

Construction Update

Northbound I-17 frontage road, ramp closures between Thunderbird and Greenway roads to begin Jan. 16

Beginning Jan. 16 and continuing through fall 2022, the following closures will be in place around the clock for the Interstate 17 Drainage Improvement Project:

- The I-17 northbound on-ramp at Thunderbird Road and the northbound off-ramp at Greenway Road will be closed.
 - Detour: Drivers can use 35th or 19th avenues to Cactus or Greenway roads to access northbound I-17.
- The northbound I-17 frontage road between Thunderbird and Greenway roads will be closed.
 - Detour: Drivers can use 35th and 19th avenues as alternate routes.
- Periodic weekend and overnight closures of Greenway Road will also be required. ADOT will provide more details prior to these closures.
- The southbound I-17 frontage road between Thunderbird and Cactus roads, as well as the on-ramp at Thunderbird Road and off-ramp at Cactus Road will remain closed through early spring 2022.
 - Detours: Southbound drivers can exit I-17 at Thunderbird Road and use 35th or 19th avenues to access Cactus Road.
 - Drivers can use 35th or 19th avenues to Greenway or Cactus roads to access southbound I-17.

The closures are needed to install a new storm drain along the frontage road and connect it to the Arizona Canal Diversion Channel north of Dunlap Avenue.

ABOUT THE PROJECT

The Interstate 17 Drainage Project will improve the storm water drainage system between Greenway Road and Dunlap Avenue in Phoenix to reduce the potential for flooding at the cross streets. The improvements include constructing a new storm drain system to direct storm water into the Arizona Canal Diversion Channel, new drainage basins at Thunderbird Road, and removing the existing pump stations at the cross streets.
