class E oversize or overweight special permit according to the types and restrictions listed under Table 2 for transporting reducible loads on the National Network using an LCV consisting of a truck, or truck tractor and semitrailer, and with one or more trailers trailing units.

1. A person who operates, and a person who causes to be operated, an oversize or overweight special permitted vehicle shall be jointly responsible for meeting all permit requirements; and
2. A person shall not operate any other trailer configuration or multiple trailer combination under the class E special permit, unless authorized by the Department and specifically indicated on the permit.
B. The Department shall issue a class E oversize or overweight special permit for an LCV only at the following state ports of entry:
3. Page,
4. St. George, or
5. Teec Nos Pos.
C. An applicant for a class E oversize or overweight special permit shall submit to the Department, with all appropriate fees, an application form provided by the Department that includes all of the following information:
6. Specific dimensions of the vehicle and load combination;
7. Proof of valid registration that complies with the requirements of A.R.S. § 28-2153;
8. Proof of a valid IFTA license that complies with the requirements of A.R.S. § 28-5742, if applicable; and
9. Other information as needed by the Department to issue an appropriate permit, which includes:
a. Company name;
b. Company or terminal address;
c. Company USDOT \#;
d. Company mailing address;
e. Company contact name, address, telephone number, and fax number or email address;
f. Company representative's name and title; and
g. Specific routes requested.
D. A person who operates, and a person who causes to be operated, an oversize or overweight special permitted vehicle shall be jointly responsible for meeting all permit requirements.
D.E. The eperator permittee or driver of a class E special permitted LCV vehicle and load combination shall comply with the federal bridge formula axle group weight limitations provided under A.R.S. § 28-1100(A)(4) and not exceed the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411 or any other applicable state highway restriction, condition, or allowance State Highway System restrictions, conditions, or allowances provided by the Department under R17-6-412, Table 4.
F. A permittee or driver shall not operate any other trailer configuration or multiple trailer combination under the class E special permit, unless authorized by the Department and specifically indicated on the permit.
Table 2. Class E LCV Special Permit and Issuance Criteria

(Reducible vehicle and load combinations authorized under: 23 CFR 658.13; 23 CFR 658, App. C; and A.R.S. § 28-1103)

| Route | Locations Authorized for LCV Travel (A.R.S. § 28-1103 and 23 CFR 658, App. C) |  |
| :---: | :---: | :---: |
| I-15 | MP 0.00 (Nevada State Line) to MP 29.40 (Utah State Line) |  |
| State 98 | MP 294.67 (Junction US 89) to MP 314.67 |  |
| State 389 | MP 0.00 (Utah State Line) to MP 32.60 (Junction US 89A) |  |
| US 89 | MP 536.99 to MP 556.99 (Utah State Line) |  |
| US 89A | MP 579.30 (Junction SR 67) to MP 613.03 (Utah State Line) |  |
| US 160 | MP 393.57 (Junction US 163 at Kayenta) to MP 470.00 (New Mexico State Line) |  |
| US 163 | MP 393.52 (Junction US 160 at Kayenta) to MP 416.71 (Utah State Line) |  |
| Gross Vehicle Weight of LCV Vehicle and Load Combination |  | Permit Duration and Fee (A.R.S. § 28-1105) |
| 80,001 lbs through 111,000 $\underline{123,500} \mathrm{lbs}$ |  | Single or 30-Day - \$75 |
| 80,001 lbs through $141,000 \underline{123,500} \mathrm{lbs}$ |  | Annual - \$360 |
| $121,000 \mathrm{lbs}$ for 9 axles; or $123,500 \mathrm{lbs}$ for 10 axles |  | Annual - \$360 |
| 411,004 $123,501 \mathrm{lbs}$ through 129,000 lbs* |  | Single or 30-Day - \$75 |
| 111,001 $123,501 \mathrm{lbs}$ through 129,000 lbs* |  | Annual - \$600 |
| *Triple LCVs shall not exceed $123,500 \mathrm{lbs}$ except on I-15. |  |  |
| Maximum Length <br> The overall length of the cargo carrying unit cargo-carrying units of the vehicle a combination of vehicles shall not exceed $95 \underline{98}$ feet. |  |  |
| Limits and Restrictions <br> LCV operation is subject to federal bridge formula B limits and restricted to the right most traffic lane. <br> Operation may be limited by the Department and restricted or prohibited during periods when traffic, weather, or other safety considerations make such operation unsafe or inadvisable. $\text { *A triple LCV shall not exceed } 123,500 \mathrm{lbs} \text { except on I-15. }$ |  |  |

## R17-6-207. Repealed Suspension of Length Restrictions and Weight Limitations on State Routes and Highways; Healthy Forest

A. The Department, after conducting appropriate engineering and traffic review and analysis, may grant temporary relief from any existing length or weight restriction placed on a highway, or otherwise authorize reasonable access to any state or federal highway or route maintained by and under the jurisdiction of the Department by issuance of a special permit as provided under A.R.S. §§ 28-1103 and 28-1104.
B. An applicant for a special permit, issued by the Department as prescribed under subsection (A), shall apply to the Department using the application procedure provided under R17-6-103.
C. A special permit issued by the Department under subsection (A) subjects the permittee to all terms and conditions indicated on the special permit, including the period of time for which the special permit is valid, and may be renewed.
D. To protect life, property, and environmental concerns the Department may issue a special permit under subsection (A) for the operation of an overweight vehicle or vehicle and load combination transporting timber or natural
forest products, if the vehicle or vehicle and load combination is within the class A maximum limits prescribed under R17-6-201, and:

1. Configured using one or two tridem axle groups appropriately spaced to meet any axle group weight limitations required by the Department after completing a bridge analysis on all affected routes;
2. Traveling on an authorized highway or roadway, the maintenance of which is under the jurisdiction of the Department;
3. Operating in the furtherance of an ongoing cooperative effort between the U.S. Forest Service, the Arizona Department of Forestry and Fire Management, county officials, or an Arizona city or town to mitigate the effects of wildfires, correct damages, or improve and otherwise manage forest health by moving or removing natural forest products or biomass;
4. Working to reduce unnecessary fuel loads to safeguard the health, safety, and welfare of visitors to the National Forests and any residents of the surrounding communities by significantly reducing any future possibility of fueling a devastating forest fire; and
5. Complying with all route-specific restrictions, requirements, conditions, and allowances provided under R17-6-412, Table 4.

## R17-6-208. Class G Overwidth Special Permits - Specified Vehicle or Combination with Reducible Load Over Legal Width Repealed

A. The Department shall isstue an annmal, 30 -day, or single trip class $G$ overwidth special permit according to the following criteria for a specified vehicle, or vehicle combination, with a reducible load that exceeds only the width threshold provided under R17-6-102, Table 1, but does not exceed the following maximum limit:

| Vehicle or load description | A specified reducible load that exceeds only the legal width threshold provided under R17-6 102, Table 1, but does not exceed 10 feet in width |  |
| :---: | :---: | :---: |
| Permit option | Single trip: 96-hour maximum |  |
|  | Multiple trip: 30-day maximum |  |
|  | Multiple trip: one year |  |
| $\begin{aligned} & \text { Fee (A.R.S. § } 28- \\ & 1105 \text { ) } \end{aligned}$ | Single trip | \$15 |
|  | Multiple trip, 30-day | \$30 |
|  | Multiple trip, one year | \$360 |

B. An applicant for a class G overwidth special permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103.
C. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-209. Class H Overwidth A - Watercraft Special Permit - Specified Specific Vehicle and Overwidth Watercraft Load Combination

A. The Department shall issue an annual class Hoverwidth A - Watercraft special permit according to the following criteria for multiple trips of a specified specific vehicle and overwidth watercraft load combination that exceeds the width threshold established under A.R.S. § 28-1093 and R17-6-102, Table 1:

| Vehicle or load <br> description | Applicable only to a specified watercraft load A specific vehicle combination <br> transporting an overwidth watercraft load that is currently registered with the Arizona <br> Game \& Fish Department or the U.S. Coast Guard (as applicable), that is no wider more <br> than 10 feet in width, and is within all other threshold dimensions provided under R17- <br> $6-102$, Table 1 |
| :--- | :--- |
| Permit option | Multiple trip: one year |
| Fee (A.R.S. § 28- <br> $1103)$ | $\$ 45$ |

B. An applicant for an annual class $H$ overwidth watereraft A - Watercraft special permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103.
C. In addition to the application procedure provided under R17-6-103, an applicant for an annual class Hoverwidth watereraft A - Watercraft special permit shall submit to the Department proof of a valid watercraft registration or assigned watercraft registration number issued by the Arizona Game and Fish Department or U.S. Coast Guard.
D. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-413. R17-6-210. Page-Lake Powell Area Houseboat Transport Provisions

A. A permit applicant shall use the procedures under this Section to apply for an extended approval class C special permit to transport a houseboat of the dimensions specified under subsection (C) on a highway listed under Table 5.
B. A permit applicant shall apply for a permit under this Section at the following Department field office Arizona Port of Entry location:

Page Port of Entry
US 89 MP 551
P.O. Box 1807

Page, AZ 86040
Telephone: (928) 645-3269
Fax: (928) 645-9360
C. An extended approval class C special permitted vehicle with at least one front and one rear escort vehicle may operate on a highway listed under Table 5 during daylight hours as provided under R17-6-401, including any weekday, weekend, or holiday, if it does not exceed dimensions as follows:

1. 16 feet 6 inches in width;
2. 25 feet in height;
3. 120 feet in length;
4. 150,000 pounds; or
5. Axle weight limits listed in Tables 3.01 through 3.09.
D. An extended approval class $C$ special permitted vehicle and load that exceeds 17 feet in height shall have a front escort with a height pole.
E. For an extended approval class $C$ special permitted vehicle and load that exceeds 14 feet in width, a permittee or driver shall ensure an appropriate level of traffic control at the Glen Canyon Bridge on US 89 by closing access to the bridge at each end and at the visitor center driveway.
F. If a permit applicant seeks to transport outside the requirements of this Section, the permit applicant shall apply for a class $C$ special permit according to the procedures provided under R17-6-204 R17-6-211.

Table 5. Page-Lake Powell Area Highways

| Route | Location <br> (MP = Milepost) |
| :--- | :--- |
| State Route 98 | MP 299.50 (Junction BIA 22, Antelope Canyon); to MP 294.67 (End of route at Junction US 89) |
| U.S. Highway 89 | MP 546.19 (Junction SR 98); to MP 556.99 (Utah State Line) |

## R17-6-211. Western Regional Permit Repealed

A. The Department shall isste a western regional permit for transport of a specified vehicle, combination of vehicles, or vehicle and load combination meeting specific non-reducible size and weight criteria established under the Western Regional Agreement for transport in Arizona and any other jurisdiction that is a party to the "Western Regional Agreement for the Issuance of Permits for Overweight and/or Oversize Vehicles and/or Loads Involved in Interstate Travel." The western regional permit eliminates the need to obtain a separate permit for each jurisdiction.
B. An applicant is eligible for the western regional permit provided under subsection (A), if the applicant's vehicle, combination of vehicles, or vehicle and load combination meets all of the following criteria:

1. Non reducible;
2. Specifically deseribed;
3. Width is 14 feet or less;
4. Height is 14 feet or less;
5. Length is 110 feet or less;
6. Overall gross weight is 160,000 pounds or less;
7. 600 pounds per inch of tire width;
8. A minimum of five axles; and
9. The weights of any group of axles are determined using the lesser of the vehicle weights provided by the tables in the Western Regional Manual or the following:
a. 21,500 pounds per single axle;
b. 43,000 pounds per tandem axle group; or
e. 53,000 pounds per tridem axle group (wheel base is more than eight feet but not more than 13 feet).
C. An applicant with a vehicle, combination of vehicles, or vehicle and load combination meeting all eligibility eriteria provided under subsection (B), may apply for a western regional permit by completing, and submitting to the Department, a western regional permit application along with:
10. Proof of valid registration in compliance with A.R.S. § 28-2153;
11. Proof of a valid IFTA license in compliance with A.R.S. \& 28-5742, if applicable; and
12. All applicable fees calculated as provided under the fee schedules located in the Western Regional Manual maintained at the Arizona Central Commercial Permits Office or Ports of Entry.
D. The Department shall issue, no more than five days before its effective date, a western regional permit valid for a period of five working days.
E. The Department, at the request of a permit holder, may extend the western regional permit's period of validity for up to five days, if completion of the trip is precluded by weather, road conditions, or mechanical failure. An extension authorized by the Department under this Section shall be approved:
13. By signature of an awthorized ECD agent,
14. By telephone in an emergency situation, or
15. By authorization of the Arizona Central Commercial Permits office.

R17-6-204-R17-6-211. Class C Oversize and Overweight Special Permits - Specified Specific Non-reducible Vehicle, Load, or Combination Over Class A Limits
A. The Department shall issue a single trip class C oversize, overweight, or oversize and overweight special permit according to the following criteria for a specified specific non-reducible vehicle, combination of vehicles, or vehicle and load combination that exceeds a dimension 250,000 pounds, a maximum permitted weight computation for overweight axle group weight distribution as provided under R17-6-411, an oversize or overweight special permit limitation provided under R17-6-201 or as required under R17-6-307(B) and (C) this Article, or a highway-specific restriction, requirement, condition, or allowance provided under R17-6-412, Table 4, according to the following criteria:

| Vehicle or load description | A non-reducible vehicle or load that exceeds the dimensions and weights of all other permit classes or when class $C$ operation is proposed on a route further restricted under R17-6-412, Table 4 |  |
| :---: | :---: | :---: |
| Permit option - requires preapproval by the Class $C$ <br> Maintenance Permit Services <br> Unit | Single trip only | Load shall be specifically described by the applicant as provided under subsection (C) of this Section and A.R.S. § 28-1104 |
| Standard permit fees (A.R.S. § 28-1105) | Oversize only <br> Overweight only <br> Oversize and overweight | $\begin{aligned} & \$ 15^{*} \\ & \$ 75^{*} \\ & \$ 75^{*} \end{aligned}$ |
| *In addition to the standard permit fees above, the Department shall collect the following class C review and analysis fee(s) as applicable to the applicant's proposed vehicle and load configuration: |  |  |
| Class C review and analysis fee (A.R.S. § 28-1103) | Height or width 18 feet or less | \$15 |
|  | Height or width over 18 feet | \$25 |
| Engineering analysis <br> (A.R.S. § 28-1103) | Prepared by non-ADOT engineer, and reviewed by ADOT engineer | $\$ 75$ per 50 mile increment of proposed route |
|  | Prepared by ADOT engineer | $\$ 125$ per 50 mile increment of proposed route |

B. An applicant for a class C oversize or overweight special permit shall:

1. Complete a class $C$ special permit application form provided by the Department and available online at www.azdot.gov Request a class $C$ special permit using the appropriate application procedure provided under R17-6-103 and this Section;
2. Submit to the Class C Unit a completed class $C$ special permit application, ineluding which shall include all additional information required under subsection (C) and R17-6-104 and R17-6-108, as applicable, with all appropriate fees, to Class C Maintenance Permit Services as provided under R17-6103, R176-104, and R17-6 108, as applicable;
3. Contact all applicable utility and cable companies to verify adequate overhead cable and utility line clearances along the proposed route as required under R17-6-308;
4. Obtain an encroachment permit in advance of the proposed transport as provided under 17 A.A.C. 3, Article 5, if constructing a fixed or temporary improvement within a state highway right-of-way, or for any activity requiring the temporary use of, or intrusion upen, a state highway right-of-way, including a median moving, manipulating, or intruding upon any fixed or temporary highway feature located within the right-of-way on any route of the State Highway System, such as a guard rail, signage, or signal; and
5. Provide er and arrange for the use of additional traffic control devices appropriate for the proposed transport if the Department requires additional traffic control measures as a condition of permit approval. All additional traffic control devices shall conform to the manual and specifications adopted by the Department under pursuant to A.R.S. § 28-641.
C. A complete class C special permit application for transport of transporting an oversize, overweight, or oversize and overweight vehicle, combination of vehicles, or vehicle and load combination shall:
6. Include all information and fees required under R17-6-103(G) and this Section;
1.2. Indicate the starting and ending points origin address and destination address of the proposed route;
7. Document the specific overall dimensions of the vehicle with its specified load, to include:
a. Height,
b. Length, and
e. Width;
8. Diagram the vehicle and specified load illustrating all of the following information:
a. Axle spacing;
b. Axle weight;
c. Axle width;
d. Tires per axle;
e. Tire width as designated by the manufacturer;
f. Maximum width to the outside of the axles, excluding any load-induced tire bulge; and
g. Load weight.
9. Include a eomprehensive traffic control route survey and contingency plan, prepared as provided under R17-6-108, if required by the Department requires traffic control measures as a condition of permit approval;
10. Indicate the estimated time needed to change out a power unit or other special equipment if the Department, through detailed analysis and as a condition of permit approval, requires the use of an additional power unit
or other special equipment to enstre safe transport of the proposed load. The Department's decision to require an additional power unit or other special equipment shall be based on its consideration of the:
a. Estimated timing involved with clearing a route after a breakdown;
b. Expected weather conditions;
e. Proximity and availability of reserve resources;
d. Size and weight of the load;
e. Traffic dynamies of the proposed route; and
f. Width, grade, and condition of the roads;
6.5. Include proof of gross weight in the form of a public weighmaster's certificate of weight and measure issued at a certified public scale if required by the Department after twice denying an application for incorrect weights; and
11. Include proof of valid registration that complies with the requirements of A.R.S. § 28-2153;
12. Include proof of a valid IFTA license that complies with the requirements of A.R.S. § 28-5742, if applicable; and
9.6. Include any other applicable requirement as provided under R17-6-104.
D. An applicant for a class $C$ oversize or overweight special permit to transport a mobile home shall additionally submit to the Department all appropriate:
13. Serial numbers assigned to the mobile home; and
14. Evidence of payment of all applicable ad valorem taxes, as required under A.R.S. § 28-1104, in the form of a 504 tax clearance permit issued by the county in which the mobile home is currently located.
E.D. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated conditions and allowances.
F. The Department shall require a class $C$ special permit for an overweight vehicle or vehicle and load combination heavier than 250,000 pounds or that exceeds the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411.

## R17-6-212. Class C Overweight, or Oversize and Overweight, Special Permit - Tridem Axle Group Configurations

A. The Department may issue a single trip class C overweight, or oversize and overweight, special permit for tridem axle group configurations a specific non-reducible vehicle, combination of vehicles, or vehicle and load combination that exceeds the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411, if the vehicle, combination of vehicles, or vehicle and load combination is equipped with at least one tridem axle group configured as provided under subsection ( $C$ ) to achieve a maximum permitted weight of 60,000 pounds per tridem axle group subject to the specific routes and restrictions provided under Table $6 \underline{4}$ and the maximum permitted weight computations provided under Table 7 .
B. An applicant for a single trip class C overweight, or oversize and overweight, special permit for tridem axle group configurations shall apply to the Department using the application procedure provided under R17-6-103, and include the $\$ 75$ standard permit fee with the $\$ 15$ class $C$ review and analysis fee as provided under R17-6-204 R17-6-211.
C. The single trip Class class $C$ overweight, or oversize and overweight, special permit for tridem axle group configurations is restricted to available only for a vehicle, combination of vehicles, or vehicle and load combination equipped with at least one tridem axle group configured in conformance with the following criteria:

1. A minimum of four tires per tridem axle group, or two 14 -inch wide tires per axle in each tridem axle group;
2. A minimum distance of eight feet out-to-out axle width for each tridem axle group;
3. A minimum of eight feet distance of nine feet, and a maximum distance of 14 feet, between the center of the first axle and the center of the third axle of each tridem axle group, except as provided under subsection (D);
4. A maximum of two tridem axle groups, or a maximum of one tandem axle group with one tridem axle group, spaced at least 25 feet between the center of the last axle of the front group and the center of the first axle of the rear group, with no other axles in between the two groups A minimum distance of 13 feet 7 inches between the center of the front steering axle and the center of the first axle of any consecutive tridem or tandem axle group; and
5. A maximum distance of 12 feet between the center of the first axle and the center of the third axle of each tridem group A minimum distance of 14 feet 1 inch between any two consecutive tridem or tandem axle groups, measured from the center of the last axle of the front group to the center of the first axle of the next group, with no other axles between.
D. A tridem axle group may be used in combination with other non-tridem axle groups enly if the non-tridem axle groups do not exceed the maximum permitted weight computations for overweight axle group weight distribution provided under R17-6-411.
E. A permit applicant with a vehicle, combination of vehicles, or vehicle and load combination exceeding 14 feet in width, 16 feet in height, 120 feet in length, $140,000 \mathrm{lbs}$ overall gross vehicle weight, or any other dimension specified above shall continue to follow the Department's existing Class $C$ permit application procedures provided under R17-6-204.

Table 6. Class C Overweight, or Oversize and Overweight, Special Permit Routes and Restrictions for Tridem Axle Group Configurations Repealed

The single trip class $C$ overweight, or oversize and overweight, special permit for tridem axle group configurations may be issued by the Department for travel on State Route 68, U.S. Route 93 from milepost 67 (junction with State Route 68) to milepost 70 (junction with I-40), and Interstates 10 , 19 , and 40 subject to the following conditions:

| Route \# | Milepest \# | STR \# | Structure Name | Restrictions |
| :--- | :--- | :--- | :--- | :--- |
| H10 EB | 250.66 | 394 | Rillito Creek Bridge | Travel in the right most lane |
| H10 EB | 267.65 | 1044 | Earp Wash Tributary Bridge | Travel in the right most lane |
| I-10 EB | 277.46 | 463 | Wash Bridge | Travel in the right most lane |
| H10 EB | 312.77 | 574 | Sibyl Road TI OP | Exit and bypass |
| H10 EB | 355.58 | 429 | Monk Draw Bridge | Exit at 352 and merge at 355 |
| H10 WB | 249.49 | 390 | Canada Del Oro Bridge | Travel in the right most lane |
| I-10 WB | 267.65 | 1045 | Earp Wash Tributary Bridge | Travel in the right most lane |
| I10 WB | $Z 99.14$ | 73 | Cornfield Canyon Bridge | Travel in the right most lane |

| I-10 WB | 312.77 | 575 | Sibyl Road TI OP | Exit and bypass |
| :--- | :--- | :--- | :--- | :--- |

## Table 7. Maximum Permitted Weight Computations: Tridem Axle Group-Configurations Repealed

|  | Distance between the center of the first axle and the center of the third axle of a tridem group: |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $0 \times$ | $1 "$ | 2" | 3" | 4"' | 5" | 6" | $7{ }^{\prime \prime}$ | $8 "$ | 9" | 10" | 11" |
| $8{ }^{\prime}$ | 57,960 | 58,064 | 58,161 | 58,262 | 58,363 | 58,463 | 58,564 | 58,664 | 58,765 | 58,866 | 58,966 | 59,067 |
| 9 | 59,168 | 59,268 | 59,369 | 59,469 | 59,570 | 59,674 | 59,771 | 59,872 | 59,973 | 60,000 | 60,000 | 60,000 |
| 10' | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 |
| 41 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 | 60,000 |
| 12' | 60,000 |  |  |  |  |  |  |  |  |  |  |  |

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
( $\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Eight tires per axle or four 14 -inch wide tires. Value is the formula weight plus $15 \%$ up to a maximum 60,000 1bs.

## ARTICLE 3. SAFETY REQUIREMENTS

## R17-6-301. General Safety Requirements

In addition to the provisions of this Article, a permittee and a driver of an oversize or overweight vehicle permitted under this Chapter, or a person or entity exempt under R17-6-102(D), shall comply with all federal motor carrier safety regulations incorporated by the Department under 17 A.A.C. Chapter 5, Article 2, as applicable to a motor carrier operating in Arizona.

## R17-6-302. Warning Flag Requirements

A. Specifications. Each warning flag attached to an overwidth or overlength vehicle or load shall be cloth or plastic at least 18 inches square and red or fluorescent orange in color.
B. Display. A permittee or driver of an overwidth or overlength envelope or special permitted vehicle and load combination shall display warning flags applicable to the permittee's vehicle or vehicle and load configuration as indicated under Illustration 1.
Illustration 1. Warning Flag Configurations

## R17-6-303. Sign Requirements

A. A permittee or driver shall ensure that an oversize or overweight vehicle or load displays an "OVERSIZE LOAD" sign if the vehicle or load is nine feet or more in width.
B. A permittee shall or driver may display an "OVERSIZE LOAD" sign on any oversize or overweight envelope or special permitted vehicle or load not specified under subsection (A) if necessary to ensure maximum visibility for public safety.
C. An "OVERSIZE LOAD" sign shall meet construction specifications provided under Illustration 2 at a minimum.
D. A permittee or driver shall display required "OVERSIZE LOAD" signs that are:

1. Mounted to the front or roof of the power unit,
2. Mounted to the rear of the load or loaded vehicle,
3. Parallel with the road surface from side-to-side,
4. Readable from left to right, and
5. Clearly visible from the vehicle's front and rear of the loaded vehicle.
E. If a permittee or driver required under this Section to display an "OVERSIZE LOAD" sign is not transporting an oversize or overweight load, the permittee or driver shall ensure that each sign is not visible to traffic.

## Illustration 2. "OVERSIZE LOAD" Sign

## R17-6-304. Safety Lighting Device Requirements

A. A permittee or driver of an oversize or overweight vehicle or load shall:

1. Comply with all applicable lighting equipment requirements under A.R.S. Title 28, Chapter 3, Article 16, and 49 CFR 393 as incorporated by reference under A.A.C. R17-5-202; and
2. Operate with the lighting equipment illuminated as preseribed under A.R.S. \& \& $28-922$ and $28-935$ at the times specified under A.R.S. § 28-922.
B. A permittee or driver of a vehicle transporting a load that projects more than four inches beyond the overall width of the vehicle shall attach safety lighting during nighttime operation according to the requirements provided under Illustration 4, and R17-6-307, that most closely correspond to the permittee's or driver's vehicle and load configuration.
C. A permittee or driver of an oversize vehicle or load that projects more than three feet in front overhang, or more than four feet in front or rear overhang, shall attach safety lighting during nighttime operation according to the
requirements provided under Illustration 4, and R17-6-307, that most closely correspond to the permittee's or driver's vehicle and load configuration.

Illustration 4. Safety Lighting Configurations

## R17-6-305. Escort Vehicles

A. Service requirement.

1. A permittee transporting an oversize or overweight vehicle or load shall use all escort vehicles required by the Department as a condition of envelope or special permit issuance under this Chapter.
2. The Department shall determine whether one or more escort vehicles must accompany an oversize or overweight envelope or special permitted vehicle by considering the following in relation to the proposed transport and route:
a. Roadway dynamics, including surface condition, grade, width, and height limitations;
b. Overall dimensions of the vehicle and load;
c. Need for frequent stops;
d. Concern for public safety; and
e. Time of transport.
3. According to the criteria applicable under subsection $(A)(2)$, the Department shall require two or more oversize or overweight envelope or special permitted vehicles traveling together to be accompanied by at least one escort vehicle per load.
B. Vehicle, operator, and equipment requirements.
4. A vehicle qualifies as an escort vehicle if it:
a. Is a passenger car or two-axle truck operating as a single unit,
b. Is currently registered, and
c. Meets insurance requirements as provided by law.
5. An escort vehicle operator, except for a law enforcement escort, while in service under this Chapter shall:
a. Meet all requirements under A.R.S. § 28-1110, and maintain certification through a program that meets the escort vehicle operator training and certification standards of the Commercial Vehicle Safety Alliance or an equivalent program, whether in this state or another state, that meets the same objectives;
b. Carry in the escort vehicle the same emergency equipment required for a truck, truck tractor, or bus under A.R.S § 28-960 and 49 CFR 393.95, which shall include;
i. Fire extinguishers;
ii. Warning devices for stopped vehicles; and
iii. Emergency staff-mounted warning flags;
c. Display an "OVERSIZE LOAD" sign:
i. Constructed for escort vehicles as provided under R17-6-303, Illustration 2;
ii. Mounted above the vehicle's roofline and visible to approaching traffic from the front and rear;
iii. Accompanied by two flags, one mounted on each side of the oversize load sign; and
iv. Concealed when not in use; and
d. Ensure continuous communication by two-way radio:
i. Capable of transmitting and receiving a minimum of $1 / 2$ mile; and
ii. Compatible with the two-way radios used by the driver of the escorted vehicle, law enforcement escorts, and all other accompanying escort vehicles.

## C. Operation.

1. Lighting requirement. While in service, an escort vehicle operator shall maintain continuous illumination of headlights and overhead warning lights as prescribed under A.R.S. § 28-947.
2. Lead and follow distance. An escort vehicle operator shall maintain a lead or follow distance from an escorted vehicle that generally does not exceed 1,500 feet on an open state highway or 250 feet in an urban setting. When determining the appropriate lead or follow distance, an escort vehicle operator shall:
a. Consider traffic density, road conditions, road type, speed, and type of load;
b. Ensure constant radio communication with all escorts and the escorted vehicle; and
c. Maintain visual contact with the escorted vehicle at all times.
3. Stop provisions at an intersection with a traffic control signal.
a. When an oversize or overweight envelope or special permitted vehicle is required to stop, the lead-escort vehicle operator shall proceed through the intersection and stop safely off the roadway. The lead-escort vehicle operator shall resume an appropriate lead distance as soon as is safely possible.
b. When a following-escort vehicle is required to stop, the eperator driver of an the oversize or overweight envelope or special permitted vehicle shall proceed without stopping. The following-escort vehicle
operator shall resume an appropriate following distance behind the oversize or overweight envelope or special permitted vehicle as soon as is safely possible after clearing an when clear of the intersection.

## R17-6-306. Traffic Control Provisions

A. The Department may require additional traffic control by a uniformed certified law enforcement officer to ensure highway safety. The Department shall consider the criteria under R17-6-305(A) when determining the need for additional traffic control.
B. If the Department requires a law enforcement escort under R17-6-412, Table 4, or as necessary to promote public safety, the permittee or driver of the oversize or overweight envelope or special permitted vehicle shall:

1. Contact the Arizona Department of Public Safety at least 12 hours before transport to request the appropriate number of uniformed certified law enforcement escorts required for the permitted activity; and
2. Ensure continuous two-way radio communication during transport with all law enforcement and other escort vehicles required to accompany the permitted vehicle under R17-6-305 and R17-6-307.
C. If the Arizona Department of Public Safety is unable to provide the appropriate law enforcement escorts requested as provided under subsection (B), the permittee or driver of an oversize or overweight envelope or special permitted vehicle may use any uniformed certified law enforcement escorts if at least one officer is certified for enforcement of the Federal Motor Carrier Safety Regulations of the U.S. Department of Transportation's Federal Motor Carrier Safety Administration.

## R17-6-307. Projecting Load or Vehicle or Load

A. The Department shall require issue a class A special permit, as required under Section R17-6-201, for transporting a vehicle or load or vehicle that projects from either side of the vehicle:

1. Two feet or less, if the projecting portion of the vehicle or load or vehicle has a thickness of less than 12 inches; or
2. Three feet or less, if the projecting portion of the vehicle or load or vehicle has a thickness of 12 inches or more.
B. The Department shall require issue a class $C$ special permit, as required under Section R17-6-211, for transporting a vehicle or load that projects from either side of the vehicle:
3. More than two feet, if the height of the projecting portion of the vehicle or load has a thickness of less than 12 inches; or
4. More than three feet, if the height of the projecting portion of the vehicle or load has a thickness of 12 inches or more.
C. A Unless the Department requires additional escort vehicles under R17-6-306 or R17-6-412, Table 4, a permittee or driver of a projecting vehicle or load projecting excess overhang shall have escort vehicle accompaniment as follows:
5. A front eseort vehicle if the front load projection is longer than 20 feet, or
6. A rear eseort vehicle if rear projection is longer than 20 feet.
7. Over 20 feet in length of front overhang requires a front escort;
8. Over 20 feet in length of rear overhang requires a rear escort; and
9. Over 20 feet in length of overhang at both the front and rear of a vehicle requires a front and rear escort.
D. A permittee or driver of a projecting vehicle or load with more than a four foot front or rear overhang shall:
10. Attach warning flags to the vehicle or load as provided under R17-6-302 and Illustration 1, for daylight operation; or
11. Attach safety lighting to the load as provided under R17-6-304 and Illustration 4, for nighttime operation.
E. An integral component or components removed from a loaded primary object may be transported on the same vehicle bearing the primary object provided the component dees or components do not cause the hauling vehicle to exceed a size or weight permitted for the primary object.

## R17-6-308. Permittee or Driver Obligation to Notify Utility Companies of Overheight Transport

A permittee or driver shall notify a responsible utility company of possible disturbance or damage, as provided under A.R.S. § 40-360.43, if overhead utility lines extend across a proposed route and the permitted vehicle or load exceeds 16 feet in height or any route-specific height restriction provided under R17-6-412, Table 4.

## ARTICLE 4. TRANSPORT PROVISIONS

## R17-6-401. General Highway Operations

A. Except as provided under R17-6-205(B), and subject to R17-6-412, Table 4, a permittee or driver of an oversize, overweight, or oversize and overweight envelope or special permitted vehicle is eligible for continuous travel, if the envelope or special permitted vehicle does not exceed any of the following dimensions:

1. 10 feet in width;
2. 14 feet 6 inches in height;
3. 10 feet in length of front overhang;
4. 10 feet in length of rear overhang;
5. 120 feet in overall length; or
6. 250,000 pounds.
A.B. A permittee or driver of an oversize or overweight envelope or special permitted vehicle er vehicle and load combination exceeding a dimension prescribed under subsection (A) of this Section or R17-6-205(B) shall:
7. Operate no earlier than one-half hour before sunrise and no later than one-half hour after sunset, exact daily times as defined under R17-6-101, except as otherwise provided under this Article, or unless the Department otherwise:
a. Restricts operation on a highway, or
b. Grants permit-specific alternate hours of operation hours other than those listed under this subsection as a necessary condition of permit issuance to maintain highway safety; or
c. Grants route-specific allowances under R17-6-412, Table 4, for night and weekend transport under R17-6-402.
8. Operate in the rightmost lane of a multi-lane highway if indicated on the envelope or special permit, except to overtake and pass another vehicle; and
9. Maintain a minimum distance of 2,000 feet from any other oversize or overweight envelope or special permitted vehicle traveling on the same highway in the same direction except when passing.
C. A driver of an oversize or overweight vehicle or load shall not exceed the lower maximum speed determined by either of the following:
10. A speed limit printed on an issued permit, or
11. A highway-posted vehicle-specific speed limit.
D. The Department may order an alternative speed restriction to prevent:
12. Hazardous traffic conditions, or
13. Damages to a highway or highway feature.
B.E. Removal of highway signs, guardrails, or other assets from the a highway right-of-way is illegal under A.R.S. § 28-7053, and not authorized under by an oversize or overweight envelope or special permit issued by the Department under this Chapter and is illegal under A.R.S. § 28-7053. A separate encroachment permit issued by the Department under 17 A.A.C. 3, Article 5, is required enter the before entering any highway right-of-way for these perposes or for any reason purpose other than authorized public travel. The activities authorized while in the right-of-way shall be specifically outlined in the encroachment permit and completed under Department supervision. A permittee or driver shall follow all additional requirements and instructions as indicated on the
encroachment permit if the Department has authorized such activity to be conducted within a highway right-ofway.
C.F. Replacement of any state-owned highway feature moved under an encroachment permit, issued pursuant to 17 A.A.C. 3, Article 5, as a result of the transport of an oversize or overweight vehicle along a traveled route, shall be detailed on the encroachment permit and completed under Department supervision.
B.G. A permittee and or driver of an oversize or overweight envelope or special permitted vehicle shall, prior to commencing transport on any trip, shall access and review the most current information on readway highwayspecific conditions, closures, and restrictions using one of the following methods:, and other requirements applicable to R17-6-412, Table 4, as provided in real-time on the Department's electronic permitting website.
14. Phone inquiry -dial 511, or
15. Online inquiry - visit www.az511.gov.
H. A permittee or driver of an oversize or overweight envelope or special permitted vehicle may additionally receive real-time alerts and critical information on highway-specific conditions, closures, restrictions, and other requirements temporarily or permanently affecting travel on a route listed under R17-6-412, Table 4, by accessing the Department's:
16. Twitter feed, @ ArizonaDOT;
17. ADOTAlerts mobile app, available free at ADOTAlerts.com, which can provide critical information directly to all app users in an affected area where and when a freeway closure or other major traffic event occurs, and where possible, may provide advance warning of an alternate route designation;
18. Arizona Traveler Information System at AZ511.gov; or
19. Automated phone service by dialing 511.

## R17-6-402. Speed Restriction Repealed

A. A driver of an oversize or overweight vehicle or load shall not exceed the lower maximum speed determined by either of the following:

1. A speed limit printed on an issued permit, or
2. A highway posted vehicle-specific speed limit.
B. The Department may order an alternative speed restriction to prevent:
3. Hazardous traffic conditions, or
4. Damages to a highway or highway feature.

## R17-6-408.R17-6-402. Continuous Travel Night and Weekend Transport

A. Except as provided under R17-6-404, R17-6-210, R17-6-409, and subject to R17-6-412, Table 4, a permittee or driver of an oversize ${ }_{2}$ or overweight, or oversize and overweight envelope or special permitted vehicle that is eligible ineligible for continuous travel under R17-6-205 or R17-6-401 due to excess width or height, may transport at night or on a weekend as provided under this Section, if the envelope or special permitted vehicle or vehicle and load combination does not exceed any of the following dimensions is:

1. Over 10 to 16 feet in width;
2. Over 14 feet 6 inches to 16 feet in height;
3. 3 feet in length of front overhang;

## 4. 10 feet in length of rear overhang;

5.3. 120 feet or less in overall length; or
6.4. 250,000 pounds or less in overall weight.
B. Unless otherwise restricted under R17-6-404, R17-6-405, R17-6-406, or R17-6-412, Table 4, a permittee or driver ef a self propelled mobile crane, drilling rig, or similar specialty equipment issued a special permit under R17-6 205, is eligible for contintous travel if the vehicle does not exceed any of the following dimensions:

1. 41 feet in width;
2. 14 feet in height;
3. 3 feet in length of front overhang;
4. 10 feet in length of rear overhang;
5. 120 feet in overall length; or
6. 250,000 pounds.
B. Subject to all other time of movement restrictions provided under this Article, and unless further restricted under this Chapter, a permittee or driver of an envelope or special permitted vehicle described under subsection (A) may transport at night or on a Saturday or Sunday as follows:
7. On any non-holiday night or weekend;
8. Beginning at 3:00 a.m. until no later than one-half hour after sunset, exact daily times as defined under R17-6-101;
9. Using select routes authorized by the Department under R17-6-412, Table 4, for night and weekend transport, unless the Department:
a. Restricts operation on a highway; or
b. Grants alternate, permit-specific, hours of operation other than those listed under this subsection as a necessary condition for maintaining highway safety;
10. Operating in the rightmost lane of a multi-lane highway if indicated on the envelope or special permit, except to overtake and pass another vehicle; and
11. Maintaining a minimum distance of 2,000 feet from any other oversize or overweight vehicle, combination of vehicles, or vehicle and load combination traveling on the same highway in the same direction except when passing.
C. A permittee or driver of a vehicle or load transporting under this Section shall additionally ensure appropriate escort vehicle accompaniment and comply with all other applicable restrictions and escort vehicle requirements provided under R17-6-305 and R17-6-412, Table 4 Articles 3 and 4 of this Chapter.
D. Unless the Department requires additional escort vehicles under R17-6-306, R17-6-307, or R17-6-412, Table 4, a permittee or driver of an envelope or special permitted vehicle transporting under this Section shall ensure appropriate escort vehicle accompaniment from 3:00 a.m. until one-half hour before sunrise as follows:
12. Over 11 to 14 feet in width requires a rear escort;
13. Over 14 to 16 feet in width requires a front and rear escort; and
14. Over 15 feet in height requires a front escort with a height pole.
E. The Department may approve night and weekend transport under a class C special permit for a vehicle, combination of vehicles, or a vehicle and load combination exceeding a dimension provided under this Section, or R17-6-205, upon determining the exception to be in the best interest of public safety.

## R17-6-406.R17-6-403. Holiday Transport Restriction

A. Except as provided under R17-6-414 subsection (D) of this Section, R17-6-210, R17-6-409, or while operating under the emergency operation provisions in R17-6-112, this Section applies to a permittee or driver of an oversize, or overweight, or oversize and overweight envelope or special permitted vehicle or load with a dimension of more than is subject to the holiday transport restrictions provided under this Section if the vehicle or load exceeds any of the following dimensions:

1. 10 feet in width, $(11$ feet in width for specialty equipment under R17-6-205(B));
2. 14 feet 6 inches in height;;
3. $3 \underline{10}$ feet in length of front overhang;;
4. 10 feet in length of rear overhang $;$; or
5. 120 feet in overall length-; or
6. 250,000 pounds.
B. A permittee or driver shall not tramsport of an oversize, or overweight, or oversize and overweight envelope or special permitted vehicle or load described under subsection (A) in Arizona shall not transport on the following holidays:
7. New Year's Day,
8. Memorial Day,
9. Independence Day,
10. Labor Day,
11. Thanksgiving Day, or
12. Christmas Day.
C. A The transport restriction en transport for a holiday listed under subsection (B) shall also ineludes include days before and after a the holiday as follows:
13. When a holiday occurs on a Friday, transport shall stop at 12 noon on the preceding Thursday and may resume the following Monday at one-half hour before sunrise, or Monday at 3:00 a.m. if eligible for night transport is allowed under R17-6-409 R17-6-402;
14. When a holiday occurs on a Saturday, transport shall stop at 12 noon on the preceding Thursday and may resume the following Monday at one-half hour before sunrise, or Monday at 3:00 a.m. if eligible for night transport is allowed under R17-6-409 R17-6-402;
15. When a holiday occurs on a Sunday, transport shall stop at 12 noon on the preceding Friday and may resume the following Tuesday at one-half hour before sunrise, or Tuesday at 3:00 a.m. if eligible for night transport is allowed under R17-6-409 R17-6-402;
16. When a holiday occurs on a Monday, transport shall stop at 12 noon on the preceding Friday and may resume the following Tuesday at one-half hour before sunrise, or Tuesday at 3:00 a.m. if eligible for night transport is allowed under R17-6-409 R17-6-402; and
17. When a holiday occurs on a Tuesday, Wednesday, or Thursday, transport shall stop at 12 noon on the day before the holiday and may resume the day after the holiday at one-half hour before sunrise, or the day after the holiday at 3:00 a.m. if eligible for night transport is allowed under R17-6-409 R17-6-402.
D. The Department may approve holiday transport under a class C special permit for a vehicle, combination of vehicles, or a vehicle and load combination exceeding a dimension provided under subsection (A), upon determining the exception to be in the best interest of public safety.

## R17-6-404. Metropolitan Curfew Transport Restriction

A. Unless Except as provided under subsection (B) of this Section, and unless otherwise provided under this Article, this Section shall apply as provided under subsections (B) and (C) to a an envelope or special permitted vehicle or load that exceeds 10 feet in width, but does is subject to the metropolitan curfew provided under subsections (C) and (D) and shall not exceed any of the following dimensions during curfew hours:

1. 16 feet in height, or less if further restricted under R17-6-412, Table 4;
2. $\boldsymbol{3} \underline{10}$ feet in length of front overhang;
3. 10 feet in length of rear overhang;
4. 120 feet in overall length; or
5. 250,000 pounds.
B. Unless otherwise provided under this Article, a self-propelled mobile crane, drilling rig, or similar specialty equipment exceeding eleven feet in width is subject to the metropolitan curfew provided under subsections (C) and (D) and shall not exceed any of the following dimensions during curfew hours:
6. 14 feet 6 inches in height;
7. 10 feet in length of front overhang;
8. 10 feet in length of rear overhang;
9. 120 feet in overall length; or
10. 250,000 pounds.
B.C. A permittee or driver of a an envelope or special permitted vehicle or load described under subsection (A) or (B)
may transport on a Monday through Friday during curfew hours subject to the following routes and restrictions is subject to width restrictions on metropolitan routes if transporting during curfew hours, as provided below:

| Metropolitan Phoenix - Curfew Routes and Restrictions |  |  |
| :---: | :---: | :---: |
| Route | Restriction Location (MP = Milepost) | Width Restrictions Monday through Friday During the Curfew Hours of: 7:00 a.m. to 9:00 a.m.; and 4:00 p.m. to 6:00 p.m. |
| SR 24 | MP 0.00 (Junction SR 202 Loop) to MP 1.00 (Ellsworth Road) | Over 10'-12' = Requires rear escort Over 12' $-16^{\prime}=$ No transport |
| SR 202 <br> Loop | MP 9.80 (Junction SR 101 Loop) to MP 57.24 (Junction I10) | Over $10^{\prime}-12^{\prime}=$ Requires rear escort Over 12' - 16' = No transport |
| $\frac{\text { SR } 202}{\text { Loop }}$ | MP 55.50 (Junction I-10, Santan TI) to MP 77.80 (Junction I-10, West Phoenix TI) | Over $10^{\prime}-12^{\prime}=$ Requires rear escort Over 12' $-16^{\prime}=$ No transport |
| SR 101 <br> Loop | MP 1.21 (Junction I-10, near 99th Avenue) to MP 61.33 (Junction SR 202 Loop) | Over $10^{\prime}-12^{\prime}=$ Requires rear escort Over $12^{\prime}-16^{\prime}=$ No transport |
| Metropolitan Tucson - Curfew Routes and Restrictions |  |  |

SR 989

## R17-6-405. Weekend Transport Allowance Repealed

A. Except as provided under R17-6-414, a permittee or driver of an oversize or overweight special permitted vehicle, ineligible for contintous travel under R17-6-408 due to excess width or height, may tramsport on a weekend as provided under this Section if the vehicle or vehicle and load combination is:

1. Over 10 feet to 16 feet in width, or
2. Over 14 feet 6 inches to 16 feet in height, and
3. Otherwise within the limits provided under R17-6-408.
B. A permittee or driver of a vehicle or load described under subsection (A) may transport on a Saturday or Sunday as follows:
4. On any non holiday weekend;
5. From 3:00 a.m. until 12 neon;
6. On select routes atthorized by the Department for weekend transpert under R17-6-412, Table 4; and
7. With applicable escort accompaniment as provided under subsection (D).
C. A permittee or driver of a vehicle or load transporting under this Section shall additionally comply with all applicable restrictions and escort vehicle requirements provided under R17-6-412, Table 4.
D. Unless the Department requires additional escort vehicles under R17-6-412, Table 4, a permittee or driver of a vehicle or load transporting under this Section shall have escort vehicle accompaniment as follows:
8. Over 11 to 14 feet in width requires a rear escort,
9. Over 14 to 16 feet in width requires a front and rear escort, and
10. Over 15 feet in height requires a front escort with a height pole.
E. The Department may approve weekend transport under a class C special permit for a vehicle and load combination exceeding the dimensions provided under subsection (A) upon determining the exception to be in the best interest of the public.

## R17-6-403.R17-6-405. Weather Restrictions; Hazardous Conditions

A. Responsibility. A driver of an oversize or overweight vehicle, or vehicle and load combination, shall:

1. Use the criteria provided under subsection (B) to identify unsafe roadway conditions and discontinue transport until safe to continue, and
2. Comply with all official agency weather-related travel advisories prohibiting oversize or overweight transport.
B. Determining conditions. A driver of an oversize or overweight vehicle, or vehicle and load combination, shall not transport under the following hazardous conditions:

| Hazardous Conditions: | Possible Causes May Include: |
| :---: | :---: |
| Driver visibility range becomes less than 500 feet | - Blowing dust <br> - Falling snow <br> - Fog <br> - Heavy rain |
| Road surface condition reduces normal traction | - Snow <br> - Ice <br> - Flooding |
| A load destabilizing condition endangers road surface or traffic | - High winds <br> - Falling objects |

## R17-6-406. Renumbered

## R17-6-407. Route-specific and Permit-specific Transport Restrictions

A permittee or driver of a class $C$ oversize or overweight special permitted vehicle or load shall not transport on a Friday from 12 noon on Friday until 3:00 a.m. on Monday if transporting on a route designated identified by the Department under R17-6-412, Table 4, as being subject to route-specific or permit-specific transport restrictions this Section.

## R17-6-408. Renumbered

## R17-6-409. Night Transport Restriction Repealed

A. Unless futher restricted under this Article, this Section applies to a permittee or driver of an oversize or overweight vehicle, or vehicle and load combination, within the following dimensions:

1. 16 feet or less in width;
2. 16 feet or less in height;
3. 3 feet or less in length of front overhang;
4. 10 feet or less in length of rear overhang;
5. 120 feet or less in overall length; or
6. 250,000 pounds or less in overall weight.
B. A permittee or driver of a vehicle or load described under subsection (A) may transport at night as follows:
7. Beginning at 3:00 a.m. except on any day, route, or time further restricted under R17-6-404 through R17-6406;
8. On select routes authorized by the Department for night transport under R17-6-412, Table 4; and
9. With applicable escort aceompaniment as provided under subsection.(D).
C. A permittee or driver of a vehicle or load transporting under this Section shall additionally comply with all applicable restrictions and escort vehicle requirements provided under R17-6-412, Table 4.
D. Unless the Department requires additional escort vehicles under R17-6-412, Table 4, a permittee of driver of a vehicle or load tramsporting under this Section shall have escort vehicle accompaniment until sumrise as follows:
10. Over 11 to 14 feet in width requires a rear escort,
11. Over 14 to 16 feet in width requires a front and rear escort, and
12. Over 15 feet in height requires a front escort with a height pole.
E. The Department may approve night transport under a class $C$ special permit for a vehicle, combination of vehicles, or a vehicle and load combination exceeding the dimensions provided under subsection (A) upon determining the exception to be in the best interest of public safety.

## R17-6-414. R17-6-409. Lake-specific Weekend and Holiday Transport Exception

A permittee or driver that transports a personal watercraft load of no more than 12 feet in width under a class A special permit may operate from one-half hour before sunrise to one-half hour after sunset on a weekend or holiday on a state highway within 10 miles of an area constructed and maintained for the purpose of launching and retrieving watercraft for the following Arizona lakes:

1. Alamo,
2. Havasu,
3. Mead,
4. Mohave,
5. Powell, and
6. Saguaro.

## R17-6-410. Special Mobile Home Towing Restriction

A. A vehicle towing a mobile home shall have a factory rating that corresponds with the following criteria:

| Load measurement criteria | Towing vehicle factory rating |
| :--- | :--- |
| 10 feet or less in width and 50 feet or less in length, <br> including hitch | $11 / 2$ tons |
| More than 10 feet in width or more than 50 feet in <br> length, or both | Two tons; four tires per drive axle and minimum 99 inch <br> wheel base |

B. A mobile home transporter shall cover the open side of a mobile home module with plastic sheeting no thinner than 1.5 mil plus a rigid grillwork backing.

## R17-6-411. Maximum Permitted Weights

A. Except as provided under R17-6-211 and R17-6-212, the Department shall use the formulas and computations provided under Tables 3.01 through 3.09 , and Illustration 3, to determine the maximum weights allowed on any combination of axles within the distance between the front and rear axle of a given axle group, up to a maximum of 18 feet, when issuing an oversize or overweight special permit for a non-reducible vehicle or load under this Article.
B. The Department shall use the computations provided under R17-6-212, Table 7, to determine the maximum weights allowed for tridem axle group configurations subject to conditions, restrictions, allowances, and route limitations provided under R17-6-212, Table 6.
A. Except as provided under R17-6-212, an applicant requesting an envelope or special permit under this Chapter for transporting a non-reducible overweight or oversize and overweight vehicle, combination of vehicles, or vehicle and load combination shall use the formulas and computations provided under Illustration 3 and Tables 3.01 through 3.09 to determine the maximum weights allowed on any combination of axles spaced within a maximum distance of 18 feet between the front and rear axle of each axle group.
B. The formulas and computations provided under Illustration 3, and Tables 3.01 through 3.09, are an expansion of the federal bridge formula provided under A.R.S. § 28-1100 for use by the Department when issuing an overweight or oversize and overweight envelope or special permit for movement of a non-reducible vehicle or load under this Chapter.
C. The axle group weights provided under Illustration 3, and Tables 3.01 through 3.09 , represent the maximum weights allowed on any combination of axles spaced within a distance of up to 18 feet between the front and rear axle of any given group. The values in Table 3.01 line " $A$ " are an expression of the formula $W=1.5 \times 700(L+$ 40) for $\mathrm{L}=3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 0$ ", where L is the distance between the centers of the front and rear axles of an axle group. The values in line " B " and in the remaining Tables are calculated by applying the percentages provided in the Table footnotes to increase the allowable weights based on wider axle width and an increased number of tires.

Measured axle widths are rounded down to the nearest 3 " increment when determining the appropriate Table to use.

## Illustration 3. Overweight Axle Group Weight Calculation

| (Axle 1); limited to $28,000 \mathrm{lbs}$ for single alone <br> (Axle $2+3$ ); $\mathrm{L}=4 ;$ W $=46,200 \mathrm{lbs}$ for tandem alone <br> (Axle 1) $+($ Axle $2+3) ; \mathrm{L}=14^{\prime} ; \mathrm{W}=56,700 \mathrm{lbs}$ for the group <br> (Axle $4+5$ ); $\mathrm{L}=6^{\prime} ; \mathrm{W}=60,375 \mathrm{lbs}\left(25 \%\right.$ increase for $10^{\prime}$ wide -8 tires) <br> $($ Axle $2+3+4) ; \mathrm{L}=16^{\prime} ; \mathrm{W}=(2 / 3 \times 58,800)+(1 / 3 \times 73,500)=63,700 \mathrm{lbs}$ <br> $($ Axle $3+4+5) ; \mathrm{L}=18 ; \mathrm{W}=(1 / 3 \times 60,900)+(2 / 3 \times 76,125)=71,050 \mathrm{lbs}$ <br> $($ Axle $3+4) ; \mathrm{L}=12$ '; W $=(1 / 2 \times 54,600)+(1 / 2 \times 68,250)=61,425 \mathrm{lbs}$ <br> (Axle $6+7+8) ; \mathrm{L}=10^{\prime} 8^{\prime \prime} ; \mathrm{W}=61,180\left(15 \%\right.$ increase for $10^{\prime}$ wide -4 tires) <br> bles 3.01 through 3.09 provide the maximum allowable axle group weights determined by using the computation formula: eight $=1.5 \times 700(\mathrm{~L}+40)$ for $\mathrm{L}=3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 0^{\prime \prime}$, where $\mathrm{L}=$ Distance between the center of the front axle and the center of rear axle of any group of axles located within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 0^{\prime \prime}$. <br> le group configurations of different widths or numbers of tires are prorated within the total group load when determining any owable increase over the basic formula weight as indicated by the footnotes in Tables 3.01 through 3.09. |  |

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight only.
Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $15 \%$.

Table 3.02. Maximum Permitted Weight Computations: Axle Width - 8 Feet 3 Inches
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 -inch wide tires. Value is the formula weight plus $1.875 \%$. Line B: Eight tires per axle or four 14 ineh wide tires. Value is the formula weight plus $16.25 \%$.

Table 3.02. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 8 Feet 3 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 00^{\prime \prime}$.

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight plus $1.875 \%$.
Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $16.25 \%$.

Table 3.03. Maximum Permitted Weight Computations: Axle Width - 8 Feet 6 Inches
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(L=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 inch wide tires. Value is the formula weight plus $3.75 \%$. Line B: Eight tires per axle or four 14 inch wide tires. Value is the formula weight plus $17.5 \%$.

Table 3.03. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 8 Feet 6 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 0 \prime$ ".

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight plus $3.75 \%$.
Line B: Eight tires per axle or four 14-inch wide tires per axle. Value is the formula weight plus $17.5 \%$.

Table 3.04. Maximum Permitted Weight Computations: Axle Width - 8 Feet 9 Inches
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(L=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 -inch wide tires. Value is the formula weight plus $5.625 \%$. Line B: Eight tires per axle or four 14 inch wide tires. Value is the formula weight plus $18.75 \%$.

Table 3.04. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 8 Feet 9 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5$ " to $18^{\prime} 0$ ",

|  | $\underline{L}=$ | $\xrightarrow{\text { " }} \rightarrow$ | 1" | 2" | 3" | 4" | 5" | $\underline{\prime \prime}$ | 7" | 8" | $\underline{9}$ | 10" | 11" |

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight plus $5.625 \%$.
Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $18.75 \%$.

Table 3.05. Maximum Permitted Weight Computations: Axle Width - 9 Feet
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(L=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 -inch wide tires. Value is the formula weight plus $7.5 \%$. Line B: Eight tires per axle or four 14 inch wide tires. Value is the formma weight plus $20 \%$.

Table 3.05. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 9 Feet 0 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 00^{\prime \prime}$.

|  | $\underline{L}=$ | $\underline{\text { 0" }} \longrightarrow$ | $\underline{1 "}$ | 2" | 3" | 4" | 5" | $\underline{\text { ² }}$ | 7" | $\underline{\text { 8' }}$ | $\underline{9}$ | 10" | 11" |

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(L=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 -inch wide tires. Value is the formula weight plus $9.375 \%$. Line B: Eight tires per axle or four 14 ineh wide tires. Value is the formula weight plus $21.25 \%$.

Table 3.06. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 9 Feet 3 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 00^{\prime \prime}$.

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight plus $9.375 \%$.
Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $21.25 \%$.

Table 3.07. Maximum Permitted Weight Computations: Axle Width - 9 Feet 6 Inches
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Legend (Tire measurement excludes any load-induced tire bulge):
Line A: Four tires per axle or two 14 -inch wide tires per axle. Value is the formula weight plus $13.125 \%$.
Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $23.75 \%$.

Table 3.09. Maximum Permitted Weight Computations: Axle Width - 10 Feet
Overweight Axle Group Chart
Distance between the center of the front axle and the center of the rear axle of a given group.

Computation Formula: Weight $=1.5 \times 700(\mathrm{~L}+40)$
$(L=$ Distance between the center of the front axle and the center of the rear axle of a given group.)
Legend:
Line A: Four tires per axle or two 14 inch wide tires. Value is the formula weight plus $15 \%$. Line B: Eight tires per axle or four 14 inch wide tires. Value is the formula weight plus $25 \%$.

Table 3.09. Maximum Permitted Weight Computations for Overweight Axle Groups - Axle Width 10 Feet 0 Inches
Maximum allowable axle group weights determined by using the computation formula: Weight $=1.5 \mathrm{X} 700(\mathrm{~L}+40)$, where:
$\mathrm{L}=$ Distance between the center of the front axle and the center of the rear axle of any group of axles within a space of $3^{\prime} 5^{\prime \prime}$ to $18^{\prime} 0 \prime$ ".

Line B: Eight tires per axle or four 14 -inch wide tires per axle. Value is the formula weight plus $25 \%$.

## Hlustration 3. Overweight Axle Groups Repealed

## R17-6-412. Highway-specific Restrictions, Requirements, Conditions, and Allowances

A. The Department may temporarily prohibit operation of an oversize or overweight envelope or special permitted vehicle, or impose additional weight restrictions, requirements, conditions, or allowances, if safe transport on a highway under the Department's jurisdiction is unavoidably affected by a temporary construction or maintenance project, incident, or emergency situation as indicated on the Department's seb site atw.az511.gor Arizona Traveler Information System at AZ511.gov.
B. The Department shall post to its seb site website at www.azdot.gov all updates to any temporary or permanent highway restrictions, requirements, conditions, or allowances affecting a route listed under Table 4 as appropriate for safe transport of an oversize or overweight vehicle or vehicle and load.
C. A permittee and driver shall check the Department's site website at www.azdot.gov daily for updates to any temporary or permanent highway restrictions, requirements, conditions, or allowances affecting safe transport of an oversize or overweight vehicle or vehicle and load on a route listed under Table 4.
D. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under Table 4 unless operating in full compliance with all indicated permanent highway restrictions, requirements, conditions and allowances, including any additional instructions indicated on the envelope or special permit issued by the Department.
E. When more than two escort vehicles are required on a route listed under Table 4 due to excess height, length, width, or weight, only two law enforcement escorts are required to ensure the public safety. Multiples of two law enforcement escorts are not required for each excess dimension unless specifically required under a class C special permit.
E.F. A permittee and driver shall additionally check daily for up-to-date information on traffic conditions, road closures, and restrictions by:

1. Accessing the Department's Traffic Operations Center online at www.az511.gov Arizona Traveler Information System at AZ511.gov; or
2. Contacting a highway project engineer at the ADOT district office identified on the Department's web site at www.azdot.gov/Highways website as the office responsible for oversight of the permittee's applicable transport route.
F.G. The information contained in Table 4 reflects highway restrictions, requirements, conditions, and allowances applicable on the effective date of this Section. Real-time updates published The Department shall publish realtime updates as an addendum to Table 4 are posted by the Department to and make those updates available on its web site website at www.azdot.gov, the Arizona Central Commercial Permits office, and Office, the Class C Maintenance Permit Permits Services Unit, and all Arizona Port of Entry locations. This information is critical for ensuring safe transport of an oversize or overweight vehicle or load and is subject to immediate change as provided under this Section.

## Table 5. Renumbered

## R17-6-414. Renumbered

## ARTICLE 5. ENVELOPE PERMIT SPECIAL PROVISIONS

## R17-6-501. General Provisions; Definitions

A. The Department shall issue and regulate oversize and overweight envelope permits as provided under this Chapter. The Department implements these Sections under authority of A.R.S. $\$ \$$ 28-366, 28-1111, 28-1142, 281144, 28-1146, 28-1149, and 28-7045, in collaboration with the Overdimensional Permit Council as prescribed under A.R.S. § 28-1150.
B. An envelope permit issued by the Department under this Article is not applicable for transporting a modular or mobile home.
C. Definitions applicable to this Article are prescribed under R17-6-101, A.R.S. \& 28-101, and A.R.S. § 28-601.

## R17-6-210.R17-6-502. Envelope Permits Permit - Non-specific and Non-reducible Vehicle or Load

A. The Department shall issue an annual or 30 -day oversize envelope permit, or an annual or 30 -day oversize and overweight envelope permit, according to the following criteria for a non-specific and non-reducible vehicle or load that meets the definition of envelope permit under R17-6-101, and does not exceed the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411:

| Vehicle or load description | A non-specific and non-reducible vehicle or load that meets the definition of envelope permit under R17-6-101 and is within the maximum permitted weights provided under R17-6-411 |  |  |
| :---: | :---: | :---: | :---: |
| Permit option | 30-day oversize only |  |  |
|  | 30-day oversize and overweight |  |  |
|  | Annual oversize only |  |  |
|  | Annual oversize and overweight |  |  |
| Fee (A.R.S. § 281143) |  |  | 30-day oversize only |
|  |  |  | 30-day oversize and overweight $\quad \$ 500$ |
|  |  |  | Annual oversize only $\quad \$ 750$ |
|  |  |  | Annual oversize and overweight $\$ 1,500$ |

B. An applicant for an oversize, or oversize and overweight, envelope permit shall apply to the Department and submit appropriate fees using the application procedure provided under R17-6-103 R17-6-503.
C. An applicant for an oversize, or oversize and overweight, envelope permit provided by the Department under subsection (A) for a vehicle that is a self-propelled mobile crane, drilling rig, or similar specialty equipment meeting the dimensional requirements provided under R17 6201 R17-6-205, shall provide submit to the Department proof of gross weight:

1. For an initial application, a public weighmaster's certificate of weight and measure issued at a certified public scale once the vehicle is equipped and set for highway travel; or
2. For a renewal application, a certification by the applicant that no dimension has changed and the vehicle does not exceed the originally certified dimensions or weights.
D. The Department shall assess an additional service charge for An envelope permit holder shall apply to the Department for reissuance of the envelope permit to reflect any changes made to the permittee's name, address, or substitute power units after initial issuance and shall pay the fees prescribed under A.R.S. § 28-1143, as follows:
3. A For a modified permit duplicate: $\$ 25$; and or
4. Each For each additional power unit exceeding the original number of permitted power units: $\$ 50$.
E. A permittee or driver of an oversize or overweight vehicle or load shall not access a route listed under R17-6412, Table 4, unless operating in full compliance with all indicated restrictions and requirements.

## R17-6-503. Envelope Permit - General Application Procedure

A. Unless otherwise provided in this Chapter, an applicant requesting an envelope permit for transport of an oversize, overweight, or oversize and overweight vehicle, combination of vehicles, or vehicle and load combination shall apply to the Department using the appropriate application method provided below for each type of permit required:

1. For an envelope permit authorizing movement of a non-specific non-reducible vehicle, combination of vehicles, or vehicle and load combination with dimensions that do not exceed the class A oversize and overweight special permit limitations provided under R17-6-201:
a. Complete the online application process using the Department's electronic permitting system available on the Department's website; or
b. Complete an oversize/overweight envelope permit application form, available on the Department's website, and mail or deliver the written application to the address indicated on the application.
2. For an envelope permit authorizing movement of a houseboat under A.R.S. § 28-1144(B), complete an envelope permit application form, available on the Department's website, and mail or deliver the written application to the Port of Entry located in Page, Arizona.
B. Unless otherwise provided under this Chapter, an applicant for an oversize or overweight envelope permit shall provide to the Department, at the time of application, all applicable fees and information required by the Department under R17-6-502 and this Section for issuance of an appropriate class of permit, including:
3. Motor carrier related information:
a. Name and address of the applicant's principal or established place of business;
b. Name, phone number, and email address of an official company representative; and
c. USDOT number;
4. Power unit related information:
a. Vehicle make, body style, and year;
b. Vehicle identification number;
c. Unit number assigned;
d. License plate number; and
e. Base jurisdiction - state of registration;
5. Evidence of valid registration as provided under A.R.S. § 28-2153; and
6. Evidence of a valid IFTA license as provided under A.R.S. § 28-5742, if applicable.
C. An applicant for an oversize or overweight envelope permit shall certify to the Department that all information provided on the application is true and correct.

## R17-6-504. Envelope Permit - Class C Tridem Axle Group Configurations

A. The Department may issue a 30-day or annual oversize envelope permit, or oversize and overweight envelope permit under this Article, using the criteria provided under R17-6-212 for tridem axle group configurations. An envelope permit issued by the Department in accordance with the tridem axle group configuration criteria is also valid for movement of all class A non-specific and non-reducible vehicle or load combinations that meet the definition of envelope permit under R17-6-101.
B. A permittee or driver issued an envelope permit for tridem axle group configurations under subsection (A) shall ensure that the non-specific and non-reducible vehicle or load combination transported under the envelope permit does not exceed the maximum permitted weight computations for overweight axle group weight distribution as provided under R17-6-411 or the maximum permitted weight of 60,000 pounds per tridem axle group, as applicable, subject to the routes and restrictions provided under R17-6-412, Table 4.

## R17-6-505. Envelope Permit - Trip Authorization Process for Tridem Axle Group Configurations

A. A permittee or driver issued an annual envelope permit under R17-6-504(A) shall:

1. Comply with all provisions applicable to the application, issuance, and maintenance of envelope permits issued by the Department under this Chapter; and
2. Notify the Department before initiating transport of any vehicle, combination of vehicles, or vehicle and load combination using the annual envelope permit by:
a. Completing the electronic notification process made available by the Department on its website; and
b. Obtaining a trip-authorization number.
B. A permittee or driver shall carry the trip-authorization number in the vehicle with the annual envelope permit at all times during transport as confirmation that the notification process was completed.

## R17-6-506. Page-Lake Powell Area Houseboat Hauling Envelope Permit

A. An applicant requesting an envelope permit for a vehicle hauling a houseboat under A.R.S. § 28-1144(B) shall:

1. Apply to the Department using the application procedure provided under R17-6-103 R17-6-503; and
2. Pay the applicable fees prescribed under R17-6-210 R17-6-502.
B. A permittee issued an envelope permit under this Section shall:
3. Comply with all provisions applicable to the application, issuance, and maintenance of envelope permits under this Chapter;
4. Notify the Department as required under A.R.S. § 28-1144(B) before transporting a houseboat authorized by the envelope permit. This notification shall include at least the following information:
a. The number of the authorizing envelope permit;
b. The date of transport;
c. The transport origination;
d. The transport destination;
e. The name and hull identification number of the houseboat being transported;
f. The overall length, height, and width of the vehicle and load combination;
g. The overall gross weight of the vehicle and load combination; and
h. The total number of axles on the vehicle and load combination;
5. Notify the Department each time information submitted under subsection (B)(2) of this Section changes by submitting a new notification to the Department; and
6. Complete the notifications required under subsections $(B)(2)$ and $\underline{(B)(3)}$ of this Section electronically through the Department's web site website at www.azdot.gov.

## R17-6-501-R17-6-507. Envelope Permit Required Recordkeeping

A. An envelope permit holder shall maintain in this state, for at least three years, records and other data for all vehicles operated, and cargo transported, under an envelope permit as required under A.R.S. § 28-1149. The records and other data shall include:

1. Bills of lading,
2. Shipping manifests, and
3. Time cards or invoices.
B. A record retained by an envelope permit holder under subsection (A) shall contain, at least, the following information:
4. Date of document preparation,
5. Name of shipper and name of receiver,
6. Address of load origination,
7. Address of load destination, and
8. Dates of transport.

## R17-6-502.R17-6-508. Envelope Permit Suspension Point System

The Director shall suspend an envelope permit, as prescribed under A.R.S. § 28-1147, by assigning points to the permittee for envelope permit violations as follows:

1. Minor violations - one point:
a. Improper or inadequate flagging as provided under R17-6-302 and R17-6-307,
b. Improper or inadequate lighting as provided under R17-6-304 and R17-6-307,
c. Improper or inadequate "OVERSIZE LOAD" signage display as provided under R17-6-303,
d. Use of an escort vehicle not equipped as provided under R17-6-305,
e. Failing to maintain proper follow-distance from another oversize or overweight vehicle or load as provided under R17-6-401, or
f. Exceeding permitted speed but not exceeding posted speed as provided under R17-6-402 R17-6-401.
2. Major violations - three points:
a. Transporting a permitted vehicle or load on a highway restricted to certain hours of travel under R17-6404 through R17-6-407, or R17-6-412, Table 4 Article 4 of this Chapter;
b. Failing to display flags or lights when required under R17-6-302, R17-6-304, or R17-6-307;
c. Failing to display "OVERSIZE LOAD" signage when required under R17-6-303;
d. Exceeding the posted speed limit; or
e. Transporting a reducible load under an envelope permit.
3. Weight Violations, 1-36 points:
a. Gross vehicle weight exceeds the maximum weight allowed under R17-6-411:
i. Less than $2 \%$ over allowable weight - one point,
ii. $2 \%$ but less than $4 \%$ over allowable weight - two points,
iii. $4 \%$ but less than $6 \%$ over allowable weight - three points,
iv. $6 \%$ but less than $9 \%$ over allowable weight - six points,
v. $9 \%$ but less than $12 \%$ over allowable weight -10 points,
vi. $12 \%$ but less than $15 \%$ over allowable weight -18 points, or
vii. $15 \%$ or more over allowable weight -36 points.
b. For each axle group exceeding the maximum weight allowed under R17-6-411:
i. Less than $4 \%$ over allowable weight - one point,
ii. $4 \%$ but less than $6 \%$ over allowable weight - two points,
iii. $6 \%$ but less than $9 \%$ over allowable weight - four points,
iv. $9 \%$ but less than $12 \%$ over allowable weight - six points,
v. $12 \%$ but less than $15 \%$ over allowable weight -10 points,
vi. $15 \%$ but less than $20 \%$ over allowable weight -18 points, or
vii. $20 \%$ or more over allowable weight -36 points.
4. Flagrant Violations - 36 points:
a. Transporting a permitted load on a highway during a hazardous condition restricting travel under R17 6-403 R17-6-405 or in violation of a law enforcement agency order,
b. Exceeding an envelope dimension as prescribed under A.R.S. § 28-1144,
c. Falsifying a permit application,
d. Altering a permit,
e. Failing to pay repair costs for highway damages as prescribed under A.R.S. § 28-1107,
f. Transporting a permitted load on a restricted highway or restricted bridge,
g. Failing to use an escort vehicle as provided under R17-6-305 required under this Chapter, or
h. Failing to use an escort vehicle with a driver that meets the standards provided under R17-6-305.

## R17-6-503.R17-6-509. Envelope Permit Suspension; Revocation; Enforcement

A. The Director shall suspend an envelope permit for point accumulation within any 12-month period according to the following schedule:

1. 14-19 points, one-week suspension;
2. 20-29 points, two-week suspension;
3. 30-35 points, four-week suspension; and
4. More than 35 points, one-year suspension.
B. The Director shall revoke an envelope permit as provided under A.R.S. § 28-1147 for the following reasons:
5. Frequency of violation indicates a flagrant disregard for the law or the safety of the public,
6. A permittee does not have an established place of business, or
7. A permittee fails to maintain records as prescribed under R17-6-504 R17-6-507 and A.R.S. § 28-1149.
C. A permittee shall surrender the permit to the Department within 72 hours after an order of suspension or revocation is effective.
8. If the permittee fails to surrender the permit within five working days of written demand, the Director shall suspend the permittee's envelope permit privileges for one year in addition to any other penalty assessed.
9. The Department shall retrieve the permit if the permittee fails to return the permit within the prescribed time.
D. The Department shall not issue an envelope permit to a permittee during the permittee's period of suspension or revocation.

## R17-6-504.R17-6-510. Notice of Point Assessment, Denial, Suspension, or Revocation

A. The Department shall send to a permittee's last known address of record notice of the following:

1. Point assessment; or
2. Permit denial, suspension, or revocation.
B. The notice shall inform the permittee of:
3. The right to appeal the action, and
4. The procedure for requesting a hearing.
C. Any action taken under this Section becomes effective 25 days after the Department's action notice date unless a permittee submits a timely hearing request as provided under 17 A.A.C. 1, Article 5.

## R17-6-505-R17-6-511. Envelope Permit Reapplication

A. An envelope permit applicant denied issuance by the Department, as prescribed under A.R.S. § 28-1142, shall not reapply for an envelope permit for two years from the date of denial.
B. An envelope permit applicant, who has previously had an envelope permit revoked by the Department under A.R.S. § 28-1147, shall not reapply for an envelope permit for two years from the date of revocation.
C. Upon reapplication, an applicant shall show by a preponderance of evidence that the underlying cause for denial or revocation has been removed.
