Discussion followed about the prioritization of projects to fund. If next high priority project is not selected what should be the process? This relies on fiscal constraint and the funds available. This is how Item 7-5 is selected as it is ready to construct and can be moved forward because it is at the end of the Federal Fiscal Year 2022. There is the possibility that Item 7-4 can be moved back to FY 23 once funds become available. However the project is not ready and the Environmental Clearance has not been approved.
