URGENT STANDARDS (Drawings, Specification and Test method)
 At times the State Engineers Office may need to bypass the standards committee process for urgent standards that need to be implemented immediately. Once the action is taken the standard will be brought to the committee for discussion and consideration.

Vendor/Supplier is a company that sells/ offers goods and services to ADOT through Contractors (AGC) in the economic/ construction production chain and/or would like to modify existing specifications to better serve ADOT and motoring public.
