Supervisor: Salvador Mata 623.393.8376

I-10	MP 52 — 113.40
SR 85	MP 148.5 — 155.04

#### TRUE NORTH

Safely Home

#### MISSION

Connecting Arizona.  
Everyone. Everywhere. Every Day.

#### VISION

Moving Arizona.  
Becoming the safest, most reliable  
transportation system in the nation.

## TRAFFIC INCIDENT MANAGEMENT:

### QUICK CLEARANCE

#### FENDER BENDER?

If you're in a minor or non-injury crash and your vehicle is operable, move it out of travel lanes.

**M**ove your vehicle to the side of the road and inspect it there – not in dangerous travel lanes.

**O**ften, a primary crash leads to a traffic backup and increases the risk of a secondary crash, which can be more severe than the original collision.

**V**ehicles involved in a non-injury crash that remain operable, according to Arizona law, must be removed from the roadway.

**E**mergency responders – police, fire, tow truck operators, etc. – need a safe place to work, too. On average, a tow truck operator is struck and killed every six days in the U.S.

Why move your vehicle out of travel lanes?

- Driver Safety
- Traveler Safety
- Responder Safety
- It's the Law!
