25. DESCRIPTION OF REQUEST
Establish a new project.

26. JUSTIFICATION OF REQUEST
The BIL act established a formula funded electric vehicle charging station program. The goal of the formula program is to install electric vehicle charging stations every fifty miles along alternative fuel corridors within the state. In AZ, all the interstates have been identified as alternative fuel corridors or pending alternative fuel corridors. More alternative fuel corridors may be added in the round 6 designations in May 2022. In order to make use of the formula funds the State must prepare a complex EV Deployment Plan, which includes extensive public and stakeholder outreach, by August 1, 2022. This effort will require participation from many areas in ADOT.
