**Terms & Conditions**  
**Arizona Department of Transportation (the 'Department')**

**Fees and Compliance**

Before submitting an application, Applicants are encouraged to confirm that their proposed sign complies with all codes, laws, and regulations, including those described below. When multiple or conflicting rules and regulations exist in relation to any aspect of the sign, its structure, or its location, the more restrictive regulations shall apply. The Applicant/Permittee shall comply with all of the following:

ARS § 28-7901-7915 and AAC R17-3-701 & 701.01

Local, county, state, and federal codes, laws, and regulations

Proposed signs shall not be erected prior to the issuance of a permit. If the sign has been erected in violation of this requirement, the application/permit will become invalid and be canceled.

If the landowner withdraws their permission for the sign to be located on their land at any time, the Department may cancel the permit.

**Installation**

Within 120 calendar days of the date the Department issues the permit, the Permittee shall erect the advertising structure (whole sign built, with or without copy), as identified in the application. The sign shall bear the official decal issued by the Department. Prior to the expiration of 120 calendar days, the Permittee may submit a written request for extension of time. The Department may grant one 60 calendar day extension.

Each sign must be located at the point described in the permit. If the sign is not located at that point, this permit will become invalid and be canceled. The sign must also be removed at the Permittee's expense.

When the sign structure has been erected, the Permittee shall notify the Department, in writing.

The Permittee shall affix the decal provided by the Department on a permanent surface near the portion of the sign structure closest to the main-traveled way and clearly visible from the roadway. Permit decals to replace any which have been issued and were improperly affixed, lost or destroyed, whether before or after attaching to the sign structure, may be purchased for \$5.00.

**Changes**

The Permittee shall contact the Department regarding proposed changes (from static to electronic format or change in material composition) to a permitted sign structure. If the requests are appropriate, and there are no violations of an existing permit, the Department shall grant approval of the requests.

**Relocation**

The Department may only issue Outdoor advertising permits for specific locations. Therefore, if the Permittee wishes to relocate a sign, the Permittee shall obtain a new outdoor advertising permit.

**Renewals**

From the date of issuance, the permit shall be valid for a period of one year. It shall be renewable annually upon payment of a \$5.00 fee.

Payment of the permit renewal fee constitutes acceptance of all federal and state laws governing outdoor advertising control effective on the date of renewal. Payment also certifies there have been no unreported changes to the sign structure since issuance of the permit.

Renewal fees will become delinquent 30 calendar days after the annual renewal date. On becoming delinquent, such sign structure will be in violation and a new initial application fee of \$20.00 will be required.

**Transfer of Ownership**

Permits are transferable upon sale of sign provided a new owner furnishes the Department with notification of sale within 30 calendar days of sale. The new sign owner shall accept all the terms and conditions of this permit.

**Revocation**

The Department is authorized to revoke any sign permit issued (a) upon failure of the Permittee to comply with the plans and documentation supporting the application for the permit, or (b) if the permit was issued in error or on the basis of misstatement of facts or fraud by the Applicant or Permittee.

The above terms and conditions are not a complete statement of federal laws, state laws, and regulations governing outdoor advertising control. The terms and conditions do not limit the Department from acting in conformance with such laws.

**Appeal**

The land owner or sign owner may request a hearing related to a permit application denied or other action taken by the Department. If the land owner or sign owner wishes to request a hearing, they must make the request within seven calendar days after notice of the action is mailed or posted. The written request for appeal must be submitted to the ADOT Executive Hearing Office.
