

## Aviation, Aerospace, and Defense Support Arizona

Arizona is home to 67 publicly owned, public-use airports that support the economic vitality and quality of life within the Grand Canyon State. Some of the world's most cutting-edge aerospace and defense companies and numerous United States (U.S.) military installations with a significant aviation-related component are also located across the state. The 2021 Arizona Aviation Economic Impact Study (AEIS) commissioned by the Arizona Department of Transportation (ADOT) Aeronautics Group examines the impacts of these three vital aspects of aviation and aerospace in Arizona.

Together these components contribute over \$121.4 billion to our economy every year—providing a foundation for Arizona's culture of growth, innovation, and economic prosperity.

### STATEWIDE ECONOMIC IMPACT

# \$121.4 Billion

Notes and Sources: (1) Impacts modeled by IHS Markit using IMPLAN [2019]. (2) Impacts obtained from the Economic Impacts of Arizona's Principal Military Operations commissioned by the Military Affairs Commission. Prepared by The Maguire Company [2017]. (3) Impacts modeled by IHS Markit using IMPLAN for 59 study airports. Eight airports requested that their independently conducted studies be incorporated into the ADOT AEIS study results [2019]. Please see the AEIS Technical Report for further details.

## Tax Impacts

Airports' direct economic impacts result in local and state tax revenues. On-airport businesses pay business and operating (B&O) taxes. Visitor spending generates taxes and fees associated with sales; hotel stays; and use of transportation services including rental cars, Transportation Network Companies (TNCs), and taxis.

### 2019 Tax Impacts

Airport-specific (AZC)	\$92,000
All Airports in Mohave County	\$18,559,000
<b>Total Statewide Airport Tax Impacts</b>	<b>\$3,472,766,000</b>

## ARIZONA AVIATION ECONOMIC IMPACT STUDY

### Colorado City Municipal Colorado City

## What Does Economic Impact Measure?

The Arizona AEIS measured how economic activity at the state's airports stimulated the Arizona economy in 2019. Impacts are generated by airport administration and business tenant employees working on airport property, capital improvement spending, and the thousands of out-of-state and international visitors who fly to Arizona and bring new money into our economy.

In turn, airport administration and on-airport business tenants purchase goods from suppliers (indirect impacts) and airport workers spend the money they earn (induced impacts), generating successive waves of economic impacts in Arizona.

## Arizona Airports are Vital to the Economy

Arizona's diverse airports support commercial passenger service; world-class general aviation (GA) activities such as flight training, skydiving, and aerial tours; and air cargo while serving as regional job centers and economic engines in their communities.

## Statewide Economic Impact of Arizona Airports\*

Arizona's airports contributed **\$33.0B in value added** to the state, equaling 10.2% of the total Gross State Product in 2019.

*\*This includes the economic impacts of Arizona's airports but excludes aerospace manufacturing and military operations.*

**Jobs**  
386,057

**Earnings**  
\$20.4B

**Economic Activity**  
\$59.4B

## Top Airport Activities at AZC

## Economic Impact of AZC

**\$969,000**

On-airport  
Activities

**\$148,000**

Visitor  
Spending

Indirect/Induced  
**\$733,000**

### AZC Total Impacts

**Jobs: 10**  
Number of full- and part-time persons employed

**Earnings: \$567,000**  
Total compensation paid to workers including wages and benefits

**Economic Activity (Output): \$1,849,000**  
Value of sales that occur in the Arizona economy that are ultimately attributable to airport activities

## Colorado City Municipal (AZC)

Colorado City Municipal Airport (AZC) is a GA airport in northern Arizona located three miles southwest of Colorado City. The airport has two paved runways, 02/20 and 11/29, that are 5,099 and 6,300 feet long, respectively. AZC is located less than three miles from the Utah border and near several world-famous recreational areas, including Zion and Bryce Canyon national parks. As such, AZC is a popular destination for recreational pilots visiting nearby attractions. The airport supports a variety of other GA activities, including daily flight training and weekly charter flights. There are multiple based business jets at AZC that regularly transport local businessmen to and from Colorado City. The airport's fixed-base operator (FBO), Escalade Air, offers both AvGas and Jet A fuel as well as ground service and minor aircraft repairs. AZC also supports aerial medical evacuations by rotorcraft and fixed-wing aircraft, improving the safety and accessibility of the local community.

### Did You Know?

AZC supported skydiving operations for hundreds of visitors in 2019 while the nearby airport in Hurricane, Utah underwent runway maintenance.
