

Aviation, Aerospace, and Defense Support Arizona

Arizona is home to 67 publicly owned, public-use airports that support the economic vitality and quality of life within the Grand Canyon State. Some of the world's most cutting-edge aerospace and defense companies and numerous United States (U.S.) military installations with a significant aviation-related component are also located across the state. The 2021 Arizona Aviation Economic Impact Study (AEIS) commissioned by the Arizona Department of Transportation (ADOT) Aeronautics Group examines the impacts of these three vital aspects of aviation and aerospace in Arizona.

Together these components contribute over \$121.4 billion to our economy every year—providing a foundation for Arizona's culture of growth, innovation, and economic prosperity.

STATEWIDE ECONOMIC IMPACT

\$121.4 Billion

Notes and Sources: (1) Impacts modeled by IHS Markit using IMPLAN [2019]. (2) Impacts obtained from the Economic Impacts of Arizona's Principal Military Operations commissioned by the Military Affairs Commission. Prepared by The Maguire Company [2017]. (3) Impacts modeled by IHS Markit using IMPLAN for 59 study airports. Eight airports requested that their independently conducted studies be incorporated into the ADOT AEIS study results [2019]. Please see the AEIS Technical Report for further details.

Tax Impacts

Airports' direct economic impacts result in local and state tax revenues. On-airport businesses pay business and operating (B&O) taxes. Visitor spending generates taxes and fees associated with sales; hotel stays; and use of transportation services including rental cars, Transportation Network Companies (TNCs), and taxis.

2019 Tax Impacts

Airport-specific (P33)	\$113,000
All Airports in Cochise County	\$2,310,000
Total Statewide Airport Tax Impacts	\$3,472,766,000

ARIZONA AVIATION ECONOMIC IMPACT STUDY

Cochise County

Willcox

What Does Economic Impact Measure?

The Arizona AEIS measured how economic activity at the state's airports stimulated the Arizona economy in 2019. Impacts are generated by airport administration and business tenant employees working on airport property, capital improvement spending, and the thousands of out-of-state and international visitors who fly to Arizona and bring new money into our economy.

In turn, airport administration and on-airport business tenants purchase goods from suppliers (indirect impacts) and airport workers spend the money they earn (induced impacts), generating successive waves of economic impacts in Arizona.

Arizona Airports are Vital to the Economy

Arizona's diverse airports support commercial passenger service; world-class general aviation (GA) activities such as flight training, skydiving, and aerial tours; and air cargo while serving as regional job centers and economic engines in their communities.

Statewide Economic Impact of Arizona Airports*

Arizona's airports contributed **\$33.0B in value added** to the state, equaling 10.2% of the total Gross State Product in 2019.

**This includes the economic impacts of Arizona's airports but excludes aerospace manufacturing and military operations.*

Cochise County (P33)

Cochise County Airport (P33) is a GA airport in southeastern Arizona located three miles west of the city of Willcox. P33 has a single paved runway (03/21) that is 6,095 feet in length and 75 feet wide. The airport is the only airfield in the northern part of Cochise County that can accommodate both small, piston-powered GA aircraft and turbine-powered corporate jets. P33 offers numerous amenities to current and potential future on-airport business tenants, including convenient access to ground transportation and utilities infrastructure. Located just three miles south of the central business of Willcox, the airport sees frequent business flying activity, primarily for agribusiness operations. P33 is regularly utilized by flight schools based in nearby Douglas and Tucson, as well as the Phoenix metropolitan area to the north. The airport's fixed-base operator (FBO), Walden Aviation, serves airport users and provides pilot supplies, fuel, and minor aircraft repair services.

Did You Know?

P33 is a critical asset for southeastern Arizona as it frequently supports aerial/wildland firefighting, law enforcement, and military training activities.
