

Aviation, Aerospace, and Defense Support Arizona

Arizona is home to 67 publicly owned, public-use airports that support the economic vitality and quality of life within the Grand Canyon State. Some of the world's most cutting-edge aerospace and defense companies and numerous United States (U.S.) military installations with a significant aviation-related component are also located across the state. The 2021 Arizona Aviation Economic Impact Study (AEIS) commissioned by the Arizona Department of Transportation (ADOT) Aeronautics Group examines the impacts of these three vital aspects of aviation and aerospace in Arizona.

Together these components contribute over \$121.4 billion to our economy every year—providing a foundation for Arizona's culture of growth, innovation, and economic prosperity.

STATEWIDE ECONOMIC IMPACT

\$121.4 Billion

Aerospace
Manufacturing¹

\$51.5B

Military Operations²

\$10.5B

Arizona Airports³

\$59.4B

Notes and Sources: (1) Impacts modeled by IHS Markit using IMPLAN [2019]. (2) Impacts obtained from the Economic Impacts of Arizona's Principal Military Operations commissioned by the Military Affairs Commission. Prepared by The Maguire Company [2017]. (3) Impacts modeled by IHS Markit using IMPLAN for 59 study airports. Eight airports requested that their independently conducted studies be incorporated into the ADOT AEIS study results [2019]. Please see the AEIS Technical Report for further details.

Tax Impacts

Airports' direct economic impacts result in local and state tax revenues. On-airport businesses pay business and operating (B&O) taxes. Visitor spending generates taxes and fees associated with sales; hotel stays; and use of transportation services including rental cars, Transportation Network Companies (TNCs), and taxis.

2019 Tax Impacts

Airport-specific (E25)	\$490,000
All Airports in Maricopa County	\$2,821,418,000
Total Statewide Airport Tax Impacts	\$3,472,766,000

ARIZONA AVIATION ECONOMIC IMPACT STUDY

Wickenburg Municipal Wickenburg

What Does Economic Impact Measure?

The Arizona AEIS measured how economic activity at the state's airports stimulated the Arizona economy in 2019. Impacts are generated by airport administration and business tenant employees working on airport property, capital improvement spending, and the thousands of out-of-state and international visitors who fly to Arizona and bring new money into our economy.

In turn, airport administration and on-airport business tenants purchase goods from suppliers (indirect impacts) and airport workers spend the money they earn (induced impacts), generating successive waves of economic impacts in Arizona.

Arizona Airports are Vital to the Economy

Arizona's diverse airports support commercial passenger service; world-class general aviation (GA) activities such as flight training, skydiving, and aerial tours; and air cargo while serving as regional job centers and economic engines in their communities.

Statewide Economic Impact of Arizona Airports*

Arizona's airports contributed **\$33.0B in value added** to the state, equaling 10.2% of the total Gross State Product in 2019.

**This includes the economic impacts of Arizona's airports but excludes aerospace manufacturing and military operations.*

Economic Activity (Output): \$8,610,000
Value of sales that occur in the Arizona economy that are ultimately attributable to airport activities

Wickenburg Municipal (E25)

Wickenburg Municipal Airport (E25) is a GA airport in central Arizona located three miles west of the town of Wickenburg. E25 has a single paved runway (05/23) that is 6,101 feet long and 75 feet wide. Wickenburg Municipal Airport is a valuable resource for local medical facilities as it is used to conduct emergency flights and planned patient transfers. The town of Wickenburg is home to several world-class medical rehabilitation centers which garner air traffic from across the U.S. Many local businesses base their aircraft at Wickenburg Municipal Airport for corporate/business travel. E25 receives daily touch-and-go operations by student pilots from across central Arizona. Due to the airport's uncongested airspace, student pilots enjoy more flight time and training than can be offered by facilities in other parts of the Phoenix Valley. In addition to flight training, Wickenburg Municipal Airport supports essential U.S. Forest Service aerial firefighting missions. E25's tenant, Master Aircraft Services, is one of a few facilities in Arizona that offers custom aircraft painting services and is committed to reducing their ecological footprint as much as possible.

Did You Know?

Each October, E25 hosts the Wickenburg Fly-in and Classic Car Show, attracting more than 500 pilots and visitors to the community.
